

HB 887 -- GOVERNMENT WEBSITES

SPONSOR: Barnes (60)

This bill specifies that every county and municipality must establish and operate its own government website that is available to members of the public and update the website each month. The Office of Administration shall make a template available to counties and municipalities and outside entities may be hired to run and maintain the website. The required information that the website must contain is specified in the bill.

This bill is similar to HB 934 (2015).
