FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Elementary and Secondary Education** assume the proposal will have no fiscal impact on their organization.

Officials from the **Shell Knob #78 School District** assume the district could initially save the cost of sending teachers to a Professional Development opportunity.

Officials from the **Northeast Nodaway R-5 School District, Kirksville R-III School District, West Plains School District, Macon County R-IV School District and Pettis County R-12 School District** assume the proposal will have no fiscal impact on their organizations.

Oversight notes this proposal would allow teachers to participate in externships with local businesses and count it as part of the professional development required under §168.024. In order to obtain a teaching certificate in Missouri an applicant must have the required educational degree, pass a background check and have a certain number of professional development hours (including so many hours in a classroom) per §168.024. This proposal would allow the externships to count towards the professional development that can be obtained outside the classroom.

Oversight assumes this proposal would not have a fiscal impact as the teachers are already required to have a set number of professional development hours.
