

HB 504 -- NUISANCE ABATEMENT

SPONSOR: Schroer

This bill allows all municipalities in certain counties to order the abatement of weeds or trash within five business days after notice is sent or posted on the property. If the weeds or trash are not removed after five business days, the municipality may have the weeds or trash removed and the cost of removal may be billed on a special tax bill to be collected by the collector with other taxes assessed against the property.

Currently, the additional counties include Jackson and St. Charles.
