

HB 2131 -- NONDRIVER'S LICENSE

SPONSOR: Kelley

This bill requires the Department of Revenue to give Missouri residents the option of a nondriver's license that is compliant with the federal Real ID Act of 2005, which must have specific design elements. Any nondriver's license issued that does not meet the requirements of the Real ID Act of 2005 must include a heading reading "NOT FOR FEDERAL OFFICIAL USE." To obtain a Real ID compliant nondriver's license, an applicant must present proof of identity, Social Security number, and two proofs of address in person at the department or at a driver's license bureau.
