

HB 342 -- EPINEPHRINE SYRINGES IN SCHOOL

SPONSOR: Washington

This bill requires public schools to adopt and implement a policy beginning in the 2019-20 school year for prefilled auto syringes of epinephrine. The school nurse or designated employee of the school is responsible for the maintenance of the supply.

The State Board of Education must develop a model policy for districts to adopt before January 1, 2020.
