Be it enacted by the General Assembly of the state of Missouri, as follows:

   Section A. Section 188.027, RSMo, is repealed and one new section enacted in lieu thereof, to be known as section 188.027, to read as follows:

   188.027. 1. Except in the case of medical emergency, no abortion shall be performed or induced on a woman without her voluntary and informed consent, given freely and without coercion. Consent to an abortion is voluntary and informed and given freely and without coercion if, and only if, at least seventy-two hours prior to the abortion:

   (1) The physician who is to perform or induce the abortion or a qualified professional has informed the woman orally, reduced to writing, and shown the woman the video created by the department of health and senior services under subsection 13 of this section in person, of the following:

   (a) The name of the physician who will perform or induce the abortion;

   (b) Medically accurate information that a reasonable patient would consider material to the decision of whether or not to undergo the abortion, including:

   a. A description of the proposed abortion method;

   b. The immediate and long-term medical risks to the woman associated with the proposed abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and possible adverse psychological effects associated with the abortion; and

EXPLANATION — Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted from the law. Matter in **bold-face** type in the above bill is proposed language.
c. The immediate and long-term medical risks to the woman, in light of the anesthesia and medication that is to be administered, the unborn child's gestational age, and the woman's medical history and medical condition;
  (c) Alternatives to the abortion which shall include making the woman aware that information and materials shall be provided to her detailing such alternatives to the abortion;
  (d) A statement that the physician performing or inducing the abortion is available for any questions concerning the abortion, together with the telephone number that the physician may be later reached to answer any questions that the woman may have;
  (e) The location of the hospital that offers obstetrical or gynecological care located within thirty miles of the location where the abortion is performed or induced and at which the physician performing or inducing the abortion has clinical privileges and where the woman may receive follow-up care by the physician if complications arise;
  (f) The gestational age of the unborn child at the time the abortion is to be performed or induced; and
  (g) The anatomical and physiological characteristics of the unborn child at the time the abortion is to be performed or induced;

(2) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department, which describe the probable anatomical and physiological characteristics of the unborn child at two-week gestational increments from conception to full term, including color photographs or images of the developing unborn child at two-week gestational increments. Such descriptions shall include information about brain and heart functions, the presence of external members and internal organs during the applicable stages of development and information on when the unborn child is viable. The printed materials shall prominently display the following statement: "The life of each human being begins at conception. Abortion will terminate the life of a separate, unique, living human being."

(3) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department, which describe the various surgical and drug-induced methods of abortion relevant to the stage of pregnancy, as well as the immediate and long-term medical risks commonly associated with each abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and the possible adverse psychological effects associated with an abortion;

(4) The physician who is to perform or induce the abortion or a qualified professional shall provide the woman with the opportunity to view at least seventy-two hours prior to the abortion an active ultrasound of the unborn child and hear the heartbeat of the unborn child if
the heartbeat is audible. The woman shall be provided with a geographically indexed list
maintained by the department of health care providers, facilities, and clinics that perform
ultrasounds, including those that offer ultrasound services free of charge. Such materials shall
provide contact information for each provider, facility, or clinic including telephone numbers
and, if available, website addresses. Should the woman decide to obtain an ultrasound from a
provider, facility, or clinic other than the abortion facility, the woman shall be offered a
reasonable time to obtain the ultrasound examination before the date and time set for performing
or inducing an abortion. The person conducting the ultrasound shall ensure that the active
ultrasound image is of a quality consistent with standard medical practice in the community,
contains the dimensions of the unborn child, and accurately portrays the presence of external
members and internal organs, if present or viewable, of the unborn child. The auscultation of
fetal heart tone must also be of a quality consistent with standard medical practice in the
community. If the woman chooses to view the ultrasound or hear the heartbeat or both at the
abortion facility, the viewing or hearing or both shall be provided to her at the abortion facility
at least seventy-two hours prior to the abortion being performed or induced;

(5) Prior to an abortion being performed or induced on an unborn child of twenty-two
weeks gestational age or older, the physician who is to perform or induce the abortion or a
qualified professional has presented the woman, in person, printed materials provided by the
department that offer information on the possibility of the abortion causing pain to the unborn
child. This information shall include, but need not be limited to, the following:

(a) At least by twenty-two weeks of gestational age, the unborn child possesses all the
anatomical structures, including pain receptors, spinal cord, nerve tracts, thalamus, and cortex,
that are necessary in order to feel pain;
(b) A description of the actual steps in the abortion procedure to be performed or
induced, and at which steps the abortion procedure could be painful to the unborn child;
(c) There is evidence that by twenty-two weeks of gestational age, unborn children seek
to evade certain stimuli in a manner that in an infant or an adult would be interpreted as a
response to pain;
(d) Anesthesia is given to unborn children who are twenty-two weeks or more gestational
age who undergo prenatal surgery;
(e) Anesthesia is given to premature children who are twenty-two weeks or more
gestational age who undergo surgery;
(f) Anesthesia or an analgesic is available in order to minimize or alleviate the pain to
the unborn child;
(6) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department explaining to the woman alternatives to abortion she may wish to consider. Such materials shall:

(a) Identify on a geographical basis public and private agencies available to assist a woman in carrying her unborn child to term, and to assist her in caring for her dependent child or placing her child for adoption, including agencies commonly known and generally referred to as pregnancy resource centers, crisis pregnancy centers, maternity homes, and adoption agencies. Such materials shall provide a comprehensive list by geographical area of the agencies, a description of the services they offer, and the telephone numbers and addresses of the agencies; provided that such materials shall not include any programs, services, organizations, or affiliates of organizations that perform or induce, or assist in the performing or inducing of, abortions or that refer for abortions;

(b) Explain the Missouri alternatives to abortion services program under section 188.325, and any other programs and services available to pregnant women and mothers of newborn children offered by public or private agencies which assist a woman in carrying her unborn child to term and assist her in caring for her dependent child or placing her child for adoption, including but not limited to prenatal care; maternal health care; newborn or infant care; mental health services; professional counseling services; housing programs; utility assistance; transportation services; food, clothing, and supplies related to pregnancy; parenting skills; educational programs; job training and placement services; drug and alcohol testing and treatment; and adoption assistance;

(c) Identify the state website for the Missouri alternatives to abortion services program under section 188.325, and any toll-free number established by the state operated in conjunction with the program;

(d) Prominently display the statement: "There are public and private agencies willing and able to help you carry your child to term, and to assist you and your child after your child is born, whether you choose to keep your child or place him or her for adoption. The state of Missouri encourages you to contact those agencies before making a final decision about abortion. State law requires that your physician or a qualified professional give you the opportunity to call agencies like these before you undergo an abortion."

(7) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department explaining that the father of the unborn child is liable to assist in the support of the child, even in instances where he has offered to pay for the abortion. Such materials shall include information on the legal duties and support obligations of the father of a child, including, but not limited to, child support payments, and the fact that paternity may be established by the father's name on a birth
123 certificate or statement of paternity, or by court action. Such printed materials shall also state
124 that more information concerning paternity establishment and child support services and
125 enforcement may be obtained by calling the family support division within the Missouri
126 department of social services; and
127 (8) The physician who is to perform or induce the abortion or a qualified professional
128 shall inform the woman that she is free to withhold or withdraw her consent to the abortion at
129 any time without affecting her right to future care or treatment and without the loss of any state
130 or federally funded benefits to which she might otherwise be entitled.
131 2. All information required to be provided to a woman considering abortion by
132 subsection 1 of this section shall be presented to the woman individually, by showing the video
133 created by the department of health and senior services under subsection 13 of this section
134 in the physical presence of the woman and in a private room, to protect her privacy, to maintain
135 the confidentiality of her decision, to ensure that the information focuses on her individual
136 circumstances, to ensure she has an adequate opportunity to ask questions, and to ensure that she
137 is not a victim of coerced abortion. Should a woman be unable to read materials provided to her,
138 they shall be read to her. Should a woman need an interpreter to understand the information
139 presented in the written materials, an interpreter shall be provided to her. Should a woman ask
140 questions concerning any of the information or materials, answers shall be provided in a
141 language she can understand.
142 3. No abortion shall be performed or induced unless and until the woman upon whom
143 the abortion is to be performed or induced certifies in writing on a checklist form provided by
144 the department that she has been presented all the information required in subsection 1 of this
145 section, that she has been provided the opportunity to view an active ultrasound image of the
146 unborn child and hear the heartbeat of the unborn child if it is audible, and that she further
147 certifies that she gives her voluntary and informed consent, freely and without coercion, to the
148 abortion procedure.
149 4. No abortion shall be performed or induced on an unborn child of twenty-two weeks
150 gestational age or older unless and until the woman upon whom the abortion is to be performed
151 or induced has been provided the opportunity to choose to have an anesthetic or analgesic
152 administered to eliminate or alleviate pain to the unborn child caused by the particular method
153 of abortion to be performed or induced. The administration of anesthesia or analgesics shall be
154 performed in a manner consistent with standard medical practice in the community.
155 5. No physician shall perform or induce an abortion unless and until the physician has
156 obtained from the woman her voluntary and informed consent given freely and without coercion.
157 If the physician has reason to believe that the woman is being coerced into having an abortion,
158 the physician or qualified professional shall inform the woman that services are available for her
and shall provide her with private access to a telephone and information about such services, including but not limited to the following:

(1) Rape crisis centers, as defined in section 455.003;
(2) Shelters for victims of domestic violence, as defined in section 455.200; and
(3) Orders of protection, pursuant to chapter 455.

6. No physician shall perform or induce an abortion unless and until the physician has received and signed a copy of the form prescribed in subsection 3 of this section. The physician shall retain a copy of the form in the patient's medical record.

7. In the event of a medical emergency as provided by section 188.039, the physician who performed or induced the abortion shall clearly certify in writing the nature and circumstances of the medical emergency. This certification shall be signed by the physician who performed or induced the abortion, and shall be maintained under section 188.060.

8. No person or entity shall require, obtain, or accept payment for an abortion from or on behalf of a patient until at least seventy-two hours have passed since the time that the information required by subsection 1 of this section has been provided to the patient. Nothing in this subsection shall prohibit a person or entity from notifying the patient that payment for the abortion will be required after the seventy-two-hour period has expired if she voluntarily chooses to have the abortion.

9. The term "qualified professional" as used in this section shall refer to a physician, physician assistant, registered nurse, licensed practical nurse, psychologist, licensed professional counselor, or licensed social worker, licensed or registered under chapter 334, 335, or 337, acting under the supervision of the physician performing or inducing the abortion, and acting within the course and scope of his or her authority provided by law. The provisions of this section shall not be construed to in any way expand the authority otherwise provided by law relating to the licensure, registration, or scope of practice of any such qualified professional.

10. By November 30, 2010, the department shall produce the written materials and forms described in this section. Any written materials produced shall be printed in a typeface large enough to be clearly legible. All information shall be presented in an objective, unbiased manner designed to convey only accurate scientific and medical information. The department shall furnish the written materials and forms at no cost and in sufficient quantity to any person who performs or induces abortions, or to any hospital or facility that provides abortions. The department shall make all information required by subsection 1 of this section available to the public through its department website. The department shall maintain a toll-free, twenty-four-hour hotline telephone number where a caller can obtain information on a regional basis concerning the agencies and services described in subsection 1 of this section. No identifying information regarding persons who use the website shall be collected or maintained.
The department shall monitor the website on a regular basis to prevent tampering and correct any operational deficiencies.

11. In order to preserve the compelling interest of the state to ensure that the choice to consent to an abortion is voluntary and informed, and given freely and without coercion, the department shall use the procedures for adoption of emergency rules under section 536.025 in order to promulgate all necessary rules, forms, and other necessary material to implement this section by November 30, 2010.

12. If the provisions in subsections 1 and 8 of this section requiring a seventy-two-hour waiting period for an abortion are ever temporarily or permanently restrained or enjoined by judicial order, then the waiting period for an abortion shall be twenty-four hours; provided, however, that if such temporary or permanent restraining order or injunction is stayed or dissolved, or otherwise ceases to have effect, the waiting period for an abortion shall be seventy-two hours.

13. The department of health and senior services shall create a video that contains all the information required to be provided to a woman considering an abortion under subsection 1 of this section, except paragraph (a), the physician’s telephone number under paragraph (d), and paragraph (e) of subdivision (1) of subsection 1 of this section.
