FISCAL ANALYSIS

ASSUMPTION

In response to the previous version of this proposal, officials at the **Office of Administration's Division of Budget and Planning (BAP)** assumed this proposal would not fiscally impact BAP. This proposal creates a tax credit for qualifying taxpayers that renovate certain rental properties. The annual issuance limit under the program is \$5 million; therefore General and Total State Revenues may be reduced annually by that amount.

In response to the previous version of this proposal, officials at the **Department of Revenue (DOR)** assumed this proposal would require computer programming changes to various tax systems. The IT portion of this fiscal impact is estimated at \$9,173 for 336 FTE hours.

DOR's Personal Tax Division would require the need for one Revenue Processing Technician I for additional tax credits claimed. DOR's Collections and Tax Assistance Division would need two Tax Collection Technicians I's for additional contacts on the delinquent and non-delinquent tax lines and one Revenue Processing Technician I for additional contacts to the tax assist offices.

Oversight assumes DOR is provided with core funding to handle a certain amount of computer programming activity each year. Oversight assumes DOR could absorb the programming costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, DOR could request funding through the appropriation process.

Oversight assumes DOR's Personal Tax Division and Collections and Tax Assistance Division could absorb the responsibilities of this tax credit with existing resources. Should DOR experience the number of additional tax credit redemptions to justify another FTE, they could seek that FTE through the appropriation process.

Officials at the **Joint Committee on Administrative Rules** assume there is no fiscal impact from this proposal.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the

ASSUMPTION (continued)

General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Oversight assumes this creates a new tax credit beginning January 1, 2015, with a \$5 million annual cap. Oversight will show the amount of loss revenue to the State in FY 2016 and FY 2017 as \$0 (no credits issued) to the annual cap.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

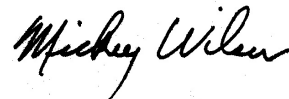

FISCAL DESCRIPTION

This proposal authorizes an income tax credit for certain costs incurred in the renovation of a taxpayer's rented dwelling or residence.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
