FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Social Services (DSS)**, **MO HealthNet Division** and **Division of Legal Services**, the **Department of Health and Senior Services**, the **Department of Insurance, Financial Institutions and Professional Registration**, the **Department of Public Safety, Missouri State Highway Patrol**, the **Joint Committee on Administrative Rules**, the **Missouri Consolidated Health Care Plan**, the **Missouri Department of Conservation** and the **Missouri Department of Transportation**, each assume the proposal would not fiscally impact their respective agencies.

Officials from the **Department of Mental Health (DMH)** state the proposed language would not place any additional fiscal impact on DMH as the Community Mental Health Centers are already providing and billing for telehealth services. However, it could create more access to services.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

In response to the previous version of this proposal, officials from the **Summersville R2 School District** stated this proposal could have a positive impact for the school district if it made telehealth services more accessible, especially if districts can get more Medicaid reimbursements for these services. However, the fiscal impact is assumed to be minimal.

In response to the previous version of this proposal, officials from the **Kirksville R-III School District** and the **Wellsville-Middletown R-1 School District** assumed the proposal would have no fiscal impact on their respective agencies.
