

HCS HB 1500 -- COSMETOLOGY AND BARBERING (Dogan)

COMMITTEE OF ORIGIN: Standing Committee on Professional
Registration and Licensing

This bill states that individuals who braid hair for profit do not need to obtain a cosmetology license. Instead individuals engaging in braiding need to register with the State Board of Cosmetology and Barber Examiners. No education or training is required to register, except that the hair braider must complete a self-test on infection control techniques and diseases of the scalp based upon a brochure and informational video to be prepared by the board.

This bill also removes the requirement that applicants for a barber license be free of contagious or infectious diseases. The bill removes the good moral character requirement for cosmetologists and specifies that applicants may be denied licensure if they have been found guilty of any of a set list of offenses but any denial may be appealed. The bill also requires the board to grant a license, without first requiring an examination, to an applicant who holds a license in another state, regardless of whether the licensure requirements in that state are substantially similar to the licensing requirements in Missouri.

This bill prevents any political subdivision from requiring a licensed barber or cosmetologist practicing within a barber or cosmetology shop to obtain a business license.

This bill is similar to HB 230 (2017).
