

HB 1440 -- PAYMENT OF PERSONAL PROPERTY TAXES IN JACKSON COUNTY

SPONSOR: Mims

This bill requires Jackson County to provide a method for a taxpayer to pay current personal property taxes in monthly installments if the taxpayer's written request is received by the county collector before the taxes become delinquent. The county collector must calculate a payment schedule with the amount to be paid each month and a due date. No interest or penalty for late payment can be assessed as long as the taxpayer pays each installment timely. The collector must issue a certified statement of the taxpayer's participation in an installment plan, that is sufficient for registering and licensing a vehicle, to anyone who needs proof of payment of personal property taxes and notify the Department of Revenue.

This bill is the same as HB 535 (2015).
