

HJR 30 -- STATE BOARD OF EDUCATION MEMBERSHIP

SPONSOR: Ruth

Upon voter approval, this constitutional amendment specifies that the State Board of Education must include an active public school classroom teacher, active public school building principal, and active public school superintendent. The three active public school members must each serve only one four-year term. The terms of the first active public school classroom teacher, active public school building principal, and active public school superintendent must be from one to three years, respectively. Each member appointed by the Governor is eligible for reappointment to a second term so that a member does not serve more than eight years total.
