

HB 2243 -- HEALTH INSURANCE ENTITIES

SPONSOR: Neely

This bill prohibits a hospital, health care facility, health care professional, or group health provider from organizing, owning, operating, administering, or having a financial interest in any health maintenance organization, managed care organization, accountable care organization, health carrier, health benefit plan, or other health insurance entity organized to provide health insurance policies and benefits to enrollees. These provisions must not apply to self-insurance, employment as a medical director, or other medical consultant for a specified entity.
