

HB 2671 -- STEM CAREER AWARENESS PILOT PROGRAM

SPONSOR: Fitzwater (49)

This bill establishes a pilot program to be known as the STEM Career Awareness Pilot Program to increase awareness of science, technology, engineering and mathematics careers. The Department of Elementary and Secondary Education shall select twenty-five secondary schools for participation in the program which will introduce students to a wide variety of STEM careers and technology through an on-line-based STEM curriculum. The bill sets out the specific criteria for the on-line program. The pilot program will run from 2017 through 2022.
