

HB 2710 -- SALES TAX ON DISCOUNT COUPONS

SPONSOR: Johnson

This bill specifies that the state and local sales tax will apply to the amount paid at the time of purchase of a discount coupon and not its value. The tax imposed on any subsequent purchase using a discount coupon for which the sales tax has already been paid will be on the amount due after the application of the discount coupon.

This bill is the same as HB 1355 (2015).
