

# HB 2187 -- SCHOOL ADMINISTRATOR SALARY INFORMATION

SPONSOR: Flanigan

This bill specifies that the name, salary, and home or office address of every public school administrator must be published in the state manual, commonly known as the bluebook. The bill prohibits any school district payroll officer to pay or authorize the payment of a salary to any appointee, employee, or school administrator until that person files with the Secretary of State, for publication in the manual, the name, salary, and home or office address of the employee.

The Office of Administration is required to maintain salary information for all public school administrators on the Missouri accountability portal. The Department of Elementary and Secondary Education must collect the name and corresponding salary of each administrator from each public school district and public charter school in the state and transmit the salary information to the Office of Administration.
