HOUSE COMMITTEE SUBSTITUTE

FOR

HOUSE BILL NO. 604

AN ACT

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF MISSOURI, AS FOLLOWS:

160.410. 1. A charter school shall enroll:
(1) All pupils resident in the district in which it operates;

(2) Nonresident pupils eligible to attend a district's school under an urban voluntary transfer program;

(3) Nonresident pupils who transfer from an unaccredited district under section 167.895, provided that the charter school is an approved charter school, as defined in section 167.895, and subject to all other provisions of section 167.895;

(4) In the case of a charter school whose mission includes student drop-out prevention or recovery, any nonresident pupil from the same or an adjacent county who resides in a residential care facility, a transitional living group home, or an independent living program whose last school of enrollment is in the school district where the charter school is established, who submits a timely application; and

(5) In the case of a workplace charter school, any student eligible to attend under subdivision (1) or (2) of this subsection whose parent is employed in the business district, who submits a timely application, unless the number of applications exceeds the capacity of a program, class, grade level or building. The configuration of a business district shall be set forth in the charter and shall not be construed to create an undue advantage for a single employer or small number of employers.

2. If capacity is insufficient to enroll all pupils who submit a timely application, the charter school shall have an admissions process that assures all applicants of an equal chance
of gaining admission and does not discriminate based on parents' ability to pay fees or tuition except that:

(1) A charter school may establish a geographical area around the school whose residents will receive a preference for enrolling in the school, provided that such preferences do not result in the establishment of racially or socioeconomically isolated schools and provided such preferences conform to policies and guidelines established by the state board of education;

(2) A charter school may also give a preference for admission of children whose siblings attend the school or whose parents are employed at the school or in the case of a workplace charter school, a child whose parent is employed in the business district or at the business site of such school; [and]

(3) Charter schools may also give a preference for admission to high-risk students, as defined in subdivision (5) of subsection 2 of section 160.405, when the school targets these students through its proposed mission, curriculum, teaching methods, and services;

(4) A charter school may also give a preference for admission to students who will be eligible for the free and reduced price lunch program in the upcoming school year.

3. A charter school shall not limit admission based on race, ethnicity, national origin, disability, income level, except as allowed under subdivision (4) of subsection 2 of this section, proficiency in the English language or athletic ability, but may limit admission to pupils within a given age group or grade level. Charter schools may limit admission based on gender
only when the school is a single-gender school. Students of a charter school who have been enrolled for a full academic year shall be counted in the performance of the charter school on the statewide assessments in that calendar year, unless otherwise exempted as English language learners. For purposes of this subsection, "full academic year" means the last Wednesday in September through the administration of the Missouri assessment program test without transferring out of the school and re-enrolling.

4. A charter school shall make available for public inspection, and provide upon request, to the parent, guardian, or other custodian of any school-age pupil resident in the district in which the school is located the following information:
   (1) The school's charter;
   (2) The school's most recent annual report card published according to section 160.522;
   (3) The results of background checks on the charter school's board members; and
   (4) If a charter school is operated by a management company, a copy of the written contract between the governing board of the charter school and the educational management organization or the charter management organization for services. The charter school may charge reasonable fees, not to exceed the rate specified in section 610.026 for furnishing copies of documents under this subsection.

5. When a student attending a charter school who is a resident of the school district in which the charter school is located moves out of the boundaries of such school district, the
student may complete the current semester and shall be considered a resident student. The student's parent or legal guardian shall be responsible for the student's transportation to and from the charter school.

6. If a change in school district boundary lines occurs under section 162.223, 162.431, 162.441, or 162.451, or by action of the state board of education under section 162.081, including attachment of a school district's territory to another district or dissolution, such that a student attending a charter school prior to such change no longer resides in a school district in which the charter school is located, then the student may complete the current academic year at the charter school. The student shall be considered a resident student. The student's parent or legal guardian shall be responsible for the student's transportation to and from the charter school.

7. The provisions of sections 167.018 and 167.019 concerning foster children's educational rights are applicable to charter schools.

160.415. 1. For the purposes of calculation and distribution of state school aid under section 163.031, pupils enrolled in a charter school shall be included in the pupil enrollment of the school district within which each pupil resides. Each charter school shall report the names, addresses, and eligibility for free and reduced price lunch, special education, or limited English proficiency status, as well as eligibility for categorical aid, of pupils resident in a school district who are enrolled in the charter school to the school district in which those pupils reside. The charter school shall
report the average daily attendance data, free and reduced price lunch count, special education pupil count, and limited English proficiency pupil count to the state department of elementary and secondary education. Each charter school shall promptly notify the state department of elementary and secondary education and the pupil's school district when a student discontinues enrollment at a charter school.

2. Except as provided in subsections 3 and 4 of this section, the aid payments for charter schools shall be as described in this subsection.

(1) A school district having one or more resident pupils attending a charter school shall pay to the charter school an annual amount equal to the product of the charter school's weighted average daily attendance and the state adequacy target, multiplied by the dollar value modifier for the district, plus local tax revenues per weighted average daily attendance from the incidental and teachers' funds in excess of the performance levy as defined in section 163.011 plus all other state aid attributable to such pupils.

(2) The district of residence of a pupil attending a charter school shall also pay to the charter school any other federal or state aid that the district receives on account of such child.

(3) If the department overpays or underpays the amount due to the charter school, such overpayment or underpayment shall be repaid by the public charter school or credited to the public charter school in twelve equal payments in the next fiscal year.

(4) The amounts provided pursuant to this subsection shall
be prorated for partial year enrollment for a pupil.

(5) A school district shall pay the amounts due pursuant to this subsection as the disbursal agent and no later than twenty days following the receipt of any such funds. The department of elementary and secondary education shall pay the amounts due when it acts as the disbursal agent within five days of the required due date.

3. A workplace charter school shall receive payment for each eligible pupil as provided under subsection 2 of this section, except that if the student is not a resident of the district and is participating in a voluntary interdistrict transfer program, the payment for such pupils shall be the same as provided under section 162.1060.

4. A charter school that has declared itself as a local educational agency shall receive from the department of elementary and secondary education an annual amount equal to the product of the charter school's weighted average daily attendance and the state adequacy target, multiplied by the dollar value modifier for the district, plus local tax revenues per weighted average daily attendance from the incidental and teachers funds in excess of the performance levy as defined in section 163.011 plus all other state aid attributable to such pupils. If a charter school declares itself as a local educational agency, the department of elementary and secondary education shall, upon notice of the declaration, reduce the payment made to the school district by the amount specified in this subsection and pay directly to the charter school the annual amount reduced from the school district's payment.
5. If a school district fails to make timely payments of any amount for which it is the disbursal agent, the state department of elementary and secondary education shall authorize payment to the charter school of the amount due pursuant to subsection 2 of this section and shall deduct the same amount from the next state school aid apportionment to the owing school district. If a charter school is paid more or less than the amounts due pursuant to this section, the amount of overpayment or underpayment shall be adjusted equally in the next twelve payments by the school district or the department of elementary and secondary education, as appropriate. Any dispute between the school district and a charter school as to the amount owing to the charter school shall be resolved by the department of elementary and secondary education, and the department's decision shall be the final administrative action for the purposes of review pursuant to chapter 536. During the period of dispute, the department of elementary and secondary education shall make every administrative and statutory effort to allow the continued education of children in their current public charter school setting.

6. The charter school and a local school board may agree by contract for services to be provided by the school district to the charter school. The charter school may contract with any other entity for services. Such services may include but are not limited to food service, custodial service, maintenance, management assistance, curriculum assistance, media services and libraries and shall be subject to negotiation between the charter school and the local school board or other entity. Documented
actual costs of such services shall be paid for by the charter school.

7. In the case of a proposed charter school that intends to contract with an education service provider for substantial educational services or management services, the request for proposals shall additionally require the charter school applicant to:

   (1) Provide evidence of the education service provider's success in serving student populations similar to the targeted population, including demonstrated academic achievement as well as successful management of nonacademic school functions, if applicable;

   (2) Provide a term sheet setting forth the proposed duration of the service contract; roles and responsibilities of the governing board, the school staff, and the service provider; scope of services and resources to be provided by the service provider; performance evaluation measures and time lines; compensation structure, including clear identification of all fees to be paid to the service provider; methods of contract oversight and enforcement; investment disclosure; and conditions for renewal and termination of the contract;

   (3) Disclose any known conflicts of interest between the school governing board and proposed service provider or any affiliated business entities;

   (4) Disclose and explain any termination or nonrenewal of contracts for equivalent services for any other charter school in the United States within the past five years;

   (5) Ensure that the legal counsel for the charter school
shall report directly to the charter school's governing board; and

(6) Provide a process to ensure that the expenditures that the education service provider intends to bill to the charter school shall receive prior approval of the governing board or its designee.

8. A charter school may enter into contracts with community partnerships and state agencies acting in collaboration with such partnerships that provide services to children and their families linked to the school.

9. A charter school shall be eligible for transportation state aid pursuant to section 163.161 and shall be free to contract with the local district, or any other entity, for the provision of transportation to the students of the charter school.

10. (1) The proportionate share of state and federal resources generated by students with disabilities or staff serving them shall be paid in full to charter schools enrolling those students by their school district where such enrollment is through a contract for services described in this section. The proportionate share of money generated under other federal or state categorical aid programs shall be directed to charter schools serving such students eligible for that aid.

(2) A charter school shall provide the special services provided pursuant to section 162.705 and may provide the special services pursuant to a contract with a school district or any provider of such services.

11. A charter school may not charge tuition or impose fees
that a school district is prohibited from charging or imposing,
except that a charter school may receive tuition payments from
districts in the same or an adjoining county for nonresident
students who transfer to an approved charter school, as defined
in section [167.131] 167.895, from an unaccredited district.

12. A charter school is authorized to incur debt in
anticipation of receipt of funds. A charter school may also
borrow to finance facilities and other capital items. A school
district may incur bonded indebtedness or take other measures to
provide for physical facilities and other capital items for
charter schools that it sponsors or contracts with. Except as
otherwise specifically provided in sections 160.400 to 160.425,
upon the dissolution of a charter school, any liabilities of the
corporation will be satisfied through the procedures of chapter
355. A charter school shall satisfy all its financial
obligations within twelve months of notice from the sponsor of
the charter school's closure under subsection 8 of section
160.405. After satisfaction of all its financial obligations, a
charter school shall return any remaining state and federal funds
to the department of elementary and secondary education for
disposition as stated in subdivision (17) of subsection 1 of
section 160.405. The department of elementary and secondary
education may withhold funding at a level the department
determines to be adequate during a school's last year of
operation until the department determines that school records,
liabilities, and reporting requirements, including a full audit,
are satisfied.

13. Charter schools shall not have the power to acquire
property by eminent domain.

14. The governing body of a charter school is authorized to accept grants, gifts or donations of any kind and to expend or use such grants, gifts or donations. A grant, gift or donation may not be accepted by the governing body if it is subject to any condition contrary to law applicable to the charter school or other public schools, or contrary to the terms of the charter.

160.545. 1. There is hereby established within the department of elementary and secondary education the "A+ Schools Program" to be administered by the commissioner of education. The program shall consist of grant awards made to public secondary schools that demonstrate a commitment to ensure that:

   (1) All students be graduated from school;
   (2) All students complete a selection of high school studies that is challenging and for which there are identified learning expectations; and
   (3) All students:

       (a) Earn credits toward any type of college degree while in high school; or
       (b) Proceed from high school graduation to a college or postsecondary vocational or technical school or high-wage job with workplace skill development opportunities.

2. The state board of education shall promulgate rules and regulations for the approval of grants made under the program to schools that:

   (1) Establish measurable districtwide performance standards for the goals of the program outlined in subsection 1 of this section; and
(2) Specify the knowledge, skills and competencies, in measurable terms, that students must demonstrate to successfully complete any individual course offered by the school, and any course of studies which will qualify a student for graduation from the school; and

(3) Do not offer a general track of courses that, upon completion, can lead to a high school diploma; and

(4) Require rigorous coursework with standards of competency in basic academic subjects for students pursuing vocational and technical education as prescribed by rule and regulation of the state board of education; and

(5) Have a partnership plan developed in cooperation and with the advice of local business persons, labor leaders, parents, and representatives of college and postsecondary vocational and technical school representatives, with the plan then approved by the local board of education. The plan shall specify a mechanism to receive information on an annual basis from those who developed the plan in addition to senior citizens, community leaders, and teachers to update the plan in order to best meet the goals of the program as provided in subsection 1 of this section. Further, the plan shall detail the procedures used in the school to identify students that may drop out of school and the intervention services to be used to meet the needs of such students. The plan shall outline counseling and mentoring services provided to students who will enter the work force upon graduation from high school, address apprenticeship and intern programs, and shall contain procedures for the recruitment of volunteers from the community of the school to serve in schools.
3. Any nonpublic school in this state may apply to the state board of education for certification that it meets the requirements of this section subject to the same criteria as public high schools. Every nonpublic school that applies and has met the requirements of this section shall have its students eligible for reimbursement of postsecondary education under subsection 8 of this section on an equal basis to students who graduate from public schools that meet the requirements of this section. Any nonpublic school that applies shall not be eligible for any grants under this section. Students of certified nonpublic schools shall be eligible for reimbursement of postsecondary education under subsection 8 of this section so long as they meet the other requirements of such subsection. For purposes of subdivision (5) of subsection 2 of this section, the nonpublic school shall be included in the partnership plan developed by the public school district in which the nonpublic school is located. For purposes of subdivision (1) of subsection 2 of this section, the nonpublic school shall establish measurable performance standards for the goals of the program for every school and grade level over which the nonpublic school maintains control.

4. A school district may participate in the program irrespective of its accreditation classification by the state board of education, provided it meets all other requirements.

5. By rule and regulation, the state board of education may determine a local school district variable fund match requirement in order for a school or schools in the district to receive a
grant under the program. However, no school in any district shall receive a grant under the program unless the district designates a salaried employee to serve as the program coordinator, with the district assuming a minimum of one-half the cost of the salary and other benefits provided to the coordinator. Further, no school in any district shall receive a grant under the program unless the district makes available facilities and services for adult literacy training as specified by rule of the state board of education.

6. For any school that meets the requirements for the approval of the grants authorized by this section and specified in subsection 2 of this section for three successive school years, by August first following the third such school year, the commissioner of education shall present a plan to the superintendent of the school district in which such school is located for the waiver of rules and regulations to promote flexibility in the operations of the school and to enhance and encourage efficiency in the delivery of instructional services in the school. The provisions of other law to the contrary notwithstanding, the plan presented to the superintendent shall provide a summary waiver, with no conditions, for the pupil testing requirements pursuant to section 160.257 in the school. Further, the provisions of other law to the contrary notwithstanding, the plan shall detail a means for the waiver of requirements otherwise imposed on the school related to the authority of the state board of education to classify school districts pursuant to subdivision (9) of section 161.092 and such other rules and regulations as determined by the commissioner of
education, except such waivers shall be confined to the school and not other schools in the school district unless such other schools meet the requirements of this subsection. However, any waiver provided to any school as outlined in this subsection shall be void on June thirtieth of any school year in which the school fails to meet the requirements for the approval of the grants authorized by this section as specified in subsection 2 of this section.

7. For any school year, grants authorized by subsections 1, 2, and 5 of this section shall be funded with the amount appropriated for this program, less those funds necessary to reimburse eligible students pursuant to subsection 8 or 9 of this section.

8. The department of higher education shall, by rule, establish a procedure for the reimbursement of the cost of tuition, books and fees to any public community college or vocational or technical school or within the limits established in subsection [10]11 of this section for any two-year private vocational or technical school for any student:

(1) Who has attended a high school in the state for at least [three] two years [prior to graduation] that meets the requirements of subsection 2 of this section and who has graduated from such a school; except that, students who are active duty military dependents, and students who are [dependants] dependents of retired military who relocate to Missouri within one year of the date of the parent's retirement from active duty[,] who[,, in the school year immediately preceding graduation,] meet all other requirements of this
subsection and are attending a school that meets the requirements of subsection 2 of this section shall be exempt from the [three-year] two-year attendance requirement of this subdivision; and

(2) Who has made a good faith effort to first secure all available federal sources of funding that could be applied to the reimbursement described in this subsection; and

(3) Who has earned a minimal grade average while in high school or through the semester immediately before taking the course for which reimbursement is sought as determined by rule of the department of higher education, and other requirements for the reimbursement authorized by this subsection as determined by rule and regulation of the department; and

(4) Who is a citizen or permanent resident of the United States.

9. The department of higher education shall, by rule, establish a procedure for the reimbursement of the cost of tuition, and fees for any dual-credit or dual-enrollment course offered to a student in high school in association with an institution of higher education or vocational or technical school, subject to the requirements of subsection 11 of this section, for any student who meets the requirements established in subsection 8 of this section immediately before taking the course for which reimbursement is sought.

10. The commissioner of education shall develop a procedure for evaluating the effectiveness of the program described in this section. Such evaluation shall be conducted annually with the results of the evaluation provided to the governor, speaker of
the house, and president pro tempore of the senate.

[10.] 11. For a two-year private vocational or technical school to obtain reimbursements under subsection 8 or 9 of this section, the following requirements shall be satisfied:

(1) Such two-year private vocational or technical school shall be a member of the North Central Association and be accredited by the Higher Learning Commission as of July 1, 2008, and maintain such accreditation;

(2) Such two-year private vocational or technical school shall be designated as a 501(c)(3) nonprofit organization under the Internal Revenue Code of 1986, as amended;

(3) No two-year private vocational or technical school shall receive tuition reimbursements in excess of the tuition rate charged by a public community college for course work offered by the private vocational or technical school within the service area of such college; and

(4) The reimbursements provided to any two-year private vocational or technical school shall not violate the provisions of Article IX, Section 8, or Article I, Section 7, of the Missouri Constitution or the first amendment of the United States Constitution.

12. The department of higher education shall distribute reimbursements in the following manner:

(1) To community college or vocational or technical school students;

(2) After all students from subdivision (1) of this subsection have been reimbursed, to any dual-credit or dual-enrollment student on the basis of financial need.
160.2500. 1. This section shall be known and may be cited as the "Missouri Student Religious Liberties Act".

2. A public school district shall not discriminate against [students or parents] any person on the basis of a religious viewpoint or religious expression. A school district shall treat a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject in the same manner the district treats a student's voluntary expression of a secular or other viewpoint on an otherwise permissible subject and shall not discriminate against the student based on a religious viewpoint expressed by the student on an otherwise permissible subject.

3. Students may express their beliefs about religion in homework, artwork, and other written and oral assignments free from discrimination based on the religious content of their submissions. Homework and classroom assignments shall be judged by ordinary academic standards of substance and relevance and against other legitimate pedagogical concerns identified by the school district. Students shall not be penalized or rewarded on account of the religious content of their work. If an assignment requires a student's viewpoints to be expressed in course work, artwork or other written or oral assignments, a public school district shall not penalize or reward a student on the basis of religious content or a religious viewpoint. In such an assignment, a student's academic work that expresses a religious viewpoint shall be evaluated based on ordinary academic standards of substance and relevance to the course curriculum or requirements of the course work or assignment.

4. Students in public schools may pray or engage in
religious activities or religious expression before, during and after the school day in the same manner and to the same extent that students may engage in nonreligious activities or expression, provided that such religious expression or religious activities are not disruptive of scheduled instructional time or other educational activities and do not impede access to school facilities or mobility on school premises. Students may organize prayer groups, religious clubs, or other religious gatherings before, during and after school to the same extent that students are permitted to organize other noncurricular student activities and groups. Religious groups shall be given the same access to school facilities for assembling as is given to other noncurricular groups without discrimination based on the religious content of the student's expression. If student groups that meet for nonreligious activities are permitted to advertise or announce meetings of the groups, the school district shall not discriminate against groups that meet for prayer or other religious speech. A school district may disclaim school sponsorship of noncurricular groups and events in a manner that neither favors nor disfavors groups that meet to engage in prayer or religious speech.

5. Students in public schools may wear clothing, accessories and jewelry that display religious messages or religious symbols in the same manner and to the same extent that other types of clothing, accessories and jewelry that display messages or symbols are permitted, as specified in subsection 7 of section 167.166.

6. (1) To ensure that the school district does not
discriminate against a student's publicly stated voluntary
expression of a religious viewpoint, if any, and to eliminate any
actual or perceived affirmative school sponsorship or attribution
to the district of a student's expression of a religious
viewpoint, if any, a school district shall adopt a policy, which
shall include the establishment of a limited public forum for
student speakers at all school events at which a student is to
publicly speak. The policy regarding the limited public forum
shall also require the school district to:

(a) Provide the forum in a manner that does not
discriminate against a student's voluntary expression of a
religious viewpoint, if any, on an otherwise permissible subject;

(b) Provide a method, based on neutral criteria, for the
selection of student speakers at school events and graduation
ceremonies;

(c) Ensure that a student speaker does not engage in
obscene, vulgar, offensively lewd or indecent speech; and

(d) State, in writing, orally, or both, that the student's
speech does not reflect the endorsement, sponsorship, position or
expression of the district.

(2) The school district disclaimer required by paragraph
(d) of subdivision (1) of this subsection shall be provided at
all graduation ceremonies. The school district shall also
continue to provide the disclaimer at any other event in which a
student speaks publicly for as long as a need exists to dispel
confusion over the district's nonsponsorship of the student's
speech.

(3) Student expression on an otherwise permissible subject
shall not be excluded from the limited public forum because the subject is expressed from a religious viewpoint.

(4) All public school districts shall adopt and implement a local policy regarding a limited public forum and voluntary student expression of religious viewpoints.

7. The provisions of this section shall not be construed to authorize this state or any of its political subdivisions to either:

(1) Require any person to participate in prayer or in any other religious activity; or

(2) Violate the constitutional rights of any person.

8. The provisions of this section shall not be construed to limit the authority of any public school to do any of the following:

(1) Maintain order and discipline on the campus of the public school in a content and viewpoint neutral manner;

(2) Protect the safety of students, employees and visitors of the public school;

(3) Adopt and enforce policies and procedures regarding student speech at school, provided that the policies and procedures do not violate the rights of students as guaranteed by law.

9. The provisions of section 1.140 are applicable to this section.

161.700. 1. This section shall be known as the "Holocaust Education and Awareness Commission Act".

2. There is hereby created a permanent state commission known as the "Holocaust Education and Awareness Commission". The
commission shall be housed in the department of elementary and secondary education and shall promote implementation of holocaust education and awareness programs in Missouri in order to encourage understanding of the holocaust and discourage bigotry.

3. The commission shall be composed of twelve members to be appointed by the governor with advice and consent of the senate. The makeup of the commission shall be:

(1) The commissioner of higher education;

(2) The commissioner of elementary and secondary education;

(3) The president of the University of Missouri system; and

(4) Nine members of the public, representative of the diverse religious and ethnic heritage groups populating Missouri.

4. The holocaust education and awareness commission may receive such funds as appropriated from public moneys or contributed to it by private sources. It may sponsor programs or publications to educate the public about the crimes of genocide in an effort to deter indifference to crimes against humanity and human suffering wherever they occur.

5. The term "holocaust" shall be defined as the period from 1933 through 1945 when six million Jews and millions of others were murdered in Nazi concentration camps by Nazi Germany and its collaborators as part of a structured, state-sanctioned program of genocide.

6. The commission may employ an executive director and such other persons to carry out its functions.

161.1080. Sections 161.1080 to 161.1130 shall be known and may be cited as the "School Turnaround Act".

161.1085. For purposes of sections 161.1080 to 161.1130,
the following terms mean:

(1) "Department", the department of elementary and secondary education;

(2) "Governing board", the board of education of a district or the governing board of a charter school that has declared itself a local educational agency;

(4) "Local educational agency", any school district and any charter school that has declared itself a local educational agency;

(5) "School", a public school under the control of a local educational agency;

(6) "School in need of intervention", a school that has been designated as in need of intervention by the department according to an outcome-based measure as determined by the department under section 161.1090, which may include, but shall not be required to include, schools identified for intervention under the state's Every Student Succeeds Act plan;

(7) "Statewide assessment", any test of student achievement in English language arts, mathematics, or science, including any such test administered in a computer-adaptive format, that is administered statewide under section 160.518.

161.1090. 1. Subject to appropriation, the department shall establish a school turnaround program to assist schools designated by the department as in need of intervention in accordance with the provisions of sections 161.1080 to 161.1130.
2. The department shall use an outcome-based measure to set criteria for the designation of schools in need of intervention.

3. No more than one month after statewide assessment results are made public, the department shall designate specific schools as in need of intervention. The department shall designate a school as in need of intervention only if sufficient funds are available in the school turnaround fund established in section 161.1105 to pay an independent school turnaround expert.

4. The department shall determine the specific criteria that a school shall be required to meet in order to exit the school turnaround program based on the same outcome-based measure that was used to designate the school as in need of intervention.

5. The department shall not designate any school as in need of intervention before September 1, 2020.

6. Nothing in this section shall prohibit the criteria established under this section from satisfying a school's requirement for intervention under the Every Student Succeeds Act.

161.1095. 1. Before October first of an initial remedial year, the governing board of any local educational agency with a school in need of intervention shall establish a school turnaround committee composed of the following members:

3. The governing board shall not select an independent school turnaround expert that is:

   (1) The local educational agency with the school in need of intervention; or

   (2) An employee of the local educational agency with the school in need of intervention.

4. A school turnaround committee shall partner with the independent school turnaround expert selected under subsection 2 of this section to develop and implement a school turnaround plan that includes:

   (1) The findings of the analysis conducted by the independent school turnaround expert on the data described in subdivision (1) of subsection 1 of section 161.1100;

The department may request the attendance of stakeholders and district officials to review the district's plan to return to accredited status, if any; offer technical assistance; and facilitate and coordinate community resources. distributed equitably on a weighted average daily attendance
basis, but to be divided for operational purposes, which shall
take effect sixty days after the adjournment of the regular
session of the general assembly next following the state board's
decision unless a statute or concurrent resolution is enacted to
nullify the state board's decision prior to such effective date.

school board under subdivision (1) of subsection 3 of this
section and either has been unaccredited for three consecutive

the state board of education may, prior to the start of the
school term:

(1) Allow continued governance by the existing district
school board under terms and conditions established by the state
board of education; or
(2) Lapse the corporate organization of the district and implement one of the options available under subdivision (2) of subsection 3 of this section.

(3) The department of elementary and secondary education shall make an addition in the payment amount specified in subsection 1 of this section to assure compliance with the provisions contained in this subsection.

3. School districts that meet the requirements of section 163.021 shall receive categorical add-on revenue as provided in this subsection. The categorical add-on for the district shall be the sum of: seventy-five percent of the district allowable transportation costs under section 163.161; the career ladder entitlement for the district, as provided for in sections 168.500 to 168.515; the vocational education entitlement for the district, as provided for in section 167.332; and the district educational and screening program entitlements as provided for in sections 178.691 to 178.699. The categorical add-on revenue amounts may be adjusted to accommodate available appropriations.

4. For any school district meeting the eligibility criteria for state aid as established in section 163.021, but which is considered an option district under section 163.042 and therefore receives no state aid, the commissioner of education shall present a plan to the superintendent of the school district for the waiver of rules and the duration of said waivers, in order to promote flexibility in the operations of the district and to enhance and encourage efficiency in the delivery of instructional services as provided in section 163.042.

5. (1) No less than seventy-five percent of the state
revenue received under the provisions of subsections 1 and 2 of this section shall be placed in the teachers' fund, and the remaining percent of such moneys shall be placed in the incidental fund. No less than seventy-five percent of one-half of the funds received from the school district trust fund distributed under section 163.087 shall be placed in the teachers' fund. One hundred percent of revenue received under the provisions of section 163.161 shall be placed in the incidental fund. One hundred percent of revenue received under the provisions of sections 168.500 to 168.515 shall be placed in the teachers' fund.

(2) A school district shall spend for certificated compensation and tuition expenditures each year:

(a) An amount equal to at least seventy-five percent of the state revenue received under the provisions of subsections 1 and 2 of this section;

(b) An amount equal to at least seventy-five percent of one-half of the funds received from the school district trust fund distributed under section 163.087 during the preceding school year; and

(c) Beginning in fiscal year 2008, as much as was spent per the second preceding year's weighted average daily attendance for certificated compensation and tuition expenditures the previous year from revenue produced by local and county tax sources in the teachers' fund, plus the amount of the incidental fund to teachers' fund transfer calculated to be local and county tax sources by dividing local and county tax sources in the incidental fund by total revenue in the incidental fund.
In the event a district fails to comply with this provision, the amount by which the district fails to spend funds as provided herein shall be deducted from the district's state revenue received under the provisions of subsections 1 and 2 of this section for the following year, provided that the state board of education may exempt a school district from this provision if the state board of education determines that circumstances warrant such exemption.

6. (1) If a school district's annual audit discloses that students were inappropriately identified as eligible for free and reduced price lunch, special education, or limited English proficiency and the district does not resolve the audit finding, the department of elementary and secondary education shall require that the amount of aid paid pursuant to the weighting for free and reduced price lunch, special education, or limited English proficiency in the weighted average daily attendance on the inappropriately identified pupils be repaid by the district in the next school year and shall additionally impose a penalty of one hundred percent of such aid paid on such pupils, which penalty shall also be paid within the next school year. Such amounts may be repaid by the district through the withholding of the amount of state aid.

(2) In the 2017-18 school year and in each subsequent school year, if a district experiences a decrease in its gifted program enrollment of twenty percent or more from the previous school year, an amount equal to the product of the difference between the number of students enrolled in the gifted program in the current school year and the number of students enrolled in
the gifted program in the previous school year multiplied by six hundred eighty dollars shall be subtracted from the district's current year payment amount. The provisions of this subdivision shall apply to districts entitled to receive state aid payments under both subsections 1 and 2 of this section but shall not apply to any school district with an average daily attendance of three hundred fifty or less.

7. Notwithstanding any provision of law to the contrary, in any fiscal year during which the total formula appropriation is insufficient to fully fund the entitlement calculation of this section, the department of elementary and secondary education shall adjust the state adequacy target in order to accommodate the appropriation level for the given fiscal year. In no manner shall any payment modification be rendered for any district qualified to receive payments under subsection 2 of this section based on insufficient appropriations.

8. Notwithstanding any provision of law to the contrary, school districts that receive revenue from the tax authorized under sections 148.030, 148.140, 148.620, and 148.720 shall, beginning January 1, 2020, and every January first thereafter, report the amount of said revenue received by the district to the department. The department shall, based on the data submitted by the district, determine the total amount of revenue the district would have received from the tax authorized under sections 148.030, 148.140, 148.620, and 148.720 absent the provisions of section 148.720, and remit the following amount to each applicable district not less than thirty days after the conclusion of each calendar year. The amount remitted to each
district shall be the total of the revenue received by the
district from the tax authorized under sections 148.030, 148.140,
148.620, and 148.720 during the applicable calendar year times
one and five thousand six hundred and twenty-five ten thousandths
minus the total of the revenue received by the district from the
tax authorized under sections 148.030, 148.140, 148.620, and
148.720 during the same calendar year. This payment shall be in
addition to payments authorized under subsections 1, 2, and 7 of
this section and shall be made from the annual appropriation to
fund this section.

167.125. 1. (1) For the purposes of this section, the
term "attendance center" shall mean a public school building or
buildings or part of a school building that constitutes one unit
for accountability purposes under the Missouri school improvement
program.

(2) For any pupil residing in any unincorporated area
located in any county of the first classification with more than

area of a county of the third classification without a township
form of government and with more than nine thousand but fewer
than ten thousand inhabitants and with a city of the fourth
classification with more than five hundred fifty but fewer than
six hundred fifty inhabitants as the county seat, the
commissioner of education or his or her designee shall, upon
proper application by the parent or guardian of the pupil, assign
the pupil and any sibling of the pupil to another school district
if the pupil is eligible as described under subsection 2 of this
section and the following conditions are met:

(a) The actual driving distance from the pupil's residence
to the attendance center in the district of residence is fifteen
miles or more by the shortest route available as determined by
the commissioner or his or her designee;

(b) The attendance center to which the pupil would be
assigned in the receiving district is at least five miles closer
in actual driving distance by the shortest route available to the
pupil's residence than the current attendance center in the
district of residence as determined by the commissioner or his or
her designee; and

(c) The attendance of the pupil will not cause the
classroom in the receiving district to exceed the maximum number
of pupils per class as determined by the receiving district.

2. (1) For pupils applying to the commissioner of
education under this section, the commissioner, or his or her
designee, shall assign pupils in the order in which applications
are received, provided the applications are properly completed and the conditions of subsection 1 of this section are met.

(2) Once granted, the hardship assignment shall continue until the pupil, and any sibling of the pupil who attends the same attendance center, completes his or her course of study in the receiving district or the parent or guardian withdraws the pupil. If a parent or guardian withdraws a pupil from a hardship assignment, the granting of a subsequent application is discretionary.

(3) A pupil shall be eligible to apply to the commissioner of education to be assigned to another district under this section if the pupil has been enrolled in and attending a public school in his or her district of residence during the school year prior to the application. Any pupil shall be eligible to apply to the commissioner of education to be assigned to another district under this section if the pupil has been enrolled in and attending a public school in a district other than his or her district of residence and paid nonresident tuition for such enrollment during the school year prior to the application, or, in the case where a pupil is applying under subdivision (2) of subsection 1 of this section, if the pupil has applied for enrollment in a public school in a district other than his or her district of residence but whose application was denied. Pupils who reside in the district who become eligible for kindergarten or first grade shall also be eligible to apply to the commissioner of education to be assigned to another district.

(4) A pupil who is not currently enrolled in a public school district shall become eligible to apply to the
commissioner of education to be assigned to another district
after the pupil has enrolled in and completed a full school year
in a public school in his or her district of residence.

3. The board of education of the district in which the
pupil resides shall pay the tuition of the pupil assigned. The
tuition amount shall not exceed the pro rata cost of instruction.
However, if the tuition of the receiving district is greater than
the tuition of the pupil's district of residence, the pupil's
parent or guardian shall pay the difference in tuition.

4. A receiving district shall not be required to alter its
transportation route to accommodate pupils that are assigned to
the receiving district under the provisions of this section.

167.131. 1. The board of education of each district in
this state that does not maintain [an accredited] a high school
[pursuant to the authority of the state board of education to
classify schools as established in section 161.092] offering work
through the twelfth grade shall pay [the] tuition [of] as
calculated by the receiving district under subsection 2 of this
section and provide transportation consistent with the provisions
of section 167.241 for each pupil resident therein who has
completed the work of the highest grade offered in the schools of
the district and who attends an accredited public high school in
another district of the same or an adjoining county [or who
attends an approved charter school in the same or an adjoining
county].

2. The rate of tuition to be charged by the district
attended and paid by the sending district is the per pupil cost
of maintaining the district's grade level grouping which includes
the school attended. [The rate of tuition to be charged by the approved charter school attended and paid by the sending district is the per pupil cost of maintaining the approved charter school's grade level grouping. For a district,] The cost of maintaining a grade level grouping shall be determined by the board of education of the district but in no case shall it exceed all amounts spent for teachers' wages, incidental purposes, debt service, maintenance and replacements. [For an approved charter school, the cost of maintaining a grade level grouping shall be determined by the approved charter school but in no case shall it exceed all amounts spent by the district in which the approved charter school is located for teachers' wages, incidental purposes, debt service, maintenance, and replacements.] The term "debt service", as used in this section, means expenditures for the retirement of bonded indebtedness and expenditures for interest on bonded indebtedness. Per pupil cost of the grade level grouping shall be determined by dividing the cost of maintaining the grade level grouping by the average daily pupil attendance. If there is disagreement as to the amount of tuition to be paid, the facts shall be submitted to the state board of education, and its decision in the matter shall be final.

Subject to the limitations of this section, each pupil shall be free to attend the public school of his or her choice.

[3. For purposes of this section, "approved charter school" means a charter school that has existed for less than three years or a charter school with a three-year average score of seventy percent or higher on its annual performance report.]

167.132. 1. For purposes of this section, the following
terms mean:

(1) "Receiving approved charter school", an approved charter school, as defined under section 167.895, receiving transfer students under section 167.895;

(2) "Receiving district", a school district receiving transfer students under section 167.895;

(3) "Sending district", a school district from which students are transferring to a receiving district or approved charter school, as allowed under section 167.895;

(4) "State adequacy target", the same meaning given to the term under section 163.011.

2. Notwithstanding any other provision of law, the tuition rate paid by a sending district to the receiving district or the receiving approved charter school for transfer students shall be the lesser of:

(1) The tuition rate set by the receiving district or the receiving approved charter school under the policy adopted in accordance with section 167.895; or

(2) The state adequacy target plus the average sum produced per child by the local tax effort above the state adequacy target of the sending district.

167.151. 1. The school board of any district, in its discretion, may admit to the school pupils not entitled to free instruction and prescribe the tuition fee to be paid by them, except as provided in sections 167.121 [and] 167.131, 167.132, and 167.895.

2. Orphan children, children with only one parent living, and children whose parents do not contribute to their support—if
the children are between the ages of six and twenty years and are unable to pay tuition—may attend the schools of any district in the state in which they have a permanent or temporary home without paying a tuition fee.

3. Any person who pays a school tax in any other district than that in which he resides may send his children to any public school in the district in which the tax is paid and receive as a credit on the amount charged for tuition the amount of the school tax paid to the district; except that any person who owns real estate of which eighty acres or more are used for agricultural purposes and upon which his residence is situated may send his children to public school in any school district in which a part of such real estate, contiguous to that upon which his residence is situated, lies and shall not be charged tuition therefor; so long as thirty-five percent of the real estate is located in the school district of choice. The school district of choice shall count the children in its average daily attendance for the purpose of distribution of state aid through the foundation formula.

4. Any owner of agricultural land who, pursuant to subsection 3 of this section, has the option of sending his children to the public schools of more than one district shall exercise such option as provided in this subsection. Such person shall send written notice to all school districts involved specifying to which school district his children will attend by June thirtieth in which such a school year begins. If notification is not received, such children shall attend the school in which the majority of his property lies. Such person
shall not send any of his children to the public schools of any
district other than the one to which he has sent notice pursuant
to this subsection in that school year or in which the majority
of his property lies without paying tuition to such school
district.

5. If a pupil is attending school in a district other than
the district of residence and the pupil's parent is teaching in
the school district or is a regular employee of the school
district which the pupil is attending, then the district in which
the pupil attends school shall allow the pupil to attend school
upon payment of tuition in the same manner in which the district
allows other pupils not entitled to free instruction to attend
school in the district. The provisions of this subsection shall
apply only to pupils attending school in a district which has an
enrollment in excess of thirteen thousand pupils and not in
excess of fifteen thousand pupils and which district is located
in a county of the first classification with a charter form of
government which has a population in excess of six hundred
thousand persons and not in excess of nine hundred thousand
persons.

167.241. 1. Except as otherwise provided under this
section, transportation for pupils whose tuition the district of
residence is required to pay by section 167.131 or who are
assigned as provided in section 167.121 shall be provided by the
district of residence[; however,].

2. In the case of pupils covered by section 167.131, the
district of residence shall be required to provide transportation
only to [approved charter schools as defined in section 167.131,]
school districts accredited by the state board of education pursuant to the authority of the state board of education to classify schools as established in section 161.092, and those school districts designated by the board of education of the district of residence.

3. (1) For purposes of this subsection, "approved charter school" has the same meaning given to the term under section 167.895.

(2) For pupils covered by section 167.895, the district of residence shall be required to provide transportation only to school districts or approved charter schools designated by the department of elementary and secondary education or its designee. For pupils covered by section 167.895, the department of elementary and secondary education or its designee shall designate at least one accredited district or approved charter school to which the district of residence shall provide transportation. If the designated district or charter school reaches full student capacity and is unable to receive additional students, the department of elementary and secondary education or its designee shall designate at least one additional accredited district or approved charter school to which the district of residence shall provide transportation.

167.890. 1. The department of elementary and secondary education shall compile and maintain student performance data scores of all students enrolled in districts other than their resident districts as provided under section 167.895 and make such data available on the Missouri comprehensive data system. No personally identifiable data shall be accessible on the
2. The department of elementary and secondary education may promulgate all necessary rules and regulations for the administration of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after the effective date of this section shall be invalid and void.

167.895. 1. For purposes of this section and section 167.898, the following terms mean:

transfer students under this section;

(5) "Sending district", a school district from which
students are transferring to a receiving district or approved
charter school, as allowed under this section.

2. (1) Any student may transfer to another public school
in the student's district of residence if such student is
enrolled in and has attended, for the full semester immediately
prior to requesting the transfer, an attendance center:

(a) That is located within an unaccredited district; and

(b) That has an annual performance report score consistent
with a classification of unaccredited.

However, no such transfer shall result in a class size and
assigned enrollment in a receiving school that exceeds the
standards for class size and assigned enrollment as promulgated
in the Missouri school improvement program's resource standards.
If the student chooses to attend a magnet school, an academically
selective school, or a school with a competitive entrance process
within his or her district of residence that has admissions
requirements, the student shall meet the admissions requirements
in order to attend.

(2) The school board of each unaccredited district shall
determine the capacity at each of the district's attendance
centers that has an annual performance report score consistent
with a classification of accredited. The district's school board
shall be responsible for coordinating transfers within the

3. (1) Any student who is eligible to transfer within his or her district under subsection 2 of this section but who is unable to do so due to a lack of capacity in the attendance centers in his or her district of residence may apply to the department of elementary and secondary education or its designee to transfer to:

(a) An attendance center:
   a. That is located within an accredited district that is located in the same or an adjoining county; and

(c) That offers classes above the second grade level
may apply to the department of elementary and secondary education or its designee for a transfer to a school described under paragraph (a) or (b) of subdivision (1) of this subsection if he or she resides in the attendance area of the attendance center described under this subdivision on March first preceding the school year of first attendance. A student who does not apply by March first for enrollment in any school year after the 2019-20 school year shall be required to enroll and attend the attendance center described under this subdivision for one semester to become eligible.

(3) If a student who is eligible to transfer under this subsection chooses to apply to attend a magnet school, an academically selective school, or a school with a competitive entrance process that has admissions requirements, the student shall furnish proof that he or she meets the admissions requirements.

(4) Any student who does not maintain residency in the attendance area of his or her attendance center in the district of residence shall lose eligibility to transfer.

(5) Except as provided under subsection 7 of this section, any student who transfers but later withdraws shall lose eligibility to transfer.

(6) The transfer provisions of this subsection shall not apply to a district created under sections 162.815 to 162.840 or to any early childhood programs or early childhood special education programs.

4. (1) No student enrolled in and attending an attendance center that does not offer classes above the second grade level...
shall be eligible to transfer under this section.

(2) No student who is eligible to begin kindergarten or first grade at an attendance center that does not offer classes above the second grade level shall be eligible to transfer under this section.

5. (1) (a) No provisionally accredited district shall be eligible to receive transfer students.

(b) Except as provided under paragraph (c) of this subdivision, no attendance center that has an annual performance report score consistent with a classification of provisionally accredited shall be eligible to receive transfer students.

(c) A transfer student who chooses to attend an attendance center that has an annual performance report score consistent with a classification of provisionally accredited and that is located within his or her unaccredited district of residence shall be allowed to transfer to such attendance center if there is an available slot.

(2) (a) No unaccredited district shall be eligible to receive transfer students.

(b) No attendance center that has an annual performance report score consistent with a classification of unaccredited shall be eligible to receive transfer students.

(3) No district or attendance center that has received two consecutive annual performance reports consistent with a classification of provisionally accredited for the years immediately preceding the year in which it seeks to enroll transfer students shall be eligible to receive any transfer students, irrespective of its state board of education
classification designation; except that, any student who was
granted a transfer to such a district or attendance center prior
to the effective date of this section may remain enrolled in that
district or attendance center.

6. Notwithstanding the provisions of subsection 5 of this
section, a student may transfer to an attendance center:
    (1) That is located within an unaccredited or provisionally
    accredited district; and
    (2) That has an annual performance report score consistent
    with a classification of accredited

if the attendance center applies for and is granted a waiver by
the department of elementary and secondary education or its
designee to allow the attendance center to accept transfer
students.

7. If a receiving district becomes unaccredited or
provisionally accredited, or if an approved charter school loses
its status as an approved charter school, any students who
previously transferred to the district or charter school shall
receive the opportunity to remain enrolled in the district or
charter school or to transfer to another district or approved
charter school without losing their eligibility to transfer.

8. For a receiving district, no acceptance of a transfer
student shall require any of the following actions, unless the
board of education of the receiving district has approved the
action:
    (1) The hiring of additional classroom teachers;
    (2) The construction of additional classrooms; or
(3) A class size and assigned enrollment in a receiving school that exceeds the standards for class size and assigned enrollment as promulgated in the Missouri school improvement program's resource standards.

9. (1) By July 15, 2019, the board of education of each available receiving district and the governing board of each approved charter school eligible to receive transfer students under this section shall set the number of transfer students the district or charter school is able to receive for the 2019-20 school year.

(2) By February first annually, the board of education of each available receiving district and the governing board of each approved charter school eligible to receive transfer students under this section shall set the number of transfer students the district or charter school is able to receive for the following school year.

(3) An available receiving district or approved charter school eligible to receive transfer students under this section shall publish the number set under this subsection and shall not be required to accept any transfer students under this section that would cause it to exceed the published number.

10. (1) Each available receiving district shall adopt a policy establishing a tuition rate for transfer students by February first annually.

(2) Each approved charter school eligible to receive transfer students under this section shall adopt a policy establishing a tuition rate for transfer students by February first annually.

A student whose transfer application has been denied by a receiving district shall have the right to appeal the decision of the receiving district to the department of elementary and secondary education. The appeal shall be taken within fifteen days after the decision of the department and may be taken by filing notice of appeal with the department. Such appeal shall be heard as provided in chapter 536.

12. If an unaccredited district becomes classified as provisionally accredited or accredited without provisions by the state board of education, or if an attendance center within an unaccredited district improves its annual performance report score from a score that is consistent with a classification of unaccredited to a score that is consistent with a classification of provisionally accredited or accredited, any resident student of the unaccredited district who has transferred to an approved charter school or to an accredited district in the same or an adjoining county, as allowed under subsection 3 of this section, shall be permitted to continue his or her educational program in the receiving district or charter school through the completion of middle school, junior high school, or high school, whichever occurs first; except that, a student who attends any school serving students through high school graduation but starting at grades lower than ninth grade shall be permitted to complete high school in the school to which he or she has transferred.

13. Notwithstanding the provisions of subsection 10 of this
section, if costs associated with the provision of special
education and related services to a student with a disability
exceed the tuition amount established under this section, the
unaccredited district shall remain responsible for paying the
excess cost to the receiving district. If the receiving district
is a component district of a special school district, the
unaccredited district, including any metropolitan school
district, shall contract with the special school district for the
entirety of the costs to provide special education and related
services, excluding transportation in accordance with this
section. The special school district may contract with an
unaccredited district, including any metropolitan district, for
the provision of transportation of a student with a disability or
the unaccredited district may provide transportation on its own.

14. A special school district shall continue to provide
special education and related services, with the exception of
transportation under this section, to a student with a disability
transferring from an attendance center with an annual performance
report score consistent with a classification of unaccredited
that is within a component district to an attendance center with
an annual performance report score consistent with a
classification of accredited that is within the same or a
different component district within the special school district.

15. If any metropolitan school district is classified as
unaccredited, it shall remain responsible for the provision of
special education and related services, including transportation,
to students with disabilities. A special school district in an
adjoining county to a metropolitan school district may contract
with the metropolitan school district for the reimbursement of
special education services under sections 162.705 and 162.710
provided by the special school district for transfer students who
are residents of the unaccredited district.

16. Regardless of whether transportation is identified as a
related service within a student's individualized education
program, a receiving district that is not part of a special
school district shall not be responsible for providing
transportation to a student transferring under this section. An
unaccredited district may contract with a receiving district that
is not part of a special school district under sections 162.705
and 162.710 for transportation of students with disabilities.

17. If a seven-director school district or urban school
district is classified as unaccredited, it may contract with a
receiving district that is not part of a special school district
in the same or an adjoining county for the reimbursement of
special education and related services under sections 162.705 and
162.710 provided by the receiving district for transfer students
who are residents of the unaccredited district.

167.898. 1. (1) By July 15, 2019, and by January first
annually, each accredited district, any portion of which is
located in the same county as or in an adjoining county to an
unaccredited district, shall report to the department of
elementary and secondary education or its designee the number of
available enrollment slots by grade level.

(2) By July 15, 2019, and by January first annually, each
unaccredited district shall report to the department of
elementary and secondary education or its designee the number of
available enrollment slots in the schools of its district that
have received annual performance report scores consistent with a
classification of accredited.

(3) By July 15, 2019, and by January first annually, each
approved charter school that is eligible to receive transfer
students under section 167.895 shall report to the department of
elementary and secondary education or its designee the number of
available enrollment slots.

2. The department of elementary and secondary education or
its designee shall make information and assistance available to
parents or guardians who intend to transfer their child to an
accredited district or to an approved charter school as described
under section 167.895.

3. The parent or guardian of a student who intends to
transfer his or her child to an accredited district or to an
approved charter school as described under section 167.895 for
enrollment in that district or charter school in any school year
after the 2019-20 school year shall send initial notification to
the department of elementary and secondary education or its
designee by March first for enrollment in the subsequent school
year.

4. The department of elementary and secondary education or
its designee shall assign those students who seek to transfer to
an accredited district or to an approved charter school as
described under section 167.895. When assigning transfer
students to approved charter schools, the department of
elementary and secondary education or its designee shall
coordinate with each approved charter school and its admissions
process if capacity is insufficient to enroll all students who submit a timely application. An approved charter school shall not be required to institute a lottery procedure for determining the admission of resident students. The department of elementary and secondary education or its designee shall give first priority to students who live in the same household with any family member within the first or second degree of consanguinity or affinity who already attends a school with an annual performance report score consistent with a classification of accredited and who apply to attend the same school. If insufficient grade-appropriate enrollment slots are available for a student to be able to transfer, the student shall receive first priority the following school year. The department of elementary and secondary education or its designee shall consider the following factors in assigning school districts and charter schools:

1. The student's or parent's choice of the receiving school district or charter school;
2. The best interests of the student;
3. The availability of transportation funding, as provided under section 167.241; and
4. Distance and travel time to a receiving school.

The department of elementary and secondary education or its designee shall not consider student academic performance, free and reduced price lunch status, or athletic ability in assigning a student to a school. The parent or guardian may make an application for a specific building assignment within the district or approved charter school. Final building assignment
shall be determined by the receiving school district or approved charter school.

5. (1) The department of elementary and secondary education or its designee may deny a transfer to a student who in the most recent school year has been suspended from school two or more times or who has been suspended for an act of school violence under subsection 2 of section 160.261. A student whose transfer is initially precluded under this subsection may be permitted to transfer on a provisional basis as a probationary transfer student, subject to no further disruptive behavior, upon a statement from the student's current school that the student is not disruptive. A student who is denied a transfer under this subsection has the right to an in-person meeting with an employee of the department of elementary and secondary education or its designee.

(2) The department of elementary and secondary education shall promulgate rules to provide common standards for determining disruptive behavior that shall include, but not be limited to, criteria under section 160.261. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any
rule proposed or adopted after the effective date of this section shall be invalid and void.

168.025. 1. For purposes of this section, "teacher externship" means an experience in which a teacher, supervised by his or her school or school district, gains practical experience at a business located in Missouri through observation and interaction with employers and employees.

2. The department of economic development and the department of elementary and secondary education shall develop and recommend:

(1) Requirements for teacher externships that can be considered the equivalent of the completion of credit hours in graduate-level courses for purposes of salary schedules; and

(2) An equivalency schedule that sets forth the number of credit hours in graduate-level courses that shall be considered equivalent to and awarded for each type of teacher externship. To classify teacher externships and determine the number of credit hours that would be appropriate for each type, the length of the teacher externship, the practical experience gained, or any other factor deemed relevant may be considered.

3. The department of economic development and the department of elementary and secondary education shall adopt and publish on their websites, before July 1, 2020, requirements for teacher externships that can be considered the equivalent of the completion of credit hours in graduate-level courses for purposes of salary schedules and an equivalency schedule as described in subsection 2 of this section. Any teacher externship that meets the published requirements shall be known as and considered a
4. If a school district or charter school uses a salary schedule in which a teacher receives a higher salary if he or she has earned credit hours in graduate-level courses, the school district or charter school shall consider any teacher who has completed a certified teacher externship to have completed credit hours in graduate-level courses on its salary schedule in the manner prescribed by the equivalency schedule developed under this section and compensate the teacher accordingly.

5. The department of elementary and secondary education and the department of economic development may promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2019, shall be invalid and void.

6. Under section 23.253 of the Missouri sunset act:

(1) The provisions of the new program authorized under this section shall automatically sunset five years after the effective date of this section unless reauthorized by an act of the general assembly;
(2) If such program is reauthorized, the program authorized under this section shall automatically sunset ten years after the effective date of the reauthorization of this section; and

(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset.

168.133. 1. As used in this section, "screened volunteer" shall mean any person who assists a school by providing uncompensated service and who may periodically be left alone with students. The school district shall ensure that a criminal background check is conducted for all screened volunteers, who shall complete the criminal background check prior to being left alone with a student. Screened volunteers include, but are not limited to, persons who regularly assist in the office or library, mentor or tutor students, coach or supervise a school-sponsored activity before or after school, or chaperone students on an overnight trip. Screened volunteers may only access student education records when necessary to assist the district and while supervised by staff members. Volunteers that are not screened shall not be left alone with a student or have access to student records.

2. The school district shall ensure that a criminal background check is conducted on any person employed after January 1, 2005, authorized to have contact with pupils and prior to the individual having contact with any pupil. Such persons include, but are not limited to, administrators, teachers, aides, paraprofessionals, assistants, secretaries, custodians, cooks, screened volunteers, and nurses. The school district shall also
ensure that a criminal background check is conducted for school
bus drivers. The district may allow such drivers to operate
buses pending the result of the criminal background check. For
bus drivers, the school district shall be responsible for
conducting the criminal background check on drivers employed by
the school district. For drivers employed by a pupil
transportation company under contract with the school district,
the criminal background check shall be conducted pursuant to
section 43.540 and conform to the requirements established in the
National Child Protection Act of 1993, as amended by the
Volunteers for Children Act. Personnel who have successfully
undergone a criminal background check and a check of the family
care safety registry as part of the professional license
application process under section 168.021 and who have received
clearance on the checks within one prior year of employment shall
be considered to have completed the background check requirement.
A criminal background check under this section shall include a
search of any information publicly available in an electronic
format through a public index or single case display.

[2.] 3. In order to facilitate the criminal history
background check, the applicant shall submit a set of
fingerprints collected pursuant to standards determined by the
Missouri highway patrol. The fingerprints shall be used by the
highway patrol to search the criminal history repository and
shall be forwarded to the Federal Bureau of Investigation for
searching the federal criminal history files.

[3.] 4. The applicant shall pay the fee for the state
criminal history record information pursuant to section 43.530
and sections 210.900 to 210.936 and pay the appropriate fee
determined by the Federal Bureau of Investigation for the federal
criminal history record when he or she applies for a position
authorized to have contact with pupils pursuant to this section.
The department shall distribute the fees collected for the state
and federal criminal histories to the Missouri highway patrol.

[4.] 5. The department of elementary and secondary
education shall facilitate an annual check of employed persons
holding current active certificates under section 168.021 against
criminal history records in the central repository under section
43.530, the sexual offender registry under sections 589.400 to
[589.475] 589.426, and child abuse central registry under
sections 210.109 to 210.183. The department of elementary and
secondary education shall facilitate procedures for school
districts to submit personnel information annually for persons
employed by the school districts who do not hold a current valid
certificate who are required by subsection 1 of this section to
undergo a criminal background check, sexual offender registry
check, and child abuse central registry check. The Missouri
state highway patrol shall provide ongoing electronic updates to
criminal history background checks of those persons previously
submitted, both those who have an active certificate and those
who do not have an active certificate, by the department of
elementary and secondary education. This shall fulfill the
annual check against the criminal history records in the central
repository under section 43.530.

[5.] 6. The school district may adopt a policy to provide
for reimbursement of expenses incurred by an employee for state
and federal criminal history information pursuant to section 43.530.

[6.] 7. If, as a result of the criminal history background check mandated by this section, it is determined that the holder of a certificate issued pursuant to section 168.021 has pled guilty or nolo contendere to, or been found guilty of a crime or offense listed in section 168.071, or a similar crime or offense committed in another state, the United States, or any other country, regardless of imposition of sentence, such information shall be reported to the department of elementary and secondary education.

[7.] 8. Any school official making a report to the department of elementary and secondary education in conformity with this section shall not be subject to civil liability for such action.

[8.] 9. For any teacher who is employed by a school district on a substitute or part-time basis within one year of such teacher's retirement from a Missouri school, the state of Missouri shall not require such teacher to be subject to any additional background checks prior to having contact with pupils. Nothing in this subsection shall be construed as prohibiting or otherwise restricting a school district from requiring additional background checks for such teachers employed by the school district.

[9.] 10. A criminal background check and fingerprint collection conducted under subsections 1 [and 2] to 3 of this section shall be valid for at least a period of one year and transferrable from one school district to another district. A
school district may, in its discretion, conduct a new criminal background check and fingerprint collection under subsections 1 [and 2] to 3 for a newly hired employee at the district's expense. A teacher's change in type of certification shall have no effect on the transferability or validity of such records.

[10.] 11. Nothing in this section shall be construed to alter the standards for suspension, denial, or revocation of a certificate issued pursuant to this chapter.

[11.] 12. The state board of education may promulgate rules for criminal history background checks made pursuant to this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after January 1, 2005, shall be invalid and void.

170.020. 1. (1) The department of elementary and secondary education, through its school counseling section, shall be authorized to establish a voluntary pilot program, beginning in the 2020-2021 school year, to provide for social and emotional health education in elementary schools in the state. The purpose of the pilot program shall be to determine whether and how to implement an elementary social and emotional health education
program statewide.

(2) The department, through its employees who work in the
school counseling section, is authorized to select from among
applications submitted by the public elementary schools a minimum
of sixteen public elementary schools for participation in the
pilot program. If fewer than sixteen schools apply for
participation in the program, the department shall select as many
eligible schools possible for partnership in the pilot program.
The department shall develop an application process for public
elementary schools to apply to participate in the pilot program.
The local school board for each elementary school selected to be
in the pilot program shall agree to implement and fully fund an
elementary social and emotional health program in such school
and to continue to provide such elementary social and emotional
health education program for a period no shorter than three
years. The local school district may employ a social and
emotional health teacher to provide such program for the
elementary school.

(3) The department, through its employees who work in the
school counseling section, and local school districts shall
collaborate to establish the instructional model for each
elementary social and emotional health education program. Such
instructional model shall be grade-appropriate and include
instruction in an organized classroom, including instruction on
how to set and achieve positive goals, how to utilize coping
strategies to handle stress, and shall have an increased emphasis
on protective factors, such as problem-solving skills, social
support and social connectedness through positive relationships
and teamwork.

(4) The department, through its school counseling section, shall provide for a program evaluation regarding the success and impact of the pilot program upon completion of the third year of the pilot program and shall report the results of such evaluation to the relevant house and senate committees on health and mental health, and education.

2. The department shall maintain an adequate number of full-time employees, certified in social and emotional health education and distributed regionally throughout the state, to provide accountability for program delivery of social and emotional health education, to continue to develop and maintain pertinent social and emotional health education instructional model and standards, to assist local school districts on matters related to social and emotional health education, and to coordinate regional and state-wide activities supporting K-12 social and emotional health education programming.

3. Nothing in this section shall be construed to require public elementary schools to participate in the pilot program.

170.045. 1. In school year 2020-21 and in each school year thereafter, each school district shall provide trauma-informed, developmentally-appropriate sexual abuse training to students in all grades not lower than sixth grade. School districts must include in the training the following:

   (1) Instruction providing students with the knowledge and tools to recognize sexual abuse;

   (2) Instruction providing students with the knowledge and tools to report an incident of sexual abuse;
(3) Actions that a student who is a victim of sexual abuse could take to obtain assistance and intervention; and

(4) Available resources for students affected by sexual abuse.

2. The department of elementary and secondary education shall provide guidance and training materials school districts may use to comply with the provisions of this section. The training materials shall be developed in consultation with the task force on the prevention of sexual abuse of children as established in section 210.1200.

3. The school district shall notify parents or guardians in advance of the training required under this section, of the content of the instruction, and the parent or guardian's right to have the student excused from the instruction. Upon written request of the parent or guardian of a student, the student shall be excused from instruction.

4. The department of elementary and secondary education may promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2019,
1 shall be invalid and void.

171.031.  1. Each school board shall prepare annually a
2 calendar for the school term, specifying the opening date, days
3 of planned attendance, and providing a minimum term of at least
4 one hundred seventy-four days for schools with a five-day school
5 week or one hundred forty-two days for schools with a four-day
6 school week, and one thousand forty-four hours of actual pupil
7 attendance. In school year 2019-20 and subsequent years, one
8 thousand forty-four hours of actual pupil attendance shall be
9 required for the school term with no minimum number of school
days. In addition, such calendar shall include six make-up days
for possible loss of attendance due to inclement weather as
defined in subsection 1 of section 171.033. In school year
14 2019-20 and subsequent years, such calendar shall include
15 thirty-six make-up hours for possible loss of attendance due to
16 inclement weather, as defined in subsection 1 of section 171.033,
17 with no minimum number of make-up days.

2. Each local school district may set its opening date each
year, which date shall be no earlier than [ten] fourteen calendar
days prior to the first Monday in September. No public school
district shall select an earlier start date unless, for calendars
for school years before school year 2020-21, the district follows
the procedure set forth in subsection 3 of this section. The
procedure set forth in subsection 3 of this section shall be
unavailable to school districts in preparing their calendars for
school year 2020-21 and for subsequent years.

3. For calendars for school years before school year 2020-
21, a district may set an opening date that is more than [ten]
fourteen calendar days prior to the first Monday in September only if the local school board first gives public notice of a public meeting to discuss the proposal of opening school on a date more than [ten] fourteen days prior to the first Monday in September, and the local school board holds said meeting and, at the same public meeting, a majority of the board votes to allow an earlier opening date. If all of the previous conditions are met, the district may set its opening date more than [ten] fourteen calendar days prior to the first Monday in September. The condition provided in this subsection must be satisfied by the local school board each year that the board proposes an opening date more than [ten] fourteen days before the first Monday in September.

4. If any local district violates the provisions of this section, the department of elementary and secondary education shall withhold an amount equal to one quarter of the state funding the district generated under section 163.031 for each date the district was in violation of this section.

5. The provisions of subsections 2 to 4 of this section shall not apply to school districts in which school is in session for twelve months of each calendar year.

6. The state board of education may grant an exemption from this section to a school district that demonstrates highly unusual and extenuating circumstances justifying exemption from the provisions of subsections 2 to 4 of this section. Any exemption granted by the state board of education shall be valid for one academic year only.

171.033. 1. "Inclement weather", for purposes of this
section, shall be defined as ice, snow, extreme cold, excessive heat, flooding, or a tornado[, but such term shall not include excessive heat].

2. (1) A district shall be required to make up the first six days of school lost or cancelled due to inclement weather and half the number of days lost or cancelled in excess of six days if the makeup of the days is necessary to ensure that the district’s students will attend a minimum of one hundred forty-two days and a minimum of one thousand forty-four hours for the school year except as otherwise provided in this section. Schools with a four-day school week may schedule such make-up days on Fridays.

(2) Notwithstanding subdivision (1) of this subsection, in school year 2019-20 and subsequent years, a district shall be required to make up the first thirty-six hours of school lost or cancelled due to inclement weather and half the number of hours lost or cancelled in excess of thirty-six if the makeup of the hours is necessary to ensure that the district’s students attend a minimum of one thousand forty-four hours for the school year, except as otherwise provided under subsections 3 and 4 of this section.

3. (1) In the 2009-10 school year and subsequent years, a school district may be exempt from the requirement to make up days of school lost or cancelled due to inclement weather in the school district when the school district has made up the six days required under subsection 2 of this section and half the number of additional lost or cancelled days up to eight days, resulting in no more than ten total make-up days required by this section.
In school year 2019-20 and subsequent years, a school district may be exempt from the requirement to make up school lost or cancelled due to inclement weather in the school district when the school district has made up the thirty-six hours required under subsection 2 of this section and half the number of additional lost or cancelled hours up to forty-eight, resulting in no more than sixty total make-up hours required by this section.

4. The commissioner of education may provide, for any school district that cannot meet the minimum school calendar requirement of at least one hundred seventy-four days for schools with a five-day school week or one hundred forty-two days for schools with a four-day school week and one thousand forty-four hours of actual pupil attendance or, in school year 2019-20 and subsequent years, one thousand forty-four hours of actual pupil attendance, upon request, a waiver to be excused from such requirement. This waiver shall be requested from the commissioner of education and may be granted if the school was closed due to circumstances beyond school district control, including inclement weather or fire.

5. (1) Except as otherwise provided in this subsection, in school year 2020-21 and subsequent years, a district shall not be required to make up any hours of school lost or cancelled due to exceptional or emergency circumstances during a school year if the district has an alternative methods of instruction plan approved by the department of elementary and secondary education for such school year. Exceptional or emergency circumstances shall include, but not be limited to, inclement weather, a
utility outage, or an outbreak of a contagious disease. The
department of elementary and secondary education shall not
approve any such plan unless the district demonstrates that the
plan will not negatively impact teaching and learning in the
district.

(2) If school is closed due to exceptional or emergency
circumstances and the district has an approved alternative
methods of instruction plan, the district shall notify students
and parents on each day of the closure whether the alternative
methods of instruction plan is to be implemented for that day.
If the plan is to be implemented on any day of the closure, the
district shall ensure that each student receives assignments for
that day in hard copy form or receives instruction through
virtual learning or another method of instruction.

(3) A district with an approved alternative methods of
instruction plan shall not use alternative methods of instruction
as provided for in the plan for more than thirty-six hours during
a school year. A district that has used such alternative methods
of instruction for thirty-six hours during a school year shall be
required, notwithstanding subsections 2 and 3 of this section, to
make up any subsequent hours of school lost or cancelled due to
exceptional or emergency circumstances during such school year.

(4) The department of elementary and secondary education
shall give districts with approved alternative methods of
instruction plans credit for the hours in which they use
alternative methods of instruction by considering such hours as
hours in which school was actually in session.

(5) Any district wishing to use alternative methods of
instruction under this subsection shall submit an application to
the department of elementary and secondary education. The
application shall describe:

(a) The manner in which the district intends to strengthen
and reinforce instructional content while supporting student
learning outside the classroom environment;

(b) The process the district intends to use to communicate
to students and parents the decision to implement alternative
methods of instruction on any day of a closure;

(c) The manner in which the district intends to communicate
the purpose and expectations for a day in which alternative
methods of instruction will be implemented to students and
parents;

(d) The assignments and materials to be used within the
district for days in which alternative methods of instruction
will be implemented to effectively facilitate teaching and
support learning for the benefit of the students;

(e) The manner in which student attendance will be
determined for a day in which alternative methods of instruction
will be implemented. The method chosen shall be linked to
completion of lessons and activities;

(f) The instructional methods, which shall include
instruction through electronic means and instruction through
other means for students who have no access to internet services
or a computer;

(g) Instructional plans for students with individualized
education programs; and

(h) The role and responsibility of certified personnel to
be available to communicate with students.

6. For the 2018-2019 school year, a district shall be exempt from the requirements of subsections 2 and 3 of this section, and only be required to make up the first six days of school lost or cancelled due to inclement weather.

177.086. 1. Any school district authorizing the construction of facilities which may exceed an expenditure of fifteen thousand dollars shall publicly advertise, once a week for two consecutive weeks, in a newspaper of general circulation, qualified pursuant to chapter 493, located within the city in which the school district is located, or if there be no such newspaper, in a qualified newspaper of general circulation in the county, or if there be no such newspaper, in a qualified newspaper of general circulation in an adjoining county, and may advertise in business, trade, or minority newspapers, for bids on said construction.

2. No bids shall be entertained by the school district which are not made in accordance with the specifications furnished by the district and all contracts shall be let to the lowest responsible bidder complying with the terms of the letting, provided that the district shall have the right to reject any and all bids.

3. All bids must be submitted sealed and in writing, to be opened publicly at time and place of the district's choosing.

178.530. 1. The state board of education shall establish standards and annually inspect, as a basis for approval, all public prevocational, vocational schools, State Technical College of Missouri, departments and classes receiving state or federal
moneys for giving training in agriculture, industrial, home economics and commercial subjects and all schools, departments and classes receiving state or federal moneys for the preparation of teachers and supervisors of such subjects. The public prevocational and vocational schools, State Technical College of Missouri, departments, and classes, and the training schools, departments and classes are entitled to the state or federal moneys so long as they are approved by the state board of education, as to site, plant, equipment, qualifications of teachers, admission of pupils, courses of study and methods of instruction. All disbursements of state or federal moneys for the benefit of the approved prevocational and vocational schools, State Technical College of Missouri, departments and classes shall be made semiannually. The school board of each approved school or the governing body of State Technical College of Missouri shall file a report with the state board of education at the times and in the form that the state board requires. Upon receipt of a satisfactory report, the state board of education shall certify to the commissioner of administration for his approval the amount of the state and federal moneys due the school district or State Technical College of Missouri. The amount due the school district shall be certified by the commissioner of administration and proper warrant therefor shall be issued to the district treasurer or State Technical College of Missouri.

2. Notwithstanding the provisions of subsection 1 of this section, the state board of education shall establish standards for agricultural education that may be adopted by a private
school accredited by an agency recognized by the United States Department of Education as an accreditor of private schools that wishes to provide quality vocational programming outside the requirements of, but consistent with, the federal Vocational Education Act. Such standards shall be sufficient to qualify a private school to apply to the state chapter for approval of a local chapter of a federally chartered national agricultural education association on a form developed for that purpose by the department of elementary and secondary education without eligibility to receive state or federal funding for agricultural vocational education. The provisions of this subsection shall not be construed to create eligibility for a private school to receive state or federal funding for agricultural vocational education, but shall not prohibit a private school from receiving state or federal funds for which such private school would otherwise be eligible for agricultural vocational education. Any such private school shall reimburse the department annually for the cost of oversight and maintenance of the program.

3. (1) The department of elementary and secondary education, through its agricultural education section, shall be authorized to establish a pilot program, beginning in the 2020-2021 school year, to provide for agricultural education in elementary schools in the state. The purpose of the pilot program shall be to determine whether and how to implement an elementary agricultural education program statewide.

(2) The department, through its employees who work in the agricultural education section, is authorized to select from among applications submitted by the public elementary schools a
minimum of sixteen public elementary schools for participation in the pilot program. The department shall develop an application process for public elementary schools to apply to participate in the pilot program. The local school board for each elementary school selected to be in the pilot program shall agree to implement and fully fund an elementary agricultural education program in such school and to continue to provide such elementary agricultural education program for a period no shorter than three years. The local school district may employ an agricultural education teacher to provide such program for the elementary school.

(3) The department, through its employees who work in the agricultural education section, and local school districts shall collaborate to establish the instructional model for each elementary agricultural education program. Such instructional model shall be grade-appropriate and include instruction in an organized classroom, collaborative learning experiences through investigation and inquiry, including laboratory and site-based learning activities, and personal, leadership, and career development opportunities.

(4) The department, through its agricultural education section, shall provide for a program evaluation regarding the success and impact of the pilot program upon completion of the third year of the pilot program and shall report the results of such evaluation to the relevant house and senate committees on agriculture and education.

4. The department shall maintain an adequate number of full-time employees, certified in agricultural education and
distributed regionally throughout the state, to provide accountability for program delivery of agricultural education, to continue to develop and maintain pertinent agricultural education instructional models and standards, to assist local school districts on matters related to agricultural education, and to coordinate regional and state-wide activities supporting K-12 agricultural education programming.

5. Nothing in this section shall be construed to require public elementary schools to participate in the pilot program.

210.110. As used in sections 210.109 to 210.165, and sections 210.180 to 210.183, the following terms mean:

(1) "Abuse", any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means by those responsible for the child's care, custody, and control, except that discipline including spanking, administered in a reasonable manner, shall not be construed to be abuse. Victims of abuse shall also include any victims of sex trafficking or severe forms of trafficking as those terms are defined in 22 U.S.C. 78 Section 7102(9)-(10);

(2) "Assessment and treatment services for children", an approach to be developed by the children's division which will recognize and treat the specific needs of at-risk and abused or neglected children. The developmental and medical assessment may be a broad physical, developmental, and mental health screening to be completed within thirty days of a child's entry into custody and in accordance with the periodicity schedule set forth by the American Academy of Pediatrics thereafter as long as the child remains in care. Screenings may be offered at a
centralized location and include, at a minimum, the following:

(a) Complete physical to be performed by a pediatrician familiar with the effects of abuse and neglect on young children;

(b) Developmental, behavioral, and emotional screening in addition to early periodic screening, diagnosis, and treatment services, including a core set of standardized and recognized instruments as well as interviews with the child and appropriate caregivers. The screening battery may be performed by a licensed mental health professional familiar with the effects of abuse and neglect on young children, who will then serve as the liaison between all service providers in ensuring that needed services are provided. Such treatment services may include in-home services, out-of-home placement, intensive twenty-four-hour treatment services, family counseling, parenting training and other best practices.

Children whose screenings indicate an area of concern may complete a comprehensive, in-depth health, psychodiagnostic, or developmental assessment within sixty days of entry into custody;
