

HB 2281 -- WORKERS' COMPENSATION INSURANCE PREMIUMS

SPONSOR: Brattin

This bill specifies that, for an employer that purchases workers' compensation insurance, the employer will pay 70% and employees will pay 30% of the amount of the premium less any deductions or adjustments and the amount of any other costs, assessments, fees, taxes, and surcharges, regular or supplemental, for which the employer is liable to pay due to the purchase of the insurance.

The Division of Workers' Compensation within the Department of Labor and Industrial Relations must, by regulation, establish a method to determine the amount for which an employer's employees are liable. The division is authorized, by regulation, to do any other thing necessary to administer this provision.
