Charter schools may limit admission based on gender only when the school is a single-gender school. Students of a charter school who have been enrolled for a full academic year shall be counted in the performance of the charter school on the statewide assessments in that calendar year, unless otherwise exempted as English language learners. For purposes of this subsection, "full academic year" means the last Wednesday in September through the administration of the Missouri assessment program test without transferring out of the school and re-enrolling.

The student's parent or legal guardian shall be responsible for the student's transportation to and from the charter school.

6. If a change in school district boundary lines occurs under section 162.223, 162.431, 162.441, or 162.451, or by action of the state board of education under section 162.081, including attachment of a school district's territory to another district or dissolution, such that a student attending a charter school prior to such change no longer resides in a school district in which the charter school is located, then the student may complete the current academic year at the charter school. The student shall be considered a resident student. The student's parent or legal guardian shall be responsible for the student's transportation to and from the charter school.
7. The provisions of sections 167.018 and 167.019 concerning foster children's educational rights are applicable to charter schools.

160.415. 1. The charter school shall report the average daily attendance data, free and reduced price lunch count, special education pupil count, and limited English proficiency pupil count to the state department of elementary and secondary education. Each charter school shall promptly notify the state department of elementary and secondary education and the pupil's school district when a student discontinues enrollment at a charter school.

   (2) The district of residence of a pupil attending a charter school shall also pay to the charter school any other federal or state aid that the district receives on account of such child.
   (3) If the department overpays or underpays the amount due to the charter school, such overpayment or underpayment shall be repaid by the public charter school or credited to the public charter school in twelve equal payments in the next fiscal year.
   (4) The amounts provided pursuant to this subsection shall be prorated for partial year enrollment for a pupil.
   (5) A school district shall pay the amounts due pursuant to this subsection as the disbursal agent and no later than twenty days following the receipt of any such funds. The department of elementary and secondary education shall pay the amounts due when it acts as the disbursal agent within five days of the required due date.

3. A workplace charter school shall receive payment for each eligible pupil as provided under subsection 2 of this section, except that if the student is not a resident of the district and is participating in a voluntary interdistrict transfer program, the payment for such pupils shall be the same as provided under section 162.1060.
4. A charter school that has declared itself as a local educational agency shall receive from the department of elementary and secondary education an annual amount equal to the product of the charter school's weighted average daily attendance and the state adequacy target, multiplied by the dollar value modifier for the district, plus local tax revenues per weighted average daily attendance from the incidental and teachers funds in excess of the performance levy as defined in section 163.011 plus all other state aid attributable to such pupils. If a charter school declares itself as a local educational agency, the department of elementary and secondary education shall, upon notice of the declaration, reduce the payment made to the school district by the amount specified in this subsection and pay directly to the charter school the annual amount reduced from the school district's payment.

5. If a school district fails to make timely payments of any amount for which it is the disbursal agent, the state department of elementary and secondary education shall authorize payment to the charter school of the amount due pursuant to subsection 2 of this section and shall deduct the same amount from the next state school aid apportionment to the owing school district. If a charter school is paid more or less than the amounts due pursuant to this section, the amount of overpayment or underpayment shall be adjusted equally in the next twelve payments by the school district or the department of elementary and secondary education, as appropriate. Any dispute between the school district and a charter school as to the amount owing to the charter school shall be resolved by the department of elementary and secondary education, and the department's decision shall be the final administrative action for the purposes of review pursuant to chapter 536. During the period of dispute, the department of elementary and secondary education shall make every administrative and statutory effort to allow the continued education of children in their current public charter school setting.

6. The charter school and a local school board may agree by contract for services to be provided by the school district to the charter school. The charter school may contract with any other entity for services. Such services may include but are not limited to food service, custodial service, maintenance, management assistance, curriculum assistance, media services and libraries and shall be subject to negotiation between the charter school and the local school board or other entity. Documented actual costs of such services shall be paid for by the charter school.

7. In the case of a proposed charter school that intends to contract with an education service provider for substantial educational services or management services, the request for proposals shall additionally require the charter school applicant to:

(3) Disclose any known conflicts of interest between the school governing board and proposed service provider or any affiliated business entities;

(4) Disclose and explain any termination or nonrenewal of contracts for equivalent services for any other charter school in the United States within the past five years;

(5) Ensure that the legal counsel for the charter school shall report directly to the charter school's governing board; and

(6) Provide a process to ensure that the expenditures that the education service provider intends to bill to the charter school shall receive prior approval of the governing board or its designee.

8. A charter school may enter into contracts with community partnerships and state agencies acting in collaboration with such partnerships that provide services to children and their families linked to the school.

9. A charter school shall be eligible for transportation state aid pursuant to section 163.161 and shall be free to contract with the local district, or any other entity, for the provision of transportation to the students of the charter school.

10. (1) The proportionate share of state and federal resources generated by students with disabilities or staff serving them shall be paid in full to charter schools enrolling those students by their school district where such enrollment is through a contract for services described in this section. The proportionate share of money generated under other federal or state categorical aid programs shall be directed to charter schools serving such students eligible for that aid.

(2) A charter school shall provide the special services provided pursuant to section 162.705 and may provide the special services pursuant to a contract with a school district or any provider of such services.

11. A charter school may not charge tuition or impose fees that a school district is prohibited from charging or imposing, except that a charter school may receive tuition payments from districts in the same or an adjoining county for nonresident students who transfer to an approved charter school, as defined in section 167.826, from an unaccredited district.

12. A charter school is authorized to incur debt in anticipation of receipt of funds. A charter school may also borrow to finance facilities and other capital items. A school district may incur bonded indebtedness or take other measures to provide for physical facilities and other
capital items for charter schools that it sponsors or contracts with. Except as otherwise
specifically provided in sections 160.400 to 160.425, upon the dissolution of a charter school,
any liabilities of the corporation will be satisfied through the procedures of chapter 355. A
charter school shall satisfy all its financial obligations within twelve months of notice from the
sponsor of the charter school's closure under subsection 8 of section 160.405. After satisfaction
of all its financial obligations, a charter school shall return any remaining state and federal funds
to the department of elementary and secondary education for disposition as stated in subdivision
(17) of subsection 1 of section 160.405. The department of elementary and secondary education
may withhold funding at a level the department determines to be adequate during a school's last
year of operation until the department determines that school records, liabilities, and reporting
requirements, including a full audit, are satisfied.

13. Charter schools shall not have the power to acquire property by eminent domain.
14. The governing body of a charter school is authorized to accept grants, gifts or
donations of any kind and to expend or use such grants, gifts or donations. A grant, gift or

law applicable to the charter school or other public schools, or contrary to the terms of the
charter.

162.081. 1. Whenever any school district in this state fails or refuses in any school year
to provide for the minimum school term required by section 163.021 or is classified
unaccredited, the state board of education shall, upon a district's initial classification or
reclassification as unaccredited:

(1) Review the governance of the district to establish the conditions under which the
existing school board shall continue to govern; or

(2) Determine the date the district shall lapse and determine an alternative governing
structure for the district.

2. If at the time any school district in this state shall be classified as unaccredited, the
department of elementary and secondary education shall conduct at least two public hearings at
a location in the unaccredited school district regarding the accreditation status of the school
district. The hearings shall provide an opportunity to convene community resources that may
be useful or necessary in supporting the school district as it attempts to return to accredited
status, continues under revised governance, or plans for continuity of educational services and
resources upon its attachment to a neighboring district. The department may request the
attendance of stakeholders and district officials to review the district's plan to return to accredited

The members of the special administrative board shall reflect the population characteristics of the district and shall collectively possess strong experience in school governance, management and finance, and leadership. The state board of education may appoint members of the district's elected school board to the special administrative board, but members of the elected school board shall not comprise more than forty-nine percent of the special administrative board's membership. Within fourteen days after the appointment by the state board of education, the special administrative board shall organize by the election of a president, vice president, secretary and a treasurer, with their duties and organization as enumerated in section 162.301. The special administrative board shall appoint a superintendent of schools to serve as the chief executive officer of the school district, or a subset of schools, and to have all powers and duties of any other general superintendent of schools in a seven-director school district. Nothing in this section shall be construed to permit either the state board of education or a special administrative board to raise, in any way not specifically allowed by law, the tax levy of the district or any part of the district without a vote of the people. Any special administrative board appointed under this section shall be responsible for the operation of the district or part of the district until such time that the district is classified by the state board of education as provisionally accredited for at least two successive academic years, after which time the state board of education may provide for a transition pursuant to section 162.083; or

4. If a district remains under continued governance by the school board under subdivision (1) of subsection 3 of this section and either has been unaccredited for three consecutive school years and failed to attain accredited status after the third school year or has been unaccredited for two consecutive school years and the state board of education determines its academic progress is not consistent with attaining accredited status after the third school year, then the state board of education shall proceed under subdivision (2) of subsection 3 of this section in the following school year.

5. A special administrative board or any other form of governance appointed under this section shall retain the authority granted to a board of education for the operation of the lapsed school district under the laws of the state in effect at the time of the lapse and may enter into contracts with accredited school districts or other education service providers in order to deliver high-quality educational programs to the residents of the district. governance appointed under this section. Such immunities, and immunity doctrines as exist
or may hereafter exist benefitting boards of education, their members and their employees shall
be available to the special administrative board or any other form of governance
appointed under this section and the members and employees of the special administrative
board or any other form of governance appointed under this section.

6. Neither the special administrative board nor any other form of governance
appointed under this section nor any district or other entity assigned territory, assets or funds
from a lapsed district shall be considered a successor entity for the purpose of employment
contracts, unemployment compensation payment pursuant to section 288.110, or any other
purpose.

7. If additional teachers are needed by a district as a result of increased enrollment due
to the annexation of territory of a lapsed or dissolved district, such district shall grant an
employment interview to any permanent teacher of the lapsed or dissolved district upon the
request of such permanent teacher.

8. In the event that a school district with an enrollment in excess of five thousand pupils
lapses, no school district shall have all or any part of such lapsed school district attached without
the approval of the board of the receiving school district.

9. If the state board of education reasonably believes that a school district is
unlikely to provide for the minimum school term required by section 163.021 because of
financial difficulty, the state board of education may, prior to the start of the school term:

(1) Allow continued governance by the existing district school board under terms
and conditions established by the state board of education; or

(2) Lapse the corporate organization of the district and implement one of the
options available under subdivision (2) of subsection 3 of this section.

10. The provisions of subsection 9 of this section shall not apply to any district
solely on the basis of financial difficulty resulting from paying tuition and providing
transportation for transfer students under sections 167.826 and 167.827.

162.1310. 1. For purposes of this section, "attendance center" means a public
school building, public school buildings, or part of a public school building that offers

a permanent or temporary home without paying a tuition fee.
3. Any person who pays a school tax in any other district than that in which he resides may send his children to any public school in the district in which the tax is paid and receive as a credit on the amount charged for tuition the amount of the school tax paid to the district; except that any person who owns real estate of which eighty acres or more are used for agricultural purposes and upon which his residence is situated may send his children to public school in any school district in which a part of such real estate, contiguous to that upon which his residence is situated, lies and shall not be charged tuition therefor; so long as thirty-five percent of the real estate is located in the school district of choice. The school district of choice shall count the children in its average daily attendance for the purpose of distribution of state aid through the foundation formula.

4. Any owner of agricultural land who, pursuant to subsection 3 of this section, has the option of sending his children to the public schools of more than one district shall exercise such option as provided in this subsection. Such person shall send written notice to all school districts involved specifying to which school district his children will attend by June thirtieth in which such a school year begins. If notification is not received, such children shall attend the school in which the majority of his property lies. Such person shall not send any of his children to the public schools of any district other than the one to which he has sent notice pursuant to this subsection in that school year or in which the majority of his property lies without paying tuition to such school district.

5. If a pupil is attending school in a district other than the district of residence and the pupil's parent is teaching in the school district or is a regular employee of the school district which the pupil is attending, then the district in which the pupil attends school shall allow the pupil to attend school upon payment of tuition in the same manner in which the district allows other pupils not entitled to free instruction to attend school in the district. The provisions of this subsection shall apply only to pupils attending school in a district which has an enrollment in excess of thirteen thousand pupils and not in excess of fifteen thousand pupils and which district is located in a county of the first classification with a charter form of government which has a population in excess of six hundred thousand persons and not in excess of nine hundred thousand persons.

167.241. 1. Except as otherwise provided under this section, transportation for pupils whose tuition the district of residence is required to pay by section 167.131 or 167.826 or who are assigned as provided in section 167.121 shall be provided by the district of residence; however.

2. In the case of pupils covered by section 167.131, the district of residence shall be required to provide transportation only to approved charter schools as defined in section 167.131, school districts accredited by the state board of education pursuant to the authority of
the state board of education to classify schools as established in section 161.092, and those
school districts designated by the board of education of the district of residence.

3. (1) For purposes of this subsection, "approved charter school" has the same
meaning given to the term under section 167.826.

(2) For pupils covered by section 167.826, the district of residence shall be required
to provide transportation only to school districts or approved charter schools designated
by the department of elementary and secondary education or its designee. For pupils
covered by section 167.826, the department of elementary and secondary education or its
designee shall designate at least one accredited district or approved charter school to which
the district of residence shall provide transportation. If the designated district or charter
school reaches full student capacity and is unable to receive additional students, the
department of elementary and secondary education or its designee shall designate at least
one additional accredited district or approved charter school to which the district of
residence shall provide transportation.

167.826. 1. For purposes of this section and section 167.827, the following terms
mean:

(1) "Approved charter school", a charter school that has existed for less than three
years or a charter school with a three-year average score consistent with a classification
of accredited without provisions on its annual performance report;

(2) "Attendance center", a public school building, public school buildings, or part
of a public school building that offers education in a grade or grades not higher than the
twelfth grade and that constitutes one unit for accountability and reporting purposes for
the department of elementary and secondary education;

(3) "Available receiving district", a school district able to receive transfer students
under this section;

(4) "Receiving district", a school district receiving transfer students under this
section;

(5) "Sending district", a school district from which students are transferring to a
receiving district or approved charter school, as allowed under this section.

2. (1) Any student may transfer to another public school in the student’s district
of residence if such student is enrolled in and has attended, for the full semester
immediately prior to requesting the transfer, an attendance center:

(a) That is located within an unaccredited district; and

(b) That has an annual performance report score consistent with a classification
of unaccredited.
However, no such transfer shall result in a class size and assigned enrollment in a receiving
school that exceeds the standards for class size and assigned enrollment as promulgated
in the Missouri school improvement program's resource standards. If the student chooses
to attend a magnet school, an academically selective school, or a school with a competitive
entrance process within his or her district of residence that has admissions requirements,
the student shall meet the admissions requirements in order to attend.

(2) The school board of each unaccredited district shall determine the capacity at
each of the district's attendance centers that has an annual performance report score
consistent with a classification of accredited. The district's school board shall be
responsible for coordinating transfers within the district as allowed under this subsection.

(3) The school board of each unaccredited district shall annually report to the
department of elementary and secondary education or its designee the number of available
slots in attendance centers within the district that have annual performance report scores
consistent with a classification of accredited, the number of students who request to
transfer within the district, and the number of such transfer requests that are granted.

3. (1) Any student who is eligible to transfer within his or her district under
subsection 2 of this section but who is unable to do so due to a lack of capacity in the
attendance centers in his or her district of residence may apply to the department of
elementary and secondary education or its designee to transfer to:

(a) An attendance center:
   a. That is located within an accredited district that is located in the same or an
   adjoining county; and
   b. That has an annual performance report score consistent with a classification of
      accredited; or
   (b) An approved charter school located in another district in the same or an
   adjoining county.

(2) A student who is eligible to begin kindergarten or first grade at an attendance
center:
   (a) That is located within an unaccredited district;
   (b) That has an annual performance report score consistent with a classification
      of unaccredited; and
   (c) That offers classes above the second grade level

may apply to the department of elementary and secondary education or its designee for a
transfer to a school described under paragraph (a) or (b) of subdivision (1) of this
subsection if he or she resides in the attendance area of the attendance center described
under this subdivision on March first preceding the school year of first attendance. A
student who does not apply by March first for enrollment in any school year after the 2017-
18 school year shall be required to enroll and attend the attendance center described under
this subdivision for one semester to become eligible.
(3) If a student who is eligible to transfer under this subsection chooses to apply to
attend a magnet school, an academically selective school, or a school with a competitive
entrance process that has admissions requirements, the student shall furnish proof that he
or she meets the admissions requirements.
(4) Any student who does not maintain residency in the attendance zone of his or
her attendance center in the district of residence shall lose eligibility to transfer.
(5) Except as provided under subsection 7 of this section, any student who transfers
but later withdraws shall lose eligibility to transfer.
(6) The transfer provisions of this subsection shall not apply to a district created
under sections 162.815 to 162.840 or to any early childhood programs or early childhood
special education programs.
4. (1) No student enrolled in and attending an attendance center that does not offer
classes above the second grade level shall be eligible to transfer under this section.
(2) No student who is eligible to begin kindergarten or first grade at an attendance
center that does not offer classes above the second grade level shall be eligible to transfer
under this section.
5. (1) (a) No provisionally accredited district shall be eligible to receive transfer
students.
(b) Except as provided under paragraph (c) of this subdivision, no attendance
center that has an annual performance report score consistent with a classification of
provisionally accredited shall be eligible to receive transfer students.
(c) A transfer student who chooses to attend an attendance center that has an
annual performance report score consistent with a classification of provisionally accredited
and that is located within his or her unaccredited district of residence shall be allowed to
transfer to such attendance center if there is an available slot.
(2) (a) No unaccredited district shall be eligible to receive transfer students.
(b) No attendance center that has an annual performance report score consistent
with a classification of unaccredited shall be eligible to receive transfer students.
(3) No district or attendance center that has received two consecutive annual
performance reports consistent with a classification of provisionally accredited for the
years immediately preceding the year in which it seeks to enroll transfer students shall be
eligible to receive any transfer students, irrespective of its state board of education
classification designation; except that, any student who was granted a transfer to such a
district or attendance center prior to the effective date of this section may remain enrolled
in that district or attendance center.

6. Notwithstanding the provisions of subsection 5 of this section, a student may
transfer to an attendance center:

(1) That is located within an unaccredited or provisionally accredited district; and

(2) That has an annual performance report score consistent with a classification of
accredited if the attendance center applies for and is granted a waiver by the department
of elementary and secondary education or its designee to allow the attendance center to
accept transfer students.

7. If a receiving district becomes unaccredited or provisionally accredited, or if an
approved charter school loses its status as an approved charter school, any students who
previously transferred to the district or charter school shall receive the opportunity to
remain enrolled in the district or charter school or to transfer to another district or
approved charter school without losing their eligibility to transfer.

8. For a receiving district, no acceptance of a transfer student shall require any of
the following actions, unless the board of education of the receiving district has approved
the action:

(1) The hiring of additional classroom teachers; or

(2) The construction of additional classrooms.

9. (1) By July 15, 2017, the board of education of each available receiving district
and the governing board of each approved charter school eligible to receive transfer
students under this section shall set the number of transfer students the district or charter
school is willing to receive for the 2017-18 school year.

(2) By February first annually, the board of education of each available receiving
district and the governing board of each approved charter school eligible to receive
transfer students under this section shall set the number of transfer students the district
or charter school is willing to receive for the following school year.

(3) An available receiving district or approved charter school eligible to receive
transfer students under this section shall publish the number set under this subsection and
shall not be required to accept any transfer students under this section that would cause
it to exceed the published number.

10. (1) Each available receiving district shall adopt a policy establishing a tuition
rate for transfer students by February first annually.
(2) Each approved charter school eligible to receive transfer students under this section shall adopt a policy establishing a tuition rate for transfer students by February first annually.

(3) A sending district shall pay the receiving district or the approved charter school the amount specified under section 167.132 for each transfer student.

11. If an unaccredited district becomes classified as provisionally accredited or accredited without provisions by the state board of education, or if an attendance center within an unaccredited district improves its annual performance report score from a score that is consistent with a classification of unaccredited to a score that is consistent with a classification of provisionally accredited or accredited, any resident student of the unaccredited district who has transferred to an approved charter school or to an accredited district in the same or an adjoining county, as allowed under subsection 3 of this section, shall be permitted to continue his or her educational program in the receiving district or charter school through the completion of middle school, junior high school, or high school, whichever occurs first; except that, a student who attends any school serving students through high school graduation but starting at grades lower than ninth grade shall be permitted to complete high school in the school to which he or she has transferred.

12. Notwithstanding the provisions of subsection 10 of this section, if costs associated with the provision of special education and related services to a student with a disability exceed the tuition amount established under this section, the unaccredited district shall remain responsible for paying the excess cost to the receiving district. If the receiving district is a component district of a special school district, the unaccredited district, including any metropolitan school district, shall contract with the special school district for the entirety of the costs to provide special education and related services, excluding transportation in accordance with this section. The special school district may contract with an unaccredited district, including any metropolitan district, for the provision of transportation of a student with a disability or the unaccredited district may provide transportation on its own.

13. A special school district shall continue to provide special education and related services, with the exception of transportation under this section, to a student with a disability transferring from an attendance center with an annual performance report score consistent with a classification of unaccredited that is within a component district to an attendance center with an annual performance report score consistent with a classification of accredited that is within the same or a different component district within the special school district.
14. If any metropolitan school district is classified as unaccredited, it shall remain responsible for the provision of special education and related services, including transportation, to students with disabilities. A special school district in an adjoining county to a metropolitan school district may contract with the metropolitan school district for the reimbursement of special education services under sections 162.705 and 162.710 provided by the special school district for transfer students who are residents of the unaccredited district.

15. Regardless of whether transportation is identified as a related service within a student's individualized education program, a receiving district that is not part of a special school district shall not be responsible for providing transportation to a student transferring under this section. An unaccredited district may contract with a receiving district that is not part of a special school district under sections 162.705 and 162.710 for transportation of students with disabilities.

16. If a seven-director school district or urban school district is classified as unaccredited, it may contract with a receiving district that is not part of a special school district in the same or an adjoining county for the reimbursement of special education and related services under sections 162.705 and 162.710 provided by the receiving district for transfer students who are residents of the unaccredited district.

167.827. 1. (1) By July 15, 2017, and by January first annually, each accredited district, any portion of which is located in the same county as or in an adjoining county to an unaccredited district, shall report to the department of elementary and secondary education or its designee the number of available enrollment slots by grade level.

(2) By July 15, 2017, and by January first annually, each unaccredited district shall report to the department of elementary and secondary education or its designee the number of available enrollment slots in the schools of its district that have received annual performance report scores consistent with a classification of accredited.

(3) By July 15, 2017, and by January first annually, each approved charter school that is eligible to receive transfer students under section 167.826 shall report to the department of elementary and secondary education or its designee the number of available enrollment slots.

2. The department of elementary and secondary education or its designee shall make information and assistance available to parents or guardians who intend to transfer their child to an accredited district or to an approved charter school as described under section 167.826.

3. The parent or guardian of a student who intends to transfer his or her child to an accredited district or to an approved charter school as described under section 167.826
for enrollment in that district or charter school in any school year after the 2017-18 school
year shall send initial notification to the department of elementary and secondary
education or its designee by March first for enrollment in the subsequent school year.

4. The department of elementary and secondary education or its designee shall
assign those students who seek to transfer to an accredited district or to an approved
charter school as described under section 167.826. When assigning transfer students to
approved charter schools, the department of elementary and secondary education or its
designee shall coordinate with each approved charter school and its admissions process if
capacity is insufficient to enroll all students who submit a timely application. An approved
charter school shall not be required to institute a lottery procedure for determining the
admission of resident students. The department of elementary and secondary education
or its designee shall give first priority to students who live in the same household with any
family member within the first or second degree of consanguinity or affinity who already
attends a school with an annual performance report score consistent with a classification
of accredited and who apply to attend the same school. If insufficient grade-appropriate
enrollment slots are available for a student to be able to transfer, the student shall receive
first priority the following school year. The department of elementary and secondary
education or its designee shall consider the following factors in assigning schools, with the
student's or parent's choice as the most important factor:

1. The student's or parent's choice of the receiving school;
2. The best interests of the student;
3. The availability of transportation funding, as provided under section 167.241; and
4. Distance and travel time to a receiving school.

The department of elementary and secondary education or its designee shall not consider
student academic performance, free and reduced price lunch status, or athletic ability in
assigning a student to a school.

5. (1) The department of elementary and secondary education or its designee may
deny a transfer to a student who in the most recent school year has been suspended from
school two or more times or who has been suspended for an act of school violence under
subsection 2 of section 160.261. A student whose transfer is initially precluded under this
subsection may be permitted to transfer on a provisional basis as a probationary transfer
student, subject to no further disruptive behavior, upon a statement from the student's
current school that the student is not disruptive. A student who is denied a transfer under
this subsection has the right to an in-person meeting with an employee of the department
of elementary and secondary education or its designee.

(2) The department of elementary and secondary education shall promulgate rules
to provide common standards for determining disruptive behavior that shall include, but
not be limited to, criteria under section 160.261. Any rule or portion of a rule, as that term
is defined in section 536.010, that is created under the authority delegated in this section
shall become effective only if it complies with and is subject to all of the provisions of
chapter 536 and, if applicable, section 536.028. This section and chapter 536 are
nonseverable, and if any of the powers vested with the general assembly pursuant to
chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are
subsequently held unconstitutional, then the grant of rulemaking authority and any rule
proposed or adopted after the effective date of this section shall be invalid and void.

167.890. 1. The department of elementary and secondary education shall compile
and maintain student performance data scores of all students enrolled in districts other
than their resident districts as provided under section 167.826 and make such data
available on the Missouri comprehensive data system. No personally identifiable data shall
be accessible on the database.

2. The department of elementary and secondary education may promulgate all
necessary rules and regulations for the administration of this section. Any rule or portion
of a rule, as that term is defined in section 536.010, that is created under the authority
delegated in this section shall become effective only if it complies with and is subject to all
of the provisions of chapter 536 and, if applicable, section 536.028. This section and
chapter 536 are nonseverable, and if any of the powers vested with the general assembly
pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul
a rule are subsequently held unconstitutional, then the grant of rulemaking authority and
any rule proposed or adopted after the effective date of this section shall be invalid and
void.

Section B. Because of the importance of improving and sustaining Missouri’s elementary
and secondary education system and establishing standards for student transfers to school
districts, this act is deemed necessary for the immediate preservation of the public health,
welfare, peace, and safety, and is hereby declared to be an emergency act within the meaning of
the constitution, and this act shall be in full force and effect on July 1, 2017, or upon its passage
and approval, whichever occurs later.
