4           (2) The tax on banks determined pursuant to subdivision (2) of subsection 2 of section

9           (6) The state income tax in chapter 143; and  
10          (7) The annual tax on gross receipts of express companies in chapter 153.

11          2. For proposals approved pursuant to section 32.110:

12          (1) The amount of the tax credit shall not exceed fifty percent of the total amount contributed  
13 during the taxable year by the business firm or, in the case of a financial institution, where  
14 applicable, during the relevant income period in programs approved pursuant to section 32.110;

15          (2) Except as provided in subsection 2 or 5 of this section, a tax credit of up to seventy  
16 percent may be allowed for contributions to programs where activities fall within the scope of  
17 special program priorities as defined with the approval of the governor in regulations promulgated  
18 by the director of the department of economic development;

19          (3) Except as provided in subsection 2 or 5 of this section, the tax credit allowed for  
20 contributions to programs located in any community shall be equal to seventy percent of the total  
21 amount contributed where such community is a city, town or village which has fifteen thousand or  
22 less inhabitants as of the last decennial census and is located in a county which is either located in:

23           (a) An area that is not part of a standard metropolitan statistical area;

24           (b) A standard metropolitan statistical area but such county has only one city, town or village  
25 which has more than fifteen thousand inhabitants; or

31          (4) Such tax credit allocation, equal to seventy percent of the total amount contributed, shall  
32 not exceed four million dollars in fiscal year 1999 and six million dollars in fiscal year 2000 and any  
33 subsequent fiscal year. When the maximum dollar limit on the seventy percent tax credit allocation  
34 is committed, the tax credit allocation for such programs shall then be equal to fifty percent credit of  
35 the total amount contributed. Regulations establishing special program priorities are to be  
36 promulgated during the first month of each fiscal year and at such times during the year as the public  
37 interest dictates. Such credit shall not exceed two hundred and fifty thousand dollars annually except  
38 as provided in subdivision (5) of this subsection. No tax credit shall be approved for any bank, bank  
39 and trust company, insurance company, trust company, national bank, savings association, or  
40 building and loan association for activities that are a part of its normal course of business. Any tax  
41 credit not used in the period the contribution was made may be carried over the next five succeeding

1 calendar or fiscal years until the full credit has been claimed. Except as otherwise provided for  
2 proposals approved pursuant to section 32.111, 32.112 or 32.117, in no event shall the total amount  
3 of all other tax credits allowed pursuant to sections 32.100 to 32.125 exceed thirty-two million  
4 dollars in any one fiscal year, of which six million shall be credits allowed pursuant to section  
5 135.460. If six million dollars in credits are not approved, then the remaining credits may be used  
6 for programs approved pursuant to sections 32.100 to 32.125. No new tax credits shall be authorized  
7 under the provisions of sections 32.110 and 135.460 after December 31, 2015;

8 (5) The credit may exceed two hundred fifty thousand dollars annually and shall not be  
9 limited if community services, crime prevention, education, job training, physical revitalization or  
10 economic development, as defined by section 32.105, is rendered in an area defined by federal or  
11 state law as an impoverished, economically distressed, or blighted area or as a neighborhood  
12 experiencing problems endangering its existence as a viable and stable neighborhood, or if the  
13 community services, crime prevention, education, job training, physical revitalization or economic  
14 development is limited to impoverished persons.

15 3. For proposals approved pursuant to section 32.111:

16 (1) The amount of the tax credit shall not exceed fifty-five percent of the total amount  
17 invested in affordable housing assistance activities or market rate housing in distressed communities  
18 as defined in section 135.530 by a business firm. Whenever such investment is made in the form of  
19 an equity investment or a loan, as opposed to a donation alone, tax credits may be claimed only  
20 where the loan or equity investment is accompanied by a donation which is eligible for federal  
21 income tax charitable deduction, and where the total value of the tax credits herein plus the value of  
22 the federal income tax charitable deduction is less than or equal to the value of the donation. Any tax  
23 credit not used in the period for which the credit was approved may be carried over the next ten  
24 succeeding calendar or fiscal years until the full credit has been allowed. If the affordable housing  
25 units or market rate housing units in distressed communities for which a tax is claimed are within a  
26 larger structure, parts of which are not the subject of a tax credit claim, then expenditures applicable  
27 to the entire structure shall be reduced on a prorated basis in proportion to the ratio of the number of  
28 square feet devoted to the affordable housing units or market rate housing units in distressed  
29 communities, for purposes of determining the amount of the tax credit. The total amount of tax  
30 credit granted for programs approved pursuant to section 32.111 for the fiscal year beginning July 1,  
31 1991, shall not exceed two million dollars, to be increased by no more than two million dollars each  
32 succeeding fiscal year, until the total tax credits that may be approved reaches ten million dollars in  
33 any fiscal year;

34 (2) For any year during the compliance period indicated in the land use restriction  
35 agreement, the owner of the affordable housing rental units for which a credit is being claimed shall  
36 certify to the commission that all tenants renting claimed units are income eligible for affordable  
37 housing units and that the rentals for each claimed unit are in compliance with the provisions of  
38 sections 32.100 to 32.125. The commission is authorized, in its discretion, to audit the records and  
39 accounts of the owner to verify such certification;

40 (3) In the case of owner-occupied affordable housing units, the qualifying owner occupant  
41 shall, before the end of the first year in which credits are claimed, certify to the commission that the

1 occupant is income eligible during the preceding two years, and at the time of the initial purchase  
2 contract, but not thereafter. The qualifying owner occupant shall further certify to the commission,  
3 before the end of the first year in which credits are claimed, that during the compliance period  
4 indicated in the land use restriction agreement, the cost of the affordable housing unit to the occupant  
5 for the claimed unit can reasonably be projected to be in compliance with the provisions of sections  
6 32.100 to 32.125. Any succeeding owner occupant acquiring the affordable housing unit during the  
7 compliance period indicated in the land use restriction agreement shall make the same certification;

8 (4) If at any time during the compliance period the commission determines a project for  
9 which a proposal has been approved is not in compliance with the applicable provisions of sections  
10 32.100 to 32.125 or rules promulgated therefor, the commission may within one hundred fifty days  
11 of notice to the owner either seek injunctive enforcement action against the owner, or seek legal  
12 damages against the owner representing the value of the tax credits, or foreclose on the lien in the  
13 land use restriction agreement, selling the project at a public sale, and paying to the owner the  
14 proceeds of the sale, less the costs of the sale and less the value of all tax credits allowed herein. The  
15 commission shall remit to the director of revenue the portion of the legal damages collected or the  
16 sale proceeds representing the value of the tax credits. However, except in the event of intentional  
17 fraud by the taxpayer, the proposal's certificate of eligibility for tax credits shall not be revoked.

18 4. For proposals approved pursuant to section 32.112, the amount of the tax credit shall not  
19 exceed fifty-five percent of the total amount contributed to a neighborhood organization by business  
20 firms. Any tax credit not used in the period for which the credit was approved may be carried over  
21 the next ten succeeding calendar or fiscal years until the full credit has been allowed. The total  
22 amount of tax credit granted for programs approved pursuant to section 32.112 shall not exceed one  
23 million dollars for each fiscal year.

24 5. The total amount of tax credits used for market rate housing in distressed communities  
25 pursuant to sections 32.100 to 32.125 shall not exceed thirty percent of the total amount of all tax  
26 credits authorized pursuant to sections 32.111 and 32.112.

27 100.850. 1. The approved company shall remit to the board a job development assessment  
28 fee, not to exceed five percent of the gross wages of each eligible employee whose job was created as  
29 a result of the economic development project, or not to exceed ten percent if the economic  
30 development project is located within a distressed community as defined in section 135.530, for the  
31 purpose of retiring bonds which fund the economic development project.

32 2. Any approved company remitting an assessment as provided in subsection 1 of this  
33 section shall make its payroll books and records available to the board at such reasonable times as the  
34 board shall request and shall file with the board documentation respecting the assessment as the  
35 board may require.

36 3. Any assessment remitted pursuant to subsection 1 of this section shall cease on the date  
37 the bonds are retired.

38 4. Any approved company which has paid an assessment for debt reduction shall be allowed  
39 a tax credit equal to the amount of the assessment. The tax credit may be claimed against taxes  
40 otherwise imposed by chapters 143 and 148, except withholding taxes imposed under the provisions  
41 of sections 143.191 to 143.265, which were incurred during the tax period in which the assessment

1 was made.

2 5. In no event shall the aggregate amount of tax credits authorized by subsection 4 of this  
3 section exceed twenty-five million dollars annually. Of such amount, nine hundred fifty thousand  
4 dollars shall be reserved for an approved project for a world headquarters of a business whose  
5 primary function is tax return preparation that is located in any home rule city with more than four  
6 hundred thousand inhabitants and located in more than one county, which amount reserved shall end  
7 in the year of the final maturity of the certificates issued for such approved project.

8 6. The director of revenue shall issue a refund to the approved company to the extent that the  
9 amount of credits allowed in subsection 4 of this section exceeds the amount of the approved  
10 company's income tax.

11 7. No new tax credits shall be authorized under the provisions of this section after December  
12 31, 2015.

13 135.020. 1. A credit for property taxes shall be allowed for the amount provided in section  
14 135.030. If the amount allowable as a credit exceeds the income tax reduced by other credits, then  
15 the excess shall be considered an overpayment of the income tax.

16 2. No new tax credits shall be authorized under the provisions of sections 135.010 to  
17 135.030 after December 31, 2015.

18 135.352. 1. A taxpayer owning an interest in a qualified Missouri project shall, subject to

22 2. For qualified Missouri projects placed in service after January 1, 1997, the Missouri  
23 low-income housing tax credit available to a project shall be such amount as the commission shall  
24 determine is necessary to ensure the feasibility of the project, up to an amount equal to the federal  
25 low-income housing tax credit for a qualified Missouri project, for a federal tax period, and such  
26 amount shall be subtracted from the amount of state tax otherwise due for the same tax period.

27 3. No more than six million dollars in tax credits shall be authorized each fiscal year for  
28 projects financed through tax-exempt bond issuance. The total amount of tax credits eligible to be  
29 awarded for projects that are financed through tax exempt bond issuance shall be reduced for each  
30 year for ten years in equal amounts beginning with the 2017 fiscal year until the total amount of tax

34 beginning with the 2017 fiscal year until the total amount of tax credits authorized is one hundred  
35 five million dollars.

36 5. The Missouri low-income housing tax credit shall be taken against the taxes and in the  
37 order specified pursuant to section 32.115. The credit authorized by this section shall not be  
38 refundable. Any amount of credit that exceeds the tax due for a taxpayer's taxable year may be

 11 administer the provisions of this section. No rule or portion of a rule promulgated pursuant to the  
 12 authority of this section shall become effective unless it has been promulgated pursuant to the  
 13 provisions of section 536.024.

 32 144.525 have the meanings ascribed to them in this section, except when the context indicates a  
 33 different meaning:

34 (1) "Admission" includes seats and tables, reserved or otherwise, and other similar  
 35 accommodations and charges made therefor and amount paid for admission, exclusive of any  
 36 admission tax imposed by the federal government or by sections 144.010 to 144.525;

37 (2) "Business" includes any activity engaged in by any person, or caused to be engaged in by  
 38 him, with the object of gain, benefit or advantage, either direct or indirect, and the classification of  
 39 which business is of such character as to be subject to the terms of sections 144.010 to 144.525. A  
 40 person is "engaging in business" in this state for purposes of sections 144.010 to 144.525 if such  
 41 person "engages in business in this state" or "maintains a place of business in this state" under section

1 144.605. The isolated or occasional sale of tangible personal property, service, substance, or thing,  
2 by a person not engaged in such business, does not constitute engaging in business within the  
3 meaning of sections 144.010 to 144.525 unless the total amount of the gross receipts from such sales,  
4 exclusive of receipts from the sale of tangible personal property by persons which property is sold in  
5 the course of the partial or complete liquidation of a household, farm or nonbusiness enterprise,  
6 exceeds three thousand dollars in any calendar year. The provisions of this subdivision shall not be

13 animal;

14 (4) "Gross receipts", except as provided in section 144.012, means the total amount of the

16 credit that are a part of such sales made by the businesses herein referred to, capable of being valued  
17 in money, whether received in money or otherwise; except that, the term "gross receipts" shall not  
18 include the sale price of property returned by customers when the full sale price thereof is refunded  
19 either in cash or by credit. In determining any tax due under sections 144.010 to 144.525 on the  
20 gross receipts, charges incident to the extension of credit shall be specifically exempted. For the  
21 purposes of sections 144.010 to 144.525 the total amount of the sale price above mentioned shall be  
22 deemed to be the amount received. It shall also include the lease or rental consideration where the  
23 right to continuous possession or use of any article of tangible personal property is granted under a  
24 lease or contract and such transfer of possession would be taxable if outright sale were made and, in  
25 such cases, the same shall be taxable as if outright sale were made and considered as a sale of such  
26 article, and the tax shall be computed and paid by the lessee upon the rentals paid;

27 (5) "Livestock", cattle, calves, sheep, swine, ratite birds, including but not limited to, ostrich

32 director of revenue to operate as a motor vehicle leasing company. Not all persons renting or leasing  
33 trailers or motor vehicles need to obtain such a permit; however, no person failing to obtain such a  
34 permit may avail itself of the optional tax provisions of subsection 5 of section 144.070, as  
35 hereinafter provided;

36 (7) "Person" includes any individual, firm, copartnership, joint adventure, association,  
37 corporation, municipal or private, and whether organized for profit or not, state, county, political  
38 subdivision, state department, commission, board, bureau or agency, except the state transportation  
39 department, estate, trust, business trust, receiver or trustee appointed by the state or federal court,  
40 syndicate, or any other group or combination acting as a unit, and the plural as well as the singular  
41 number;

1 (8) "Purchaser" means a person who purchases tangible personal property or to whom are  
2 rendered services, receipts from which are taxable under sections 144.010 to 144.525;

14 (11) "Sale at retail" means any transfer made by any person engaged in business as defined  
15 herein of the ownership of, or title to, tangible personal property to the purchaser, for use or  
16 consumption and not for resale in any form as tangible personal property, for a valuable  
17 consideration; except that, for the purposes of sections 144.010 to 144.525 and the tax imposed  
18 thereby:

19 (i) purchases of tangible personal property made by duly licensed physicians, dentists,  
20 optometrists and veterinarians and used in the practice of their professions shall be deemed to be  
21 purchases for use or consumption and not for resale; and

22 (ii) the selling of computer printouts, computer output or microfilm or microfiche and  
23 computer-assisted photo compositions to a purchaser to enable the purchaser to obtain for his or her  
24 own use the desired information contained in such computer printouts, computer output on  
25 microfilm or microfiche and computer-assisted photo compositions shall be considered as the sale of  
26 a service and not as the sale of tangible personal property. The provisions of this item shall expire on  
27 December 31, 2015.

28 Where necessary to conform to the context of sections 144.010 to 144.525 and the tax  
29 imposed thereby, the term "sale at retail" shall be construed to embrace:

21 such as wireless telephone, personal communications services or enhanced specialized mobile radio  
22 services as defined pursuant to federal law; or

23 (d) Cable or satellite television or music services; and

24 (15) "Product which is intended to be sold ultimately for final use or consumption" means  
25 tangible personal property, or any service that is subject to state or local sales or use taxes, or any tax  
26 that is substantially equivalent thereto, in this state or any other state.

27 2. For purposes of the taxes imposed under sections 144.010 to 144.525, and any other  
28 provisions of law pertaining to sales or use taxes which incorporate the provisions of sections  
29 144.010 to 144.525 by reference, the term "manufactured homes" shall have the same meaning given  
30 it in section 700.010.

31 3. Sections 144.010 to 144.525 may be known and quoted as the "Sales Tax Law".

13 the avoidance of Missouri sales or use tax.

14 144.014. 1. Notwithstanding other provisions of law to the contrary, beginning October 1,  
15 1997, and ending December 31, 2015, the tax levied and imposed pursuant to sections 144.010 to

9 ultimately at retail; or feed for livestock or poultry; or grain to be converted into foodstuffs which are  
10 to be sold ultimately in processed form at retail; or seed, limestone or fertilizer which is to be used

16 will be converted into foodstuffs which are to be sold ultimately in processed form at retail;

17 (2) Materials, manufactured goods, machinery and parts which when used in manufacturing,

21 use or consumption; and materials, including without limitation, gases and manufactured goods,  
22 including without limitation slagging materials and firebrick, which are ultimately consumed in the

31 fabricating of the product, or a material recovery processing plant as defined in subdivision (5) of  
32 this subsection, in facilities owned or leased by the taxpayer, if the total cost of electrical energy so

14 municipality or other political subdivision where all the proceeds derived therefrom benefit the  
15 municipality or other political subdivision and do not inure to any private person, firm, or  
16 corporation, provided, however, that a municipality or other political subdivision may enter into

20 exempted from the provisions of sections 144.010 to 144.525 and 144.600 to 144.761, and section  
21 238.235, and the local sales tax law as defined in section 32.085, and from the computation of the tax  
22 levied, assessed, or payable under sections 144.010 to 144.525 and 144.600 to 144.761, and section  
23 238.235, and the local sales tax law as defined in section 32.085, all sales and purchases of tangible  
24 personal property, utilities, services, or any other transaction that would otherwise be subject to the  
25 state or local sales or use tax when such sales are made to or purchases are made by a private partner  
26 for use in completing a project under sections 227.600 to 227.669.

27 144.057. In addition to the exemptions granted under this chapter, there shall also be  
28 specifically exempted from state and local sales and use taxes defined, levied, or calculated under  
29 section 32.085, sections 144.010 to 144.525, sections 144.600 to 144.761, or section 238.235, all  
30 tangible personal property included on the United States munitions list, as provided in 22 CFR  
31 121.1, sold to or purchased by any foreign government or agency or instrumentality of such foreign  
32 government which is used for a governmental purpose. The provisions of this section shall expire on  
33 December 31, 2015.

34 144.062. 1. With respect to exempt sales at retail of tangible personal property and materials  
35 for the purpose of constructing, repairing or remodeling facilities for:

36 (1) A county, other political subdivision or instrumentality thereof exempt from taxation  
37 under subdivision (10) of Section 39 of Article III of the Constitution of Missouri; or

38 (2) An organization sales to which are exempt from taxation under the provisions of  
39 subdivision (20) of subsection 2 of section 144.030; or

40 (3) Any institution of higher education supported by public funds or any private  
41 not-for-profit institution of higher education, exempt from taxation under subdivision (21) of

1 subsection 2 of section 144.030; or

2 (4) Any private not-for-profit elementary or secondary school exempt from taxation under  
3 subdivision (23) of subsection 2 of section 144.030; or

4 (5) Any authority exempt from taxation under subdivision (40) of subsection 2 of section  
5 144.030; or

6 (6) After June 30, 2007, but before December 31, 2015, the department of transportation or  
7 the state highways and transportation commission; hereinafter collectively referred to as exempt  
8 entities, such exemptions shall be allowed for such purchases if the purchases are related to the  
9 entities' exempt functions and activities. In addition, the sales shall not be rendered nonexempt nor  
10 shall any material supplier or contractor be obligated to pay, collect or remit sales tax with respect to  
11 such purchases made by or on behalf of an exempt entity due to such purchases being billed to or  
12 paid for by a contractor or the exempt entity contracting with any entity to render any services in  
13 relation to such purchases, including but not limited to selection of materials, ordering, pickup,  
14 delivery, approval on delivery, taking of delivery, transportation, storage, assumption of risk of loss  
15 to materials or providing warranties on materials as specified by contract, use of materials or other  
16 purchases for construction of the building or other facility, providing labor, management services,  
17 administrative services, design or technical services or advice to the exempt entity, whether or not  
18 the contractor or other entity exercises dominion or control in any other manner over the materials in  
19 conjunction with services or labor provided to the exempt entity.

20 2. When any exempt entity contracts for the purpose of constructing, repairing or remodeling  
21 facilities, and purchases of tangible personal property and materials to be incorporated into or  
22 consumed in the construction of the project are to be made on a tax-exempt basis, such entity shall  
23 furnish to the contractor an exemption certificate authorizing such purchases for the construction,  
24 repair or remodeling project. The form and content of such project exemption certificate shall be  
25 approved by the director of revenue. The project exemption certificate shall include but not be  
26 limited to:

27 (1) The exempt entity's name, address, Missouri tax identification number and signature of  
28 authorized representative;

29 (2) The project location, description, and unique identification number;

30 (3) The date the contract is entered into, which is the earliest date materials may be  
31 purchased for the project on a tax-exempt basis;

32 (4) The estimated project completion date; and

33 (5) The certificate expiration date.

34 Such certificate is renewable for a given project at the option of the exempt entity, only for the  
35 purpose of revising the certificate expiration date as necessary to complete the project.

36 3. The contractor shall furnish the certificate prescribed in subsection 2 of this section to all  
37 subcontractors, and any contractor purchasing materials shall present such certificate to all material  
38 suppliers as authorization to purchase, on behalf of the exempt entity, all tangible personal property  
39 and materials to be incorporated into or consumed in the construction of that project and no other on  
40 a tax-exempt basis. Such suppliers shall execute to the purchasing contractor invoices bearing the  
41 name of the exempt entity and the project identification number. Nothing in this section shall be

1 deemed to exempt the purchase of any construction machinery, equipment or tools used in  
2 constructing, repairing or remodeling facilities for the exempt entity. All invoices for all personal  
3 property and materials purchased under a project exemption certificate shall be retained by the  
4 purchasing contractor for a period of five years and shall be subject to audit by the director of  
5 revenue.

6 4. Any excess resalable tangible personal property or materials which were purchased for the  
7 project by a contractor under a project exemption certificate but which were not incorporated into or  
8 consumed in the construction of the project shall either be returned to the supplier for credit or the  
9 appropriate sales or use tax on such excess property or materials shall be reported on a return and  
10 paid by such contractor not later than the due date of the contractor's Missouri sales or use tax return  
11 following the month in which it was determined that the materials were not to be used in the project.

12 5. No contractor or material supplier shall, upon audit, be required to pay tax on tangible  
13 personal property and materials incorporated into or consumed in the construction of the project due  
14 to the failure of the exempt entity to revise the certificate expiration date as necessary to complete  
15 any work required by the contract. If it is determined that tax is owed on such property and materials  
16 due to the failure of the exempt entity to revise such certificate expiration date, the exempt entity  
17 shall be liable for the tax owed.

18 6. If an entity issues exemption certificates for the purchase of tangible personal property  
19 and materials which are incorporated into or consumed in the construction of its project and such  
20 entity is found not to have had the authority granted by this section to issue such exemption  
21 certificates, then such entity shall be liable for the tax owed on such personal property and materials.  
22 In addition, if an entity which does have the authority granted by this section to issue exemption  
23 certificates issues such certificates for the purchase of tangible personal property and materials which  
24 are incorporated into or consumed in the construction of a project, or part of a project, which is  
25 found not to be related to such entity's exempt functions and activities, then such entity shall be  
26 liable for the tax owed on such personal property and materials.

27 144.518. 1. In addition to the exemptions granted pursuant to section 144.030, there is  
28 hereby specifically exempted from the provisions of sections 144.010 to 144.525, sections 144.600  
29 to 144.761, sections 190.335 to 190.337, section 238.235, section 238.236, section 238.410, section  
30 321.242, section 573.505, section 644.032, and any local sales tax law as defined in section 32.085,  
31 and from the computation of the tax levied, assessed or payable pursuant to sections 144.010 to

33 238.236, section 238.410, section 321.242, section 573.505, section 644.032, and any local sales tax  
34 law as defined in section 32.085, coin-operated amusement devices and parts for such devices  
35 purchased prior to September 1, 2007, where sales tax is paid on the gross receipts derived from the  
36 use of such devices. The provisions of this subsection shall expire on December 31, 2015.

37 2. Beginning September 1, 2007, in addition to any other exemption provided by law, there  
38 is hereby specifically exempted from the provisions of sections 144.010 to 144.525, sections 144.600

40 321.242, section 573.505, section 644.032, and any local sales tax law as defined in section 32.085,  
41 and from the computation of the tax levied, assessed, or payable pursuant to sections 144.010 to

1 144.525, sections 144.600 to 144.761, sections 190.335 to 190.337, section 238.235, section  
2 238.236, section 238.410, section 321.242, section 573.505, section 644.032, and any local sales tax  
3 law as defined in section 32.085, amounts paid for the temporary use of a coin-operated amusement  
4 device. The provisions of this subsection shall expire on December 31, 2015.

5 3. As used in this section, "coin-operated amusement device" means a device accepting  
6 payment or items representing payments to allow one or more users temporary use of the device for  
7 entertainment or amusement purposes. Examples of coin-operated amusement devices include, but  
8 are not limited to, video games, pinball games, table games such as billiards and air hockey, and  
9 redemption games such as the claw and skee ball that may award prizes of tangible personal  
10 property.

12 exempted from the provisions of sections 144.010 to 144.525, sections 144.600 to 144.761, sections

15 computation of the tax levied, assessed, or payable pursuant to sections 144.010 to 144.525, sections  
16 144.600 to 144.761, sections 190.335 to 190.337, section 238.235, section 238.236, section 238.410,

18 32.085, vending machines or parts for vending machines used in a commercial vending business  
19 where sales tax is paid on the gross receipts derived from such vending machines.

21 Holiday".

22 2. For purposes of this section, the following terms mean:

23 (1) "Appliance", clothes washers and dryers, water heaters, trash compactors, dishwashers,

29 from state sales tax law all retail sales of any energy star certified new appliance, up to one thousand  
30 five hundred dollars per appliance, during a seven-day period beginning at 12:01 a.m. on April  
31 nineteenth and ending at midnight on April twenty-fifth.

32 4. A political subdivision may allow the sales tax holiday under this section to apply to its  
33 local sales taxes by enacting an ordinance to that effect. Any such political subdivision shall notify  
34 the department of revenue not less than forty-five calendar days prior to the beginning date of the  
35 sales tax holiday occurring in that year of any such ordinance or order.

36 5. This section may not apply to any retailer when less than two percent of the retailer's  
37 merchandise offered for sale qualifies for the sales tax holiday. The retailer shall offer a sales tax  
38 refund in lieu of the sales tax holiday.

39 6. The provisions of this section shall expire on December 31, 2015.

40 253.550. 1. Any taxpayer incurring costs and expenses for the rehabilitation of eligible  
41 property, which is a certified historic structure or structure in a certified historic district, may, subject

1 to the provisions of this section and section 253.559, receive a credit against the taxes imposed  
2 pursuant to chapters 143 and 148, except for sections 143.191 to 143.265, on such taxpayer in an

5 defined under section 47(c)(2)(A) of the Internal Revenue Code of 1986, as amended, and the related  
6 regulations thereunder, provided the rehabilitation costs associated with rehabilitation and the  
7 expenses exceed fifty percent of the total basis in the property and the rehabilitation meets standards  
8 consistent with the standards of the Secretary of the United States Department of the Interior for  
9 rehabilitation as determined by the state historic preservation officer of the Missouri department of  
10 natural resources.

11 2. During the period beginning on January 1, 2010, but ending on or after June 30, 2010, the  
12 department of economic development shall not approve applications for tax credits under the  
13 provisions of subsections 3 and 8 of section 253.559 which, in the aggregate, exceed seventy million  
14 dollars, increased by any amount of tax credits for which approval shall be rescinded under the  
15 provisions of section 253.559. For each fiscal year beginning on or after July 1, 2010, but ending on  
16 or before June 30, 2016, the department of economic development shall not approve applications for  
17 tax credits under the provisions of subsections 3 and 8 of section 253.559 which, in the aggregate,

19 shall be rescinded under the provisions of section 253.559. The total amount of tax credits eligible  
20 to be awarded under the provisions of subsections 3 and 8 of section 253.559 shall be reduced each  
21 year for ten years in equal amounts beginning with the 2017 fiscal year until the total amount of tax  
22 credits eligible to be awarded is one hundred twenty million dollars, increased by any amount of tax  
23 credits for which approval shall be rescinded under the provisions of section 253.559. The  
24 limitations provided under this subsection shall not apply to applications approved under the  
25 provisions of subsection 3 of section 253.559 for projects to receive less than two hundred  
26 seventy-five thousand dollars in tax credits. The total amount of tax credits eligible to be awarded  
27 under the provisions of section 253.559 for projects to receive less than two hundred seventy-five  
28 thousand dollars in tax credits shall be reduced each year for ten years in equal amounts beginning  
29 with the 2017 fiscal year until the total amount of tax credits eligible to be awarded is twenty million  
30 dollars.

31 3. For all applications for tax credits approved on or after January 1, 2010, no more than two  
32 hundred fifty thousand dollars in tax credits may be issued for eligible costs and expenses incurred in  
33 the rehabilitation of an eligible property which is a nonincome producing single-family,  
34 owner-occupied residential property and is either a certified historic structure or a structure in a  
35 certified historic district.

36 4. The limitations on tax credit authorization provided under the provisions of subsections 2  
37 and 3 of this section shall not apply to:

38 (1) Any application submitted by a taxpayer, which has received approval from the  
39 department prior to January 1, 2010; or

40 (2) Any taxpayer applying for tax credits, provided under this section, which, on or before  
41 January 1, 2010, has filed an application with the department evidencing that such taxpayer:

1 (a) Has incurred costs and expenses for an eligible property which exceed the lesser of five  
2 percent of the total project costs or one million dollars and received an approved Part I from the  
3 Secretary of the United States Department of Interior; or

4 (b) Has received certification, by the state historic preservation officer, that the rehabilitation  
5 plan meets the standards consistent with the standards of the Secretary of the United States  
6 Department of the Interior, and the rehabilitation costs and expenses associated with such  
7 rehabilitation shall exceed fifty percent of the total basis in the property.

8 5. No new tax credits shall be authorized under the provisions of sections 253.545 to  
9 253.559 after December 31, 2030.

10 262.250. 1. The commission may charge a fee on any entry to be paid at the time of entry.  
11 All animals and articles must be entered in their proper classes and no other. The director shall  
12 determine all questions of classification.

13 2. In addition to any exemption in chapter 144, no sales taxes shall be levied and collected on  
14 any entry fee or charge authorized in this section. The provisions of this subsection shall expire on  
15 December 31, 2015.

16 313.821. 1. In addition to the exemptions granted under the provisions of section 144.030,  
17 there shall also be specifically exempted from the provisions of sections 66.600 to 66.635, sections  
18 67.500 to 67.545, 67.547, 67.581, 67.582, 67.671 to 67.685, 67.700 to 67.729, 67.730 to 67.739, and  
19 67.782, sections 92.400 to 92.420, sections 94.500 to 94.570, 94.600 to 94.655, and 94.700 to  
20 94.755, and sections 144.010 to 144.510 and 144.600 to 144.745, and from the computation of the  
21 tax levied, assessed or payable under sections 66.600 to 66.635, sections 67.500 to 67.545, 67.547,  
22 67.581, 67.582, 67.671 to 67.685, 67.700 to 67.729, 67.730 to 67.739, and 67.782, sections 92.400  
23 to 92.420, sections 94.500 to 94.570, 94.600 to 94.655, and 94.700 to 94.755, and sections 144.010  
24 to 144.510 and 144.600 to 144.745, any state or local admission fees imposed upon excursion  
25 gambling boat operators to be collected from each passenger boarding such excursion gambling  
26 boats. The provisions of this subsection shall expire on December 31, 2015.

27 2. Nothing in this section shall exempt from the taxes referenced in subsection 1 of this  
28 section any fees of admission voluntarily charged by excursion boat gambling operators to  
29 passengers boarding such excursion gambling boats.

30 447.708. 1. For eligible projects, the director of the department of economic development,  
31 with notice to the directors of the departments of natural resources and revenue, and subject to the  
32 other provisions of sections 447.700 to 447.718, may not create a new enterprise zone but may  
33 decide that a prospective operator of a facility being remedied and renovated pursuant to sections  
34 447.700 to 447.718 may receive the tax credits and exemptions pursuant to sections 135.100 to  
35 135.150 and sections 135.200 to 135.257. The tax credits allowed pursuant to this subsection shall  
36 be used to offset the tax imposed by chapter 143, excluding withholding tax imposed by sections  
37 143.191 to 143.265, or the tax otherwise imposed by chapter 147, or the tax otherwise imposed by  
38 chapter 148. For purposes of this subsection:

39 (1) For receipt of the ad valorem tax abatement pursuant to section 135.215, the eligible  
40 project must create at least ten new jobs or retain businesses which supply at least twenty-five  
41 existing jobs. The city, or county if the eligible project is not located in a city, must provide ad

1 valorem tax abatement of at least fifty percent for a period not less than ten years and not more than  
2 twenty-five years;

3 (2) For receipt of the income tax exemption pursuant to section 135.220 and tax credit for  
4 new or expanded business facilities pursuant to sections 135.100 to 135.150, and 135.225, the  
5 eligible project must create at least ten new jobs or retain businesses which supply at least  
6 twenty-five existing jobs, or combination thereof. For purposes of sections 447.700 to 447.718, the  
7 tax credits described in section 135.225 are modified as follows: the tax credit shall be four hundred  
8 dollars per employee per year, an additional four hundred dollars per year for each employee  
9 exceeding the minimum employment thresholds of ten and twenty-five jobs for new and existing  
10 businesses, respectively, an additional four hundred dollars per year for each person who is a person  
11 difficult to employ as defined by section 135.240, and investment tax credits at the same amounts  
12 and levels as provided in subdivision (4) of subsection 1 of section 135.225;

13 (3) For eligibility to receive the income tax refund pursuant to section 135.245, the eligible  
14 project must create at least ten new jobs or retain businesses which supply at least twenty-five  
15 existing jobs, or combination thereof, and otherwise comply with the provisions of section 135.245  
16 for application and use of the refund and the eligibility requirements of this section;

17 (4) The eligible project operates in compliance with applicable environmental laws and  
18 regulations, including permitting and registration requirements, of this state as well as the federal  
19 and local requirements;

20 (5) The eligible project operator shall file such reports as may be required by the director of  
21 economic development or the director's designee;

22 (6) The taxpayer may claim the state tax credits authorized by this subsection and the state  
23 income exemption for a period not in excess of ten consecutive tax years. For the purpose of this  
24 section, "taxpayer" means an individual proprietorship, partnership or corporation described in  
25 section 143.441 or 143.471 who operates an eligible project. The director shall determine the  
26 number of years the taxpayer may claim the state tax credits and the state income exemption based  
27 on the projected net state economic benefits attributed to the eligible project;

28 (7) For the purpose of meeting the new job requirement prescribed in subdivisions (1), (2)  
29 and (3) of this subsection, it shall be required that at least ten new jobs be created and maintained  
30 during the taxpayer's tax period for which the credits are earned, in the case of an eligible project that  
31 does not replace a similar facility in Missouri. "New job" means a person who was not previously  
32 employed by the taxpayer or related taxpayer within the twelve-month period immediately preceding  
33 the time the person was employed by that taxpayer to work at, or in connection with, the eligible  
34 project on a full-time basis. "Full-time basis" means the employee works an average of at least  
35 thirty-five hours per week during the taxpayer's tax period for which the tax credits are earned. For  
36 the purposes of this section, related taxpayer has the same meaning as defined in subdivision (9) of  
37 section 135.100;

38 (8) For the purpose of meeting the existing job retention requirement, if the eligible project  
39 replaces a similar facility that closed elsewhere in Missouri prior to the end of the taxpayer's tax  
40 period in which the tax credits are earned, it shall be required that at least twenty-five existing jobs  
41 be retained at, and in connection with the eligible project, on a full-time basis during the taxpayer's

1 tax period for which the credits are earned. "Retained job" means a person who was previously  
2 employed by the taxpayer or related taxpayer, at a facility similar to the eligible project that closed  
3 elsewhere in Missouri prior to the end of the taxpayer's tax period in which the tax credits are earned,  
4 within the tax period immediately preceding the time the person was employed by the taxpayer to  
5 work at, or in connection with, the eligible project on a full-time basis. "Full-time basis" means the  
6 employee works an average of at least thirty-five hours per week during the taxpayer's tax period for  
7 which the tax credits are earned;

8 (9) In the case where an eligible project replaces a similar facility that closed elsewhere in  
9 Missouri prior to the end of the taxpayer's tax period in which the tax credits are earned, the owner  
10 and operator of the eligible project shall provide the director with a written statement explaining the  
11 reason for discontinuing operations at the closed facility. The statement shall include a comparison  
12 of the activities performed at the closed facility prior to the date the facility ceased operating, to the  
13 activities performed at the eligible project, and a detailed account describing the need and rationale  
14 for relocating to the eligible project. If the director finds the relocation to the eligible project  
15 significantly impaired the economic stability of the area in which the closed facility was located, and  
16 that such move was detrimental to the overall economic development efforts of the state, the director  
17 may deny the taxpayer's request to claim tax benefits;

18 (10) Notwithstanding any provision of law to the contrary, for the purpose of this section, the  
19 number of new jobs created and maintained, the number of existing jobs retained, and the value of  
20 new qualified investment used at the eligible project during any tax year shall be determined by  
21 dividing by twelve, in the case of jobs, the sum of the number of individuals employed at the eligible  
22 project, or in the case of new qualified investment, the value of new qualified investment used at the  
23 eligible project, on the last business day of each full calendar month of the tax year. If the eligible  
24 project is in operation for less than the entire tax year, the number of new jobs created and  
25 maintained, the number of existing jobs retained, and the value of new qualified investment created  
26 at the eligible project during any tax year shall be determined by dividing the sum of the number of  
27 individuals employed at the eligible project, or in the case of new qualified investment, the value of  
28 new qualified investment used at the eligible project, on the last business day of each full calendar  
29 month during the portion of the tax year during which the eligible project was in operation, by the  
30 number of full calendar months during such period;

31 (11) For the purpose of this section, "new qualified investment" means new business facility  
32 investment as defined and as determined in subdivision (7) of section 135.100 which is used at and in  
33 connection with the eligible project. "New qualified investment" shall not include small tools,  
34 supplies and inventory. "Small tools" means tools that are portable and can be hand held.

35 2. The determination of the director of economic development pursuant to subsection 1 of  
36 this section shall not affect requirements for the prospective purchaser to obtain the approval of the  
37 granting of real property tax abatement by the municipal or county government where the eligible  
38 project is located.

39 3. (1) The director of the department of economic development, with the approval of the  
40 director of the department of natural resources, may, in addition to the tax credits allowed in  
41 subsection 1 of this section, grant a remediation tax credit to the applicant for up to one hundred

1 percent of the costs of materials, supplies, equipment, labor, professional engineering, consulting and  
2 architectural fees, permitting fees and expenses, demolition, asbestos abatement, and direct utility  
3 charges for performing the voluntary remediation activities for the preexisting hazardous substance  
4 contamination and releases, including, but not limited to, the costs of performing operation and  
5 maintenance of the remediation equipment at the property beyond the year in which the systems and  
6 equipment are built and installed at the eligible project and the costs of performing the voluntary  
7 remediation activities over a period not in excess of four tax years following the taxpayer's tax year  
8 in which the system and equipment were first put into use at the eligible project, provided the  
9 remediation activities are the subject of a plan submitted to, and approved by, the director of natural  
10 resources pursuant to sections 260.565 to 260.575. The tax credit may also include up to one  
11 hundred percent of the costs of demolition that are not directly part of the remediation activities,  
12 provided that the demolition is on the property where the voluntary remediation activities are  
13 occurring, the demolition is necessary to accomplish the planned use of the facility where the  
14 remediation activities are occurring, and the demolition is part of a redevelopment plan approved by  
15 the municipal or county government and the department of economic development. The demolition  
16 may occur on an adjacent property if the project is located in a municipality which has a population  
17 less than twenty thousand and the above conditions are otherwise met. The adjacent property shall  
18 independently qualify as abandoned or underutilized. The amount of the credit available for  
19 demolition not associated with remediation cannot exceed the total amount of credits approved for  
20 remediation including demolition required for remediation.

21 (2) The amount of remediation tax credits issued shall be limited to the least amount  
22 necessary to cause the project to occur, as determined by the director of the department of economic  
23 development.

24 (3) The director may, with the approval of the director of natural resources, extend the tax  
25 credits allowed for performing voluntary remediation maintenance activities, in increments of  
26 three-year periods, not to exceed five consecutive three-year periods. The tax credits allowed in this  
27 subsection shall be used to offset the tax imposed by chapter 143, excluding withholding tax imposed  
28 by sections 143.191 to 143.265, or the tax otherwise imposed by chapter 147, or the tax otherwise  
29 imposed by chapter 148. The remediation tax credit may be taken in the same tax year in which the  
30 tax credits are received or may be taken over a period not to exceed twenty years.

31 (4) The project facility shall be projected to create at least ten new jobs or at least  
32 twenty-five retained jobs, or a combination thereof, as determined by the department of economic  
33 development, to be eligible for tax credits pursuant to this section.

34 (5) No more than seventy-five percent of earned remediation tax credits may be issued when  
35 the remediation costs were paid, and the remaining percentage may be issued when the department  
36 of natural resources issues a letter of completion letter or covenant not to sue following completion  
37 of the voluntary remediation activities. It shall not include any costs associated with ongoing  
38 operational environmental compliance of the facility or remediation costs arising out of spills, leaks,  
39 or other releases arising out of the ongoing business operations of the facility. In the event the  
40 department of natural resources issues a letter of completion for a portion of a property, an impacted  
41 media such as soil or groundwater, or for a site or a portion of a site improvement, a prorated amount

1 of the remaining percentage may be released based on the percentage of the total site receiving a  
2 letter of completion.

3 4. In the exercise of the sound discretion of the director of the department of economic  
4 development or the director's designee, the tax credits and exemptions described in this section may  
5 be terminated, suspended or revoked, if the eligible project fails to continue to meet the conditions  
6 set forth in this section. In making such a determination, the director shall consider the severity of  
7 the condition violation, actions taken to correct the violation, the frequency of any condition  
8 violations and whether the actions exhibit a pattern of conduct by the eligible facility owner and  
9 operator. The director shall also consider changes in general economic conditions and the  
10 recommendation of the director of the department of natural resources, or his or her designee,  
11 concerning the severity, scope, nature, frequency and extent of any violations of the environmental  
12 compliance conditions. The taxpayer or person claiming the tax credits or exemptions may appeal  
13 the decision regarding termination, suspension or revocation of any tax credit or exemption in  
14 accordance with the procedures outlined in subsections 4 [to 6] and 5 of section 135.250. The  
15 director of the department of economic development shall notify the directors of the departments of  
16 natural resources and revenue of the termination, suspension or revocation of any tax credits as  
17 determined in this section or pursuant to the provisions of section 447.716.

18 5. Notwithstanding any provision of law to the contrary, no taxpayer shall earn the tax  
19 credits, exemptions or refund otherwise allowed in subdivisions (2), (3) and (4) of subsection 1 of  
20 this section and the tax credits otherwise allowed in section 135.110, or the tax credits, exemptions  
21 and refund otherwise allowed in sections 135.215, 135.220, 135.225 and 135.245, respectively, for  
22 the same facility for the same tax period.

23 6. The total amount of the tax credits allowed in subsection 1 of this section may not exceed  
24 the greater of:

25 (1) That portion of the taxpayer's income attributed to the eligible project; or

26 (2) One hundred percent of the total business' income tax if the eligible facility does not  
27 replace a similar facility that closed elsewhere in Missouri prior to the end of the taxpayer's tax  
28 period in which the tax credits are earned, and further provided the taxpayer does not operate any  
29 other facilities besides the eligible project in Missouri; fifty percent of the total business' income tax  
30 if the eligible facility replaces a similar facility that closed elsewhere in Missouri prior to the end of  
31 the taxpayer's tax period in which the credits are earned, and further provided the taxpayer does not  
32 operate any other facilities besides the eligible project in Missouri; or twenty-five percent of the total  
33 business income if the taxpayer operates, in addition to the eligible facility, any other facilities in  
34 Missouri. In no case shall a taxpayer operating more than one eligible project in Missouri be allowed  
35 to offset more than twenty-five percent of the taxpayer's business income in any tax period. That  
36 portion of the taxpayer's income attributed to the eligible project as referenced in subdivision (1) of  
37 this subsection, for which the credits allowed in sections 135.110 and 135.225 and subsection 3 of  
38 this section, may apply, shall be determined in the same manner as prescribed in subdivision [(6)] (7)  
39 of section 135.100. That portion of the taxpayer's franchise tax attributed to the eligible project for  
40 which the remediation tax credit may offset, shall be determined in the same manner as prescribed in  
41 paragraph (a) of subdivision [(6)] (7) of section 135.100.

1           7. Taxpayers claiming the state tax benefits allowed in subdivisions (2) and (3) of subsection  
2 1 of this section shall be required to file all applicable tax credit applications, forms and schedules  
3 prescribed by the director during the taxpayer's tax period immediately after the tax period in which  
4 the eligible project was first put into use. Otherwise, the taxpayer's right to claim such state tax  
5 benefits shall be forfeited. Unused business facility and enterprise zone tax credits shall not be  
6 carried forward but shall be initially claimed for the tax period during which the eligible project was  
7 first capable of being used, and during any applicable subsequent tax periods.

8           8. Taxpayers claiming the remediation tax credit allowed in subsection 3 of this section shall  
9 be required to file all applicable tax credit applications, forms and schedules prescribed by the  
10 director during the taxpayer's tax period immediately after the tax period in which the eligible  
11 project was first put into use, or during the taxpayer's tax period immediately after the tax period in  
12 which the voluntary remediation activities were performed.

13           9. The recipient of remediation tax credits, for the purpose of this subsection referred to as  
14 assignor, may assign, sell or transfer, in whole or in part, the remediation tax credit allowed in  
15 subsection 3 of this section to any other person, for the purpose of this subsection referred to as  
16 assignee. To perfect the transfer, the assignor shall provide written notice to the director of the  
17 assignor's intent to transfer the tax credits to the assignee, the date the transfer is effective, the  
18 assignee's name, address and the assignee's tax period and the amount of tax credits to be transferred.  
19 The number of tax periods during which the assignee may subsequently claim the tax credits shall  
20 not exceed twenty tax periods, less the number of tax periods the assignor previously claimed the  
21 credits before the transfer occurred.

22           10. In the case where an operator and assignor of an eligible project has been certified to  
23 claim state tax benefits allowed in subdivisions (2) and (3) of subsection 1 of this section, and sells  
24 or otherwise transfers title of the eligible project to another taxpayer or assignee who continues the  
25 same or substantially similar operations at the eligible project, the director shall allow the assignee to  
26 claim the credits for a period of time to be determined by the director; except that, the total number  
27 of tax periods the tax credits may be earned by the assignor and the assignee shall not exceed ten. To  
28 perfect the transfer, the assignor shall provide written notice to the director of the assignor's intent to  
29 transfer the tax credits to the assignee, the date the transfer is effective, the assignee's name, address,  
30 and the assignee's tax period, and the amount of tax credits to be transferred.

31           11. For the purpose of the state tax benefits described in this section, in the case of a  
32 corporation described in section 143.471 or partnership, in computing Missouri's tax liability, such  
33 state benefits shall be allowed to the following:

34           (1) The shareholders of the corporation described in section 143.471;

35           (2) The partners of the partnership. The credit provided in this subsection shall be  
36 apportioned to the entities described in subdivisions (1) and (2) of this subsection in proportion to  
37 their share of ownership on the last day of the taxpayer's tax period.

38           12. No new tax credits shall be authorized under the provisions of this section after  
39 December 31, 2015.

40           620.1881. 1. The department of economic development shall respond within thirty days to a  
41 company who provides a notice of intent with either an approval or a rejection of the notice of intent.

1 The department shall give preference to qualified companies and projects targeted at an area of the  
2 state which has recently been classified as a disaster area by the federal government. Failure to  
3 respond on behalf of the department of economic development shall result in the notice of intent  
4 being deemed an approval for the purposes of this section. A qualified company who is provided an  
5 approval for a project shall be allowed a benefit as provided in this program in the amount and  
6 duration provided in this section. A qualified company may receive additional periods for  
7 subsequent new jobs at the same facility after the full initial period if the minimum thresholds are  
8 met as set forth in sections 620.1875 to 620.1890. There is no limit on the number of periods a  
9 qualified company may participate in the program, as long as the minimum thresholds are achieved  
10 and the qualified company provides the department with the required reporting and is in proper  
11 compliance for this program or other state programs. A qualified company may elect to file a notice  
12 of intent to start a new project period concurrent with an existing project period if the minimum  
13 thresholds are achieved and the qualified company provides the department with the required  
14 reporting and is in proper compliance for this program and other state programs; however, the  
15 qualified company may not receive any further benefit under the original approval for jobs created  
16 after the date of the new notice of intent, and any jobs created before the new notice of intent may  
17 not be included as new jobs for the purpose of benefit calculation in relation to the new approval.  
18 When a qualified company has filed and received approval of a notice of intent and subsequently  
19 files another notice of intent, the department shall apply the definition of project facility under  
20 subdivision (19) of section 620.1878 to the new notice of intent as well as all previously approved  
21 notices of intent and shall determine the application of the definitions of new job, new payroll,  
22 project facility base employment, and project facility base payroll accordingly.

23 2. Notwithstanding any provision of law to the contrary, any qualified company that is  
24 awarded benefits under this program may not simultaneously receive tax credits or exemptions under  
25 sections 135.100 to 135.150, sections 135.200 to 135.286, section 135.535, or sections 135.900 to  
26 135.906 at the same project facility. The benefits available to the company under any other state  
27 programs for which the company is eligible and which utilize withholding tax from the new jobs of  
28 the company must first be credited to the other state program before the withholding retention level  
29 applicable under the Missouri quality jobs act will begin to accrue. These other state programs  
30 include, but are not limited to, the Missouri works jobs training program under sections 620.800 to  
31 620.809, the real property tax increment allocation redevelopment act, sections 99.800 to 99.865, or  
32 the Missouri downtown and rural economic stimulus act under sections 99.915 to 99.980. If any  
33 qualified company also participates in the Missouri works jobs training program in sections 620.800  
34 to 620.809, the company shall retain no withholding tax, but the department shall issue a refundable  
35 tax credit for the full amount of benefit allowed under this subdivision. The calendar year annual  
36 maximum amount of tax credits which may be issued to a qualifying company that also participates  
37 in the new job training program shall be increased by an amount equivalent to the withholding tax  
38 retained by that company under the new jobs training program. However, if the combined benefits  
39 of the quality jobs program and the new jobs training program exceed the projected state benefit of  
40 the project, as determined by the department of economic development through a cost-benefit  
41 analysis, the increase in the maximum tax credits shall be limited to the amount that would not cause

1 the combined benefits to exceed the projected state benefit. Any taxpayer who is awarded benefits  
2 under this program who knowingly hires individuals who are not allowed to work legally in the  
3 United States shall immediately forfeit such benefits and shall repay the state an amount equal to any  
4 state tax credits already redeemed and any withholding taxes already retained.

5 3. The types of projects and the amount of benefits to be provided are:

6 (1) Small and expanding business projects: in exchange for the consideration provided by  
7 the new tax revenues and other economic stimuli that will be generated by the new jobs created by  
8 the program, a qualified company may retain an amount equal to the withholding tax as calculated  
9 under subdivision (33) of section 620.1878 from the new jobs that would otherwise be withheld and  
10 remitted by the qualified company under the provisions of sections 143.191 to 143.265 for a period  
11 of three years from the date the required number of new jobs were created if the average wage of the  
12 new payroll equals or exceeds the county average wage or for a period of five years from the date the  
13 required number of new jobs were created if the average wage of the new payroll equals or exceeds  
14 one hundred twenty percent of the county average wage;

15 (2) Technology business projects: in exchange for the consideration provided by the new tax  
16 revenues and other economic stimuli that will be generated by the new jobs created by the program,  
17 a qualified company may retain an amount equal to a maximum of five percent of new payroll for a  
18 period of five years from the date the required number of jobs were created from the withholding tax  
19 of the new jobs that would otherwise be withheld and remitted by the qualified company under the  
20 provisions of sections 143.191 to 143.265 if the average wage of the new payroll equals or exceeds  
21 the county average wage. An additional one-half percent of new payroll may be added to the five  
22 percent maximum if the average wage of the new payroll in any year exceeds one hundred twenty  
23 percent of the county average wage in the county in which the project facility is located, plus an  
24 additional one-half percent of new payroll may be added if the average wage of the new payroll in  
25 any year exceeds one hundred forty percent of the average wage in the county in which the project  
26 facility is located. The department shall issue a refundable tax credit for any difference between the  
27 amount of benefit allowed under this subdivision and the amount of withholding tax retained by the  
28 company, in the event the withholding tax is not sufficient to provide the entire amount of benefit  
29 due to the qualified company under this subdivision;

30 (3) High impact projects: in exchange for the consideration provided by the new tax  
31 revenues and other economic stimuli that will be generated by the new jobs created by the program,  
32 a qualified company may retain an amount from the withholding tax of the new jobs that would  
33 otherwise be withheld and remitted by the qualified company under the provisions of sections  
34 143.191 to 143.265, equal to three percent of new payroll for a period of five years from the date the  
35 required number of jobs were created if the average wage of the new payroll equals or exceeds the  
36 county average wage of the county in which the project facility is located. For high-impact projects  
37 in a facility located within two adjacent counties, the new payroll shall equal or exceed the higher  
38 county average wage of the adjacent counties. The percentage of payroll allowed under this  
39 subdivision shall be three and one-half percent of new payroll if the average wage of the new payroll  
40 in any year exceeds one hundred twenty percent of the county average wage in the county in which  
41 the project facility is located. The percentage of payroll allowed under this subdivision shall be four

1 percent of new payroll if the average wage of the new payroll in any year exceeds one hundred forty  
2 percent of the county average wage in the county in which the project facility is located. An  
3 additional one percent of new payroll may be added to these percentages if local incentives equal  
4 between ten percent and twenty-four percent of the new direct local revenue; an additional two  
5 percent of new payroll is added to these percentages if the local incentives equal between twenty-five  
6 percent and forty-nine percent of the new direct local revenue; or an additional three percent of  
7 payroll is added to these percentages if the local incentives equal fifty percent or more of the new  
8 direct local revenue. The department shall issue a refundable tax credit for any difference between  
9 the amount of benefit allowed under this subdivision and the amount of withholding tax retained by  
10 the company, in the event the withholding tax is not sufficient to provide the entire amount of benefit  
11 due to the qualified company under this subdivision;

12 (4) Job retention projects: a qualified company may receive a tax credit for the retention of  
13 jobs in this state, provided the qualified company and the project meets all of the following  
14 conditions:

15 (a) For each of the twenty-four months preceding the year in which application for the  
16 program is made the qualified company must have maintained at least one thousand full-time  
17 employees at the employer's site in the state at which the jobs are based, and the average wage of  
18 such employees must meet or exceed the county average wage;

19 (b) The qualified company retained at the project facility the level of full-time employees  
20 that existed in the taxable year immediately preceding the year in which application for the program  
21 is made;

22 (c) The qualified company is considered to have a significant statewide effect on the  
23 economy, and has been determined to represent a substantial risk of relocation from the state by the  
24 quality jobs advisory task force established in section 620.1887; provided, however, until such time  
25 as the initial at-large members of the quality jobs advisory task force are appointed, this  
26 determination shall be made by the director of the department of economic development;

27 (d) The qualified company in the project facility will cause to be invested a minimum of  
28 seventy million dollars in new investment prior to the end of two years or will cause to be invested a  
29 minimum of thirty million dollars in new investment prior to the end of two years and maintain an  
30 annual payroll of at least seventy million dollars during each of the years for which a credit is  
31 claimed; and

32 (e) The local taxing entities shall provide local incentives of at least fifty percent of the new  
33 direct local revenues created by the project over a ten-year period.

34 The quality jobs advisory task force may recommend to the department of economic development  
35 that appropriate penalties be applied to the company for violating the agreement. The amount of the  
36 job retention credit granted may be equal to up to fifty percent of the amount of withholding tax  
37 generated by the full-time jobs at the project facility for a period of five years. The calendar year  
38 annual maximum amount of tax credit that may be issued to any qualified company for a job  
39 retention project or combination of job retention projects shall be seven hundred fifty thousand  
40 dollars per year, but the maximum amount may be increased up to one million dollars if such action  
41 is proposed by the department and approved by the quality jobs advisory task force established in

1 section 620.1887; provided, however, until such time as the initial at-large members of the quality  
2 jobs advisory task force are appointed, this determination shall be made by the director of the  
3 department of economic development. In considering such a request, the task force shall rely on  
4 economic modeling and other information supplied by the department when requesting the increased  
5 limit on behalf of the job retention project. In no event shall the total amount of all tax credits issued  
6 for the entire job retention program under this subdivision exceed three million dollars annually.  
7 Notwithstanding the above, no tax credits shall be issued for job retention projects approved by the  
8 department after August 30, 2013;

9 (5) Small business job retention and flood survivor relief: a qualified company may receive  
10 a tax credit under sections 620.1875 to 620.1890 for the retention of jobs and flood survivor relief in  
11 this state for each job retained over a three-year period, provided that:

12 (a) The qualified company did not receive any state or federal benefits, incentives, or tax  
13 relief or abatement in locating its facility in a flood plain;

14 (b) The qualified company and related companies have fewer than one hundred employees at  
15 the time application for the program is made;

16 (c) The average wage of the qualified company's and related companies' employees must  
17 meet or exceed the county average wage;

18 (d) All of the qualified company's and related companies' facilities are located in this state;

19 (e) The facilities at the primary business site in this state have been directly damaged by  
20 floodwater rising above the level of a five hundred year flood at least two years, but fewer than eight  
21 years, prior to the time application is made;

22 (f) The qualified company made significant efforts to protect the facilities prior to any  
23 impending danger from rising floodwaters;

24 (g) For each year it receives tax credits under sections 620.1875 to 620.1890, the qualified  
25 company and related companies retained, at the company's facilities in this state, at least the level of  
26 full-time, year-round employees that existed in the taxable year immediately preceding the year in  
27 which application for the program is made; and

28 (h) In the years it receives tax credits under sections 620.1875 to 620.1890, the company  
29 cumulatively invests at least two million dollars in capital improvements in facilities and equipment  
30 located at such facilities that are not located within a five hundred year flood plain as designated by  
31 the Federal Emergency Management Agency, and amended from time to time. The amount of the  
32 small business job retention and flood survivor relief credit granted may be equal to up to one  
33 hundred percent of the amount of withholding tax generated by the full-time jobs at the project  
34 facility for a period of three years. The calendar year annual maximum amount of tax credit that  
35 may be issued to any qualified company for a small business job retention and survivor relief project  
36 shall be two hundred fifty thousand dollars per year, but the maximum amount may be increased up  
37 to five hundred thousand dollars if such action is proposed by the department and approved by the  
38 quality jobs advisory task force established in section 620.1887. In considering such a request, the  
39 task force shall rely on economic modeling and other information supplied by the department when  
40 requesting an increase in the limit on behalf of the small business job retention and flood survivor  
41 relief project. In no event shall the total amount of all tax credits issued for the entire small business

1 job retention and flood survivor relief program under this subdivision exceed five hundred thousand  
2 dollars annually. Notwithstanding the provisions of this subdivision to the contrary, no tax credits  
3 shall be issued for small business job retention and flood survivor relief projects approved by the  
4 department after August 30, 2010.

5 4. The qualified company shall provide an annual report of the number of jobs and such  
6 other information as may be required by the department to document the basis for the benefits of this  
7 program. The department may withhold the approval of any benefits until it is satisfied that proper  
8 documentation has been provided, and shall reduce the benefits to reflect any reduction in full-time  
9 employees or new payroll. Upon approval by the department, the qualified company may begin the  
10 retention of the withholding taxes when it reaches the minimum number of new jobs and the average  
11 wage exceeds the county average wage. Tax credits, if any, may be issued upon satisfaction by the  
12 department that the qualified company has exceeded the county average wage and the minimum  
13 number of new jobs. In such annual report, if the average wage is below the county average wage,  
14 the qualified company has not maintained the employee insurance as required, or if the number of  
15 new jobs is below the minimum, the qualified company shall not receive tax credits or retain the  
16 withholding tax for the balance of the benefit period. In the case of a qualified company that initially  
17 filed a notice of intent and received an approval from the department for high-impact benefits and  
18 the minimum number of new jobs in an annual report is below the minimum for high-impact  
19 projects, the company shall not receive tax credits for the balance of the benefit period but may  
20 continue to retain the withholding taxes if it otherwise meets the requirements of a small and  
21 expanding business under this program.

22 5. The maximum calendar year annual tax credits issued for the entire program shall not  
23 exceed eighty million dollars. Notwithstanding any provision of law to the contrary, the maximum  
24 annual tax credits authorized under section 135.535 are hereby reduced from ten million dollars to  
25 eight million dollars, with the balance of two million dollars transferred to this program. There shall  
26 be no limit on the amount of withholding taxes that may be retained by approved companies under  
27 this program.

28 6. The department shall allocate the annual tax credits based on the date of the approval,  
29 reserving such tax credits based on the department's best estimate of new jobs and new payroll of the  
30 project, and the other factors in the determination of benefits of this program. However, the annual  
31 issuance of tax credits is subject to the annual verification of the actual new payroll. The allocation  
32 of tax credits for the period assigned to a project shall expire if, within two years from the date of  
33 commencement of operations, or approval if applicable, the minimum thresholds have not been  
34 achieved. The qualified company may retain authorized amounts from the withholding tax under  
35 this section once the minimum new jobs thresholds are met for the duration of the project period. No  
36 benefits shall be provided under this program until the qualified company meets the minimum new  
37 jobs thresholds. In the event the qualified company does not meet the minimum new job threshold,  
38 the qualified company may submit a new notice of intent or the department may provide a new  
39 approval for a new project of the qualified company at the project facility or other facilities.

40 7. For a qualified company with flow-through tax treatment to its members, partners, or  
41 shareholders, the tax credit shall be allowed to members, partners, or shareholders in proportion to

1 their share of ownership on the last day of the qualified company's tax period.

2 8. Tax credits may be claimed against taxes otherwise imposed by chapters 143 and 148, and  
3 may not be carried forward but shall be claimed within one year of the close of the taxable year for  
4 which they were issued, except as provided under subdivision (4) of subsection 3 of this section.

5 9. Tax credits authorized by this section may be transferred, sold, or assigned by filing a  
6 notarized endorsement thereof with the department that names the transferee, the amount of tax  
7 credit transferred, and the value received for the credit, as well as any other information reasonably  
8 requested by the department.

9 10. Prior to the issuance of tax credits, the department shall verify through the department of  
10 revenue, or any other state department, that the tax credit applicant does not owe any delinquent  
11 income, sales, or use tax or interest or penalties on such taxes, or any delinquent fees or assessments  
12 levied by any state department and through the department of insurance, financial institutions and  
13 professional registration that the applicant does not owe any delinquent insurance taxes. Such  
14 delinquency shall not affect the authorization of the application for such tax credits, except that at  
15 issuance credits shall be first applied to the delinquency and any amount issued shall be reduced by  
16 the applicant's tax delinquency. If the department of revenue or the department of insurance,  
17 financial institutions and professional registration, or any other state department, concludes that a  
18 taxpayer is delinquent after June fifteenth but before July first of any year and the application of tax  
19 credits to such delinquency causes a tax deficiency on behalf of the taxpayer to arise, then the  
20 taxpayer shall be granted thirty days to satisfy the deficiency in which interest, penalties, and  
21 additions to tax shall be tolled. After applying all available credits toward a tax delinquency, the  
22 administering agency shall notify the appropriate department and that department shall update the  
23 amount of outstanding delinquent tax owed by the applicant. If any credits remain after satisfying all  
24 insurance, income, sales, and use tax delinquencies, the remaining credits shall be issued to the  
25 applicant, subject to the restrictions of other provisions of law.

26 11. Except as provided under subdivision (4) of subsection 3 of this section, the director of  
27 revenue shall issue a refund to the qualified company to the extent that the amount of credits allowed  
28 in this section exceeds the amount of the qualified company's income tax.

29 12. An employee of a qualified company will receive full credit for the amount of tax  
30 withheld as provided in section 143.211.

31 13. If any provision of sections 620.1875 to 620.1890 or application thereof to any person or  
32 circumstance is held invalid, the invalidity shall not affect other provisions or application of these  
33 sections which can be given effect without the invalid provisions or application, and to this end, the  
34 provisions of sections 620.1875 to 620.1890 are hereby declared severable.

35 14. The provisions of this section shall expire on December 31, 2027. The total amount of  
36 tax credits eligible to be awarded under subsection 5 of this section shall be reduced each year for ten  
37 years in equal amounts beginning with the 2017 fiscal year until no tax credits are eligible to be  
38 awarded under this section."; and
