FISCAL IMPACT - Small Business

This proposal could have a positive fiscal impact on small business pharmacy providers.

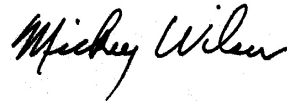

FISCAL DESCRIPTION

This proposal establishes guidelines for the regulation of occupations and professions not regulated by the Division of Professional Registration within the Department of Insurance, Financial Institutions and Professional Registration prior to January 1, 2015, and those regulated professions that seek to substantially increase their scope of practice. The proposal specifies that an individual may engage in the occupation of his or her choice, free from unreasonable government regulation. The state may not impose a substantial burden on an individual's pursuit of his or her occupation or profession unless there is a compelling interest for the state to protect the general welfare. Where an interest exists, the regulation adopted by the state should be the least restrictive type of regulation consistent with the public interest to be protected.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
