FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Labor and Industrial Relations (DOLIR)** assume the majority of current contracts specific to the Department of Labor and Industrial Relations (DOLIR) fall within the \$25,000-\$100,000 range. The department anticipates a sizeable increase in the number of contracts for which it will be responsible and would require 0.50 Procurement Officer I (Range 23, Step G) to handle the increase in workload including tracking contracts, coordinating contract requirements with divisions and ensuring procurement rules are followed, processing orders and purchases, revising contracts and creating amendments, approving payments and invoices, answering questions from staff and vendors, and monitoring Minority Business Enterprise and Women Owned Business Enterprise (MBE/WBE) participation. Standard per FTE expense and equipment would also be required.

Administrative Services for the DOLIR are funded using a cost allocation plan with transfers made to the DOLIR Administrative Fund. DOLIR assumes the costs associated with this fiscal note would be paid from this fund.

Oversight assumes DOLIR is provided with core funding to handle a certain amount of activity each year. Oversight assumes DOLIR could absorb the costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, DOLIR could request funding through the appropriation process.

Oversight also assumes savings to the General Revenue Fund in advertising for bids and/or cost of materials will offset any potential cost the DOLIR may have.

Officials from the **Department of Social Services (DSS)** assume this bill changes the purchasing requirements in Chapter 34, raising the amount at which bids are required to ten thousand dollars, raising the amount at which advertisements are required to one hundred thousand dollars and allowing for reverse auctions. It also prohibits the use of cost-only bids. Many items such as food, supplies, trash hauling, etc., do not include a "quality" component and are currently procured with cost-only considerations. This legislation will add time to the procurement process and require additional resources. Two Procurement Officer II (at \$46,056/annually each) positions are needed to secure all contracts in this manner. They are funded using 100% general revenue.

The Department of Social Services is deferring to OA Purchasing for changes to chapter 34, purchasing law.

ASSUMPTION (continued)

Oversight assumes DSS is provided with core funding to handle a certain amount of activity each year. Oversight assumes DSS and DOLIR could absorb the costs related to this proposal within existing appropriation levels. Oversight assumes there are no additional duties specified in this bill, and if DSS and DOLIR require additional resources, the Office of Administration (OA) - Division of Purchasing and Materials Management should encounter an offsetting savings for the departments performing the bidding process instead of OA.

Oversight also assumes savings to the General Revenue Fund in advertising for bids and/or cost of materials will offset any potential cost the DOLIR may have.

Officials from the **Office of Administration - Facilities Management Design and Construction** and the **Division of Purchasing** assume the proposal will have no fiscal impact on their respective organizations.

In response to a previous version, officials from the **Attorney General's Office (AGO)** assumed any potential cost arising from this proposal can be absorbed with existing resources. AGO may seek additional appropriations if the proposal results in a significant increase in cases.

In response to a previous version, officials from the **Office of the State Auditor** assumed any potential cost arising from this proposal can be absorbed with existing resources.

In response to a previous version, officials from the **Office of Administration - Budget and Planning (B&P)** assumed this proposal will have no impact to TSR or 18 (e). B&P defers to the Office of Administration to estimate the fiscal impact of the proposed legislation.

In response to a previous version, officials from the **Missouri Department of Conservation (MDC)** estimated the proposed legislation could potentially have an unknown fiscal impact on the MDC fund due to uncertainty of the bidding process.

Oversight assumes the MDC's response is speculative and will not show a fiscal impact. If a fiscal impact were to result, the MDC may request funding through the appropriation process.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration, Department of Elementary and Secondary Education, Department of Higher Education, Department of Mental Health, Department of Natural Resources, Department of Corrections, Department of Revenue, Department of Public Safety - State Emergency Management Agency, Missouri Gaming Commission, Missouri Consolidated Health Care Plan, Department of Transportation, Missouri State Employee's Retirement System,**

ASSUMPTION (continued)

Administrative Hearing Commission, Office of Prosecution Services, Office of the State Courts Administrator, Missouri Senate and the State Tax Commission each assume the proposal will have no fiscal impact on their respective organizations.

In response to a previous version, officials from the **Department of Agriculture, Missouri House of Representatives, Department of Health and Senior Services, Department of Public Safety (Office of the Director, Missouri Highway Patrol, Capitol Police, Alcohol & Tobacco Control, Fire Safety, Missouri National Guard, and the Veterans Commission) Office of the Governor, Joint Committee on Administrative Rules, Missouri Lottery Commission, Missouri Ethics Commission, Office of the Lieutenant Governor, MoDOT & Patrol Employees' Retirement System, Office of the Secretary of State,**

Office of the State Public Defender and Office of the State Treasurer each assumed the proposal will have no fiscal impact on their respective organizations.

Officials from the **Department of Economic Development** defer to the Office of Administration to estimate the fiscal impact of the proposed legislation on their respective organization.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** defer to the Office of Administration for sections 34.040 -34.047 and 34.353 to estimate the fiscal impact of the proposed legislation on their respective organization.

House Amendment 1

Oversight assumes House Amendment 1 will have no fiscal impact on state or local government.

House Amendment 2

Oversight assumes House Amendment 1 will have no fiscal impact on state or local government.

House Amendment 3

Oversight assumes by raising the competitive bidding amount requirements and authorizing the Commissioner of Administration to hold a reverse auction for materials, there could be a savings to the General Revenue Fund in advertising for bids and/or cost of materials. However, Oversight is unclear on the amount of savings. Therefore, Oversight will reflect a positive unknown to the General Revenue Fund this proposal.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This bill allows state offices, departments, boards, commissions, bureaus, political subdivisions, agencies, and other institutions to purchase supplies under a cooperative purchasing agreement from certain authorized General Services Administration vendors without regard to competitive bid limits under Section 34.040, RSMo. The Office of Administration maintains oversight and can use cooperative purchasing agreements whenever they are advantageous to the state.

This bill also changes the exception limit to the competitive bidding rules under Section 34.040, RSMo, from purchases equal to or less than \$3000 to a new \$10,000 limit. It also increases the expenditure limit for purchases that require special notice, advertising, and solicitation requirements by the Commissioner of Administration from projects estimated at \$25,000 or more to those projects estimated at \$100,000 or more.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
