98 registered physician assistant, whether written or not, prior to August 28, 1993, all records of
99 such disciplinary licensure action and all records pertaining to the filing, investigation or review
100 of an alleged violation of this chapter incurred as a result of such an agreement shall be removed
101 from the records of the state board of registration for the healing arts and the division of
102 professional registration and shall not be disclosed to any public or private entity seeking such
103 information from the board or the division. The state board of registration for the healing arts
104 shall take action to correct reports of alleged violations and disciplinary actions as described in
105 this section which have been submitted to the National Practitioner Data Bank. In subsequent
106 applications or representations relating to his medical practice, a physician completing forms or

112 authority to prescribe controlled substances, or physician assistant agreement and also report to
113 the board the name of each licensed professional with whom the physician has entered into such
114 agreement. The board may make this information available to the public. The board shall track
115 the reported information and may routinely conduct random reviews of such agreements to
116 ensure that agreements are carried out for compliance under this chapter.

117 7. Notwithstanding any law to the contrary, a certified registered nurse anesthetist as
118 defined in subdivision (8) of section 335.016 shall be permitted to provide anesthesia services
119 without a collaborative practice arrangement provided that he or she is under the supervision of
120 an anesthesiologist or other physician, dentist, or podiatrist who is immediately available if
121 needed. Nothing in this subsection shall be construed to prohibit or prevent a certified registered
122 nurse anesthetist as defined in subdivision (8) of section 335.016 from entering into a
123 collaborative practice arrangement under this section, except that the collaborative practice

124 arrangement may not delegate the authority to prescribe any controlled substances listed in
125 Schedules III, IV, and V of section 195.017.

126 8. A collaborating physician shall not enter into a collaborative practice arrangement
127 with more than three full-time equivalent advanced practice registered nurses. This limitation
128 shall not apply to collaborative arrangements of hospital employees providing inpatient care
129 service in hospitals as defined in chapter 197 or population-based public health services as
130 defined by 20 CSR 2150-5.100 as of April 30, 2008.

131 9. It is the responsibility of the collaborating physician to determine and document the
132 completion of at least a one-month period of time during which the advanced practice registered
133 nurse shall practice with the collaborating physician continuously present before practicing in
134 a setting where the collaborating physician is not continuously present. This limitation shall not
135 apply to collaborative arrangements of providers of population-based public health services as
136 defined by 20 CSR 2150-5.100 as of April 30, 2008.

137 10. No agreement made under this section shall supersede current hospital licensing
138 regulations governing hospital medication orders under protocols or standing orders for the
139 purpose of delivering inpatient or emergency care within a hospital as defined in section 197.020
140 if such protocols or standing orders have been approved by the hospital's medical staff and
141 pharmaceutical therapeutics committee.

142 11. No contract or other agreement shall require a physician to act as a collaborating
143 physician for an advanced practice registered nurse against the physician's will. A physician
144 shall have the right to refuse to act as a collaborating physician, without penalty, for a particular
145 advanced practice registered nurse. No contract or other agreement shall limit the collaborating
146 physician's ultimate authority over any protocols or standing orders or in the delegation of the
147 physician's authority to any advanced practice registered nurse, but this requirement shall not
148 authorize a physician in implementing such protocols, standing orders, or delegation to violate
149 applicable standards for safe medical practice established by hospital's medical staff.

150 12. No contract or other agreement shall require any advanced practice registered nurse
151 to serve as a collaborating advanced practice registered nurse for any collaborating physician
152 against the advanced practice registered nurse's will. An advanced practice registered nurse shall
153 have the right to refuse to collaborate, without penalty, with a particular physician.
