Fiscal Analysis

Officials from the **University of Missouri** state the proposed legislation has been reviewed and it has been determined that, as written, it should not create an additional expense in excess of \$100,000 annually.

Oversight assumes this is the materiality threshold for the UM Health Care and that any costs incurred by UM can be absorbed within current resource levels.

Officials from the **Department of Health and Senior Services**, the **Department of Mental Health**, the **Department of Social Services** and the **Office of State Courts Administrator** each assume the proposal would not fiscally impact their respective agencies.

No direct fiscal impact to small businesses would be expected as a result of this proposal. Also, this legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
