

HB 348 -- OPEN RECORDS

SPONSOR: Lovasco

This bill adds an additional exception to the requirement to disclose records under the Open Records Act commonly known as the Sunshine law. The new exemption includes all written or electronic communications, memorandums, personal notes, or documentation relating to communications between a member of the General Assembly and a person or entity who is not a member of the General Assembly. Communications among members and employees of the State of Missouri are also exempt where such communications involve the official acts, powers, and duties of a public official or employee.
