

HB 2044 -- MOTOR VEHICLE LICENSE FEE OFFICES

SPONSOR: Fraker

Beginning January 1, 2015, this bill requires the local county motor vehicle license fee office to be responsible for the license process and to receive the processing fees when an individual applies for a motor vehicle license or renews his or her license with the motor vehicle on-line license renewal system. If more than one fee office is located within a county, the fee offices in that county may bid for the on-line work and associated fees in the county.
