

HCS HB 1550 -- CHILD CUSTODY ORDERS (Neely)

COMMITTEE OF ORIGIN: Standing Committee on Civil and Criminal Proceedings

This bill requires any child custody order to include a written statement that gives notification to the parties that if any provision of that custody order is violated, the injured party may file a family access motion in order to enforce the provision.

The bill specifies that after August 28, 2016, every court order establishing or modifying custody or visitation must include specified language.

This bill is similar to HB 893 (2015).
