

HB 2352 -- COUNTY REVENUE DEDICATED TO ROADS AND BRIDGES

SPONSOR: Fraker

Currently, county bond funds and county special road and bridge funds for road, street, and bridge construction, maintenance, improvement, and repair can be used for those purposes in municipalities within the county if the road, street, or bridge is part of a continuous road, street, or bridge leading into or through the municipality. This bill removes the restriction that the road, street, or bridge must be part of a continuous road, street, or bridge leading into or through the municipality.
