FISCAL ANALYSIS

ASSUMPTION

Officials from **Department of Transportation**, the **Office of Administration - Division of Personnel**, the **Missouri Department of Conservation**, the each assume the proposal will have no fiscal impact on their respective organizations.

Officials from the **Joint Committee on Administrative Rules** state this legislation is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **Attorney General's Office** assume any potential cost arising from this proposal can be absorbed with existing resources.

Officials from the **Department of Labor and Industrial Relations** assume the **Missouri Commission on Human Rights (MCHR)** could absorb the increase in complaints with existing resources. However, if the number of cases is significant or additional legislation is enacted which increased other types of MCHR complaints, the impact could be substantial enough that the MCHR could not absorb the additional work without additional resources.

Officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the Secretary of State's Office for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what our office can sustain with our core budget. Therefore, we reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.
