[TRULY AGREED TO AND FINALLY PASSED]

HOUSE BILL NO. 1252

99TH GENERAL ASSEMBLY

4115H.01T

2018

AN ACT

To repeal section 376.782, RSMo, and to enact in lieu thereof one new section relating to low-dose mammography screening.

Be it enacted by the General Assembly of the state of Missouri, as follows:

Section A. Section 376.782, RSMo, is repealed and one new section enacted in lieu thereof, to be known as section 376.782, to read as follows:

376.782. 1. As used in this section, the term "low-dose mammography screening" means the X-ray examination of the breast using equipment specifically designed and dedicated for mammography, including the X-ray tube, filter, compression device, films, and cassettes, with an average radiation exposure delivery of less than one rad mid-breast, with two views for each breast, and any fee charged by a radiologist or other physician for reading, interpreting or diagnosing based on such X-ray. **As used in this section, the term "low-dose mammography screening" shall also include digital mammography and breast tomosynthesis. As used in this section, the term "breast tomosynthesis" shall mean a radiologic procedure that involves the acquisition of projection images over the stationary breast to produce cross-sectional digital three-dimensional images of the breast.**

2. All individual and group health insurance policies providing coverage on an expense-incurred basis, individual and group service or indemnity type contracts issued by a nonprofit corporation, individual and group service contracts issued by a health maintenance organization, all self-insured group arrangements to the extent not preempted by federal law and all managed health care delivery entities of any type or description, that are delivered, issued for delivery, continued or renewed on or after August 28, 1991, and providing coverage to any
