

HCS HB 2216 -- WATER RESOURCES (Brattin)

COMMITTEE OF ORIGIN: Standing Committee on Conservation and Natural Resources

Currently, Missouri landowners have the right to have, use, and own private water systems and ground source systems any time and anywhere unless prohibited by city ordinances. This bill specifies that this includes systems for potable water and that all Missouri landowners have the right to have, use, and own systems for rainwater collection anytime and anywhere on their own property, including land within city limits.
