

HB 2127 -- ELECTRONIC PAYMENT OF SALARIES AND WAGES FOR POLITICAL
SUBDIVISION EMPLOYEES

SPONSOR: McManus

This bill allows any political subdivision to establish an electronic funds transfer system to transfer directly into an employee's account in a financial institution in payment of any account allowed against the political subdivision. A single transfer may contain payments to multiple payees.

If an electronic funds transfer system is established, the political subdivision must provide for the issuance of a payroll debit card or a check, draft, or other voucher to the employee if requested by the employee or if the employee fails to designate an account for electronic funds transfer.
