

HB 1958 -- PREKINDERGARTEN PROGRAMS

SPONSOR: Schupp

This bill allows state funding through the foundation formula for prekindergarten students between the ages of three and five when the school district provides full-day kindergarten and meets standards established by the State Board of Education. The bill becomes effective in the school year after the school year in which the foundation formula is fully funded and remains in effect in any succeeding year, even if formula funding changes. The bill does not require school attendance beyond what is required under the compulsory attendance law and does not change laws relating to kindergarten.
