FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Elementary and Secondary Education** assume no cost to the Department. School districts will likely incur costs, we defer to them for impact.

Officials at the **Brentwood School District** assume a potential savings of \$65,000 per year if a teaching section is reduced.

Officials at the **Forsyth R-III, Kirksville R-III, Orrick** and the **West Plains** school districts each assume there is no fiscal impact from this proposal to their respective district.

Oversight notes this proposal would allow a student who participates in at least two approved sports in one year to receive one unit of physical education credit toward their graduation requirement. Oversight assumes this proposal does not increase the number of credits a student needs to graduation and therefore, would not have a direct fiscal impact on the school districts.

Officials at the **Joint Committee on Administrative Rules** assume there is no fiscal impact from this proposal.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.
