

SB 306 -- TESTING OF COMPOUNDED DRUGS

Currently, any person authorized by the Board of Pharmacy in the Division of Professional Registration within the Department of Insurance, Financial Institutions and Professional Registration may enter and inspect any open premises selling drugs or chemicals. This bill allows the board to establish and implement a program for testing drugs or drug products maintained, compounded, filled, or dispensed by licensees, registrants, or permit holders of the board. The board must pay all testing costs and must reimburse the licensee, registrant, or permit holder for the reasonable, usual, and customary cost of the drug or drug product requested for testing.
