

## HB 2121 -- ALTERNATIVE FUELING DEVICES

SPONSOR: Kolkmeier

This bill adds compressed natural gas meters, liquefied natural gas meters, electrical charging stations, and hydrogen fuel meters to the list of devices that the Division of Weights and Measures in the Department of Agriculture may establish a fee for the registration, inspection, and calibration services performed by the division that is to be deposited into the Agriculture Protection Fund. The provisions regarding standards of weights and measures must apply to commercial weighing and measuring equipment used for measuring or ascertaining the quantity of gas, electricity, or fuel for vehicle use including, but not limited to, compressed natural gas meters, liquefied natural gas meters, electrical charging stations, and hydrogen fuel meters.
