

House _____ Amendment NO. _____

Offered By _____

1 AMEND House Committee Substitute for Senate Substitute for Senate Bill No. 580, Page 7, Section
2 143.1160, Line 52, by inserting after said section and line the following:

3
4 "160.485. 1. As used in this section, the following terms mean:

5 (1) "Bleeding control kit", a first aid response kit that contains at least the following:

6 (a) Tourniquets that are:

7 a. Endorsed by the United States Department of Defense Committee on Tactical Combat
8 Casualty Care or its successor entity; or

9 b. Approved for use in battlefield trauma care by the Armed Forces of the United States;

10 (b) Bleeding control bandages;

11 (c) First aid thermal blankets, commonly referred to as space emergency blankets;

12 (d) Latex-free protective gloves;

13 (e) Permanent markers;

14 (f) Scissors;

15 (g) Instructional documents developed by either the United States Department of Homeland
16 Security's Stop the Bleed national awareness campaign or the American College of Surgeons
17 Committee on Trauma, or both; and

18 (h) Other medical materials and equipment similar to those described in paragraphs (a) and
19 (b) of this subdivision;

20 (2) "Department", the department of elementary and secondary education;

21 (3) "Emergency medical services personnel", paid or volunteer firefighters, law enforcement
22 officers, first responders, emergency medical technicians, or other emergency service personnel
23 acting within the ordinary course and scope of their professions, but excluding physicians;

24 (4) "School personnel", any employee of a public school district or charter school, or any
25 volunteer serving at a public school or charter school, who is designated to use a bleeding control kit
26 under this section.

27 2. (1) Before January 1, 2021, the department shall develop a traumatic blood loss protocol
28 for school personnel to follow in the event of an injury involving traumatic blood loss. The protocol
29 shall meet the requirements of this section, and shall be made available to each school district and
30 charter school.

31 (2) The traumatic blood loss protocol shall:

32 (a) Require that a bleeding control kit be placed in each classroom of each school district's
33 school building and each charter school in an easily accessible location to be determined by local
34 emergency medical services personnel;

35 (b) Include bleeding control kits in the emergency plans of each school district and charter
36 school, including the presentation and use of the bleeding control kits in all drills and emergencies;

Action Taken _____ Date _____

(c) Require each school district and charter school to designate at least five school personnel members in each school building who shall obtain appropriate training annually in the use of a bleeding control kit, including:

- a. The proper application of pressure to stop bleeding;
- b. The proper application of dressings or bandages;
- c. Additional pressure techniques to control bleeding; and
- d. The correct application of tourniquets;

(d) Require each bleeding control kit in school inventories to be inspected annually to ensure that the materials, supplies, and equipment contained in the bleeding control kit have not expired, and that any expired materials, supplies, and equipment are replaced as necessary; and

(e) Require a bleeding control kit to be restocked after each use and any materials, supplies, and equipment to be replaced as necessary to ensure that the bleeding control kit contains all necessary materials, supplies, and equipment.

3. (1) The department shall, in collaboration with the United States Department of Homeland Security and the state department of public safety, include requirements in the traumatic blood loss protocol for school personnel to receive annual training in the use of bleeding control kits.

(2) The training requirements may be satisfied by using any instruction available from the Missouri Hospital Association, the American College of Surgeons or a similar organization authorized by the United States Department of Homeland Security, or the emergency medicine department of a health-related institution of higher education or a hospital.

(3) The training requirements shall use nationally recognized, evidence-based guidelines for bleeding control and shall incorporate instruction on the psychomotor skills necessary to use a bleeding control kit in the event of an injury to another person, including but not limited to instruction on proper chest seal placement.

(4) The training may be provided by local emergency medical services personnel, representatives of any organization or institution that developed or endorsed the training, other trained school personnel, or other similarly qualified individuals.

(5) Certification in bleeding control shall not be a required element of the training requirements. If the training provides for certification in bleeding control, the instructor shall be authorized to provide the instruction for the purpose of certification by any organization or institution that developed or endorsed the training.

(6) The training requirements may allow online instruction.

4. (1) A bleeding control kit may contain any additional items that:

(a) Are approved by emergency medical services personnel, as such term is defined in section 190.600;

(b) Can adequately treat an injury involving traumatic blood loss; and

(c) Can be stored in a readily available kit.

(2) Quantities of each item required to be in a bleeding control kit may be determined by each school district.

5. (1) The department and each school district and charter school shall maintain information regarding the traumatic blood loss protocol and the Stop the Bleed national awareness campaign on each entity's website.

(2) Upon request by a school district or a charter school, the department may, in collaboration with the department of public safety, direct the school district or charter school to resources that are available to provide bleeding control kits to the school district or charter school.

6. (1) Except as otherwise provided in this subsection, each school district and charter school shall implement the traumatic blood loss protocol developed under this section before the end of the 2020-21 school year.

1 (2) The requirements that a bleeding control kit be placed in each classroom, that each kit be
2 restocked as necessary, and that school personnel receive training under this section shall be subject
3 to an appropriation to cover all costs related to such requirements by the general assembly.

4 (3) Any school district or charter school may receive donations of funds for the purchase of
5 bleeding control kits that meet the requirements of this section, and may receive donations of
6 bleeding control kits that meet the requirements of this section.

7 7. Any school district or charter school that has a traumatic blood loss protocol prior to the
8 effective date of this section shall be exempt from the requirements of this section.

9 8. This section shall not be construed to create a cause of action against a school district, a
10 charter school, or any school personnel. Any school personnel who in good faith uses a bleeding
11 control kit as provided by this section shall be immune from all civil liability for any act or omission
12 in the use of a bleeding control kit unless the act or omission constitutes gross negligence or willful,
13 wanton, or intentional misconduct."; and

14
15 Further amend said bill by amending the title, enacting clause, and intersectional references
16 accordingly.
