

HB 1219 -- ANIMAL ABUSE REGISTRY

SPONSOR: Hannegan

This section shall be known as the "Missouri Animal Abuser Registration Act." Beginning January 1, 2018, this bill requires the Missouri State Highway Patrol to post a publicly accessible list on its website of any person convicted of an animal abuse offense on or after January 1, 2018. The bill specifies what information must be included and what information may not be included. All circuit court clerks must forward a copy of the judgment and certain information to the highway patrol within 60 days of the judgment.

Upon a person's first conviction for an animal abuse offense, the highway patrol must keep his or her name and identifying information on the list for two years following the date of conviction. Upon a person's second or subsequent conviction for an animal abuse offense, the highway patrol must keep his or her name and identifying information on the list for five years following the date of conviction. The highway patrol must remove a person's name and information from the registry if the sole offense for which the person is listed is expunged.

This bill is the same as HB 1707 (2016).
