

HB 2319 -- ADOPTION RECORDS

SPONSOR: Phillips

This bill states that, in regards to the files and records of the court in an adoption proceeding, all papers, records, and information known to or in possession of an adoptive parent or adoptive child that pertains to adoption may be voluntarily disclosed by the adoptive parents or adoptive child so long as no information is disclosed pertaining to the child's biological family. Any person who is not the adoptive parent or adoptive child who permits an inspection or copy of such records without an order of the court is guilty of a class C misdemeanor.
