

HB 2228 -- FEDERAL WORK AUTHORIZATION PROGRAMS

SPONSOR: Curtis

This bill repeals the requirement that a business entity, as a condition for the award of any contract or grant in excess of \$5,000 by the state or any political subdivision, or a business entity receiving a state-administered or subsidized tax credit, abatement, or loan from the state, enroll and participate in a federal work authorization program such as E-Verify. The bill also repeals the requirement that all public employers enroll and participate in a federal work authorization program.
