## **FISCAL ANALYSIS**

### **ASSUMPTION**

Officials at the **Department of Elementary and Secondary Education** assume there is no fiscal impact to the Department from this proposal.

Officials at the **Brentwood School District** assume the cost would be \$500 per day for a total of \$2,000 to \$3,500 since the district would forgo the state funding to keep its calendar.

Officials at the **West Plains School District** assume potential loss to a reduction in Average Daily Attendance (ADA). The district is mostly farming and pushing back the start date would result in going longer in May. Many students are needed on the farm in May so lower attendance would be expected and therefore, loss of ADA.

Officials at the **Wright City R-II School District** set its current calendar to end summer school prior to the county fair. Pushing back start date would shorten summer school. This would result in a loss of state funding of approximately \$70,000.

Officials at the **Forsyth R-III, Kirksville R-III, Special School District of St. Louis** and the Pettis R-XII school districts each assume there is no fiscal impact from this proposal.

**Oversight** notes this proposal would set the opening day of school districts at no earlier than ten calendar days prior to the first Monday in September. Oversight assumes school districts that currently start prior to ten calendar days prior to the first Monday in September would be required to delay their start date. Oversight assumes that this proposal does not change the length of the school day or the number of days in the school year so this proposal should not have a direct fiscal impact.

**Oversight** notes that since the foundation formula is not fully funded; losses, if any, to one district would be redistributed to other districts.
