10 judiciary[~~7~~]; or a member of such person's immediate family
11 contained in the department's motor vehicle or driver
12 registration records, based on a specific request for such
13 information from any person. Any such person may notify the
14 department of his or her status and the department shall protect
15 the confidentiality of the home address and vehicle records on
16 such a person and his or her immediate family as required by this
17 section. This section shall not prohibit the department from
18 releasing information on a motor registration list pursuant to
19 section 32.055 or from releasing information on any officer who
20 holds a class A, B or C commercial driver's license pursuant to
21 the Motor Carrier Safety Improvement Act of 1999, as amended, 49
22 U.S.C. 31309.

23 32.300. 1. In a county where personal property tax records
24 are accessible via computer, and when proof of motor vehicle
25 liability insurance, safety inspections and emission inspections
26 where required are verifiable by computer, the department of
27 revenue shall design and implement a motor vehicle license

1 renewal system which may be used through the department's
2 internet website connection. ~~【The online license renewal system~~
3 ~~shall be available no later than January 1, 2002.】~~ The department
4 of revenue shall also design and implement an online system
5 allowing the filing and payment of Missouri state taxes through
6 the department's internet website connection. The online tax
7 filing and payment system shall be available for the payment of
8 Missouri state taxes for tax years beginning on or after January
9 1, 2002.

10 2. The department of revenue is hereby authorized to design
11 and implement a remote driver's license renewal system which may
12 be used through the department's internet website connection or
13 through self-service terminals available at one or more locations
14 within the state. Any remote driver's license renewal system
15 implemented by the department shall be compliant with the
16 provisions of the federal REAL ID Act of 2005 (Public Law
17 108-13), as amended, the Commercial Motor Vehicle Safety Act of

20 and any regulations related thereto.

21 3. Notwithstanding any provision of law to the contrary,
22 applicants who have applied in person and received a driver's or
23 nondriver's license in accordance with chapter 302 may apply for
24 no more than one consecutive three-year or six-year license
25 renewal remotely in accordance with this section. Remote
26 application for renewal shall be made within six months before or
27 after the expiration date of the license in accordance with

1 section 302.173. Applicants for remote driver's license renewal
2 in accordance with this section shall not be required to complete
3 the vision test established under section 302.175, and shall not
4 be required to take the highway sign recognition test required
5 under section 302.173, unless the department has technology that
6 may be used remotely for either or both purposes.

7 32.450. 1. Notwithstanding any biometric data restrictions
8 contained in section 302.170, the department of revenue is hereby
9 authorized to design and implement a secure digital driver's
10 license program that allows applicants applying for a driver's
11 license in accordance with chapter 302 to obtain a secure digital
12 driver's license in addition to the physical card-based driver's
13 license.

14 2. (1) A digital driver's license issued under this
15 section shall be acceptable for all purposes for which a license,
16 as defined in section 302.010, is used.

17 (2) The department may contract with one or more entities
18 to develop the secure digital driver's license system. The
19 department or entity may develop a mobile software application
20 capable of being utilized through a person's electronic device to
21 access an electronic image of the person's secure digital
22 driver's license.

23 (3) The department shall suspend, disable, or terminate a
24 person's participation in the secure digital driver's license
25 program if:

26 (a) The person's driving privilege is suspended, revoked,
27 denied, withdrawn, or cancelled as provided in chapter 302; or

1 (b) The person reports that the person's electronic device
2 has been lost, stolen, or compromised.

3 3. The department of revenue may promulgate rules necessary
4 to implement the provisions of this section. Any rule or portion
5 of a rule, as that term is defined in section 536.010, that is
6 created under the authority delegated in this section shall
7 become effective only if it complies with and is subject to all
8 of the provisions of chapter 536 and, if applicable, section
9 536.028. This section and chapter 536 are nonseverable, and if
10 any of the powers vested with the general assembly pursuant to
11 chapter 536 to review, to delay the effective date, or to
12 disapprove and annul a rule are subsequently held
13 unconstitutional, then the grant of rulemaking authority and any
14 rule proposed or adopted after August 28, 2020, shall be invalid
15 and void.

16 68.075. 1. This section shall be known and may be cited as
17 the "Advanced Industrial Manufacturing Zones Act".

18 2. As used in this section, the following terms shall mean:

19 (1) "AIM zone", an area identified through a resolution
20 passed by the port authority board of commissioners appointed
21 under section 68.045 that is being developed or redeveloped for
22 any purpose so long as any infrastructure and building built or
23 improved is in the development area. The port authority board of
24 commissioners shall file an annual report indicating the
25 established AIM zones with the department of revenue;

26 (2) "County average wage", the average wage in each county
27 as determined by the Missouri department of economic development

1 for the most recently completed full calendar year. However, if
2 the computed county average wage is above the statewide average
3 wage, the statewide average wage shall be deemed the county
4 average wage for such county for the purpose of determining
5 eligibility;

6 (3) "New job", the number of full-time employees located at
7 the project facility that exceeds the project facility base
8 employment less any decrease in the number of full-time employees
9 at related facilities below the related facility base employment.
10 No job that was created prior to the date of the notice of intent
11 shall be deemed a new job. An employee that spends less than
12 fifty percent of the employee's work time at the facility is
13 still considered to be located at a facility if the employee
14 receives his or her directions and control from that facility, is
15 on the facility's payroll, one hundred percent of the employee's
16 income from such employment is Missouri income, and the employee
17 is paid at or above the county average wage;

18 (4) "Related facility", a facility operated by a company or
19 a related company prior to the establishment of the AIM zone in
20 question located within any port district, as defined under
21 section 68.015, which is directly related to the operations of
22 the facility within the new AIM zone.

23 3. Any port authority located in this state may establish
24 an AIM zone. Such zone may only include the area within the port
25 authority's jurisdiction, ownership, or control, and may include
26 any such area. The port authority shall determine the boundaries
27 for each AIM zone, and more than one AIM zone may exist within

1 the port authority's jurisdiction or under the port authority's
2 ownership or control, and may be expanded or contracted by
3 resolution of the port authority board of commissioners.

4 4. Fifty percent of the state tax withholdings imposed by
5 sections 143.191 to 143.265 on new jobs within such zone after
6 development or redevelopment has commenced shall not be remitted
7 to the general revenue fund of the state of Missouri. Such
8 moneys shall be deposited into the port authority AIM zone fund
9 established under subsection 5 of this section for the purpose of
10 continuing to expand, develop, and redevelop AIM zones identified
11 by the port authority board of commissioners and may be used for
12 managerial, engineering, legal, research, promotion, planning,
13 satisfaction of bonds issued under section 68.040, and any other
14 expenses.

15 5. There is hereby created in the state treasury the "Port
16 Authority AIM Zone Fund", which shall consist of money collected
17 under this section. The state treasurer shall be custodian of
18 the fund and shall approve disbursements from the fund in
19 accordance with sections 30.170 and 30.180 to the port
20 authorities from which the funds were collected, less the
21 pro-rata portion appropriated by the general assembly to be used
22 solely for the administration of this section which shall not
23 exceed ten percent of the total amount collected within the zones
24 of a port authority. Notwithstanding the provisions of section
25 33.080 to the contrary, any moneys remaining in the fund at the
26 end of the biennium shall not revert to the credit of the general
27 revenue fund. The state treasurer shall invest moneys in the

1 fund in the same manner as other funds are invested. Any
2 interest and moneys earned on such investments shall be credited
3 to the fund.

4 6. The port authority shall approve any projects that begin
5 construction and disperse any money collected under this section.
6 The port authority shall submit an annual budget for the funds to
7 the department of economic development explaining how and when
8 such money will be spent.

9 7. The provision of section 23.253 notwithstanding, no AIM
10 zone may be established after August 28, ~~[2023]~~ 2030. Any AIM
11 zone created prior to that date shall continue to exist and be
12 coterminous with the retirement of all debts incurred under
13 subsection 4 of this section. No debts may be incurred or
14 reauthorized using AIM zone revenue after August 28, ~~[2023]~~ 2030.

15 136.055. 1. Any person who is selected or appointed by the
16 state director of revenue as provided in subsection 2 of this
17 section to act as an agent of the department of revenue, whose
18 duties shall be the processing of motor vehicle title and
19 registration transactions and the collection of sales and use
20 taxes when required under sections 144.070 and 144.440, and who
21 receives no salary from the department of revenue, shall be
22 authorized to collect from the party requiring such services
23 additional fees as compensation in full and for all services
24 rendered on the following basis:

25 (1) For each motor vehicle or trailer registration issued,
26 renewed or transferred, six dollars and twelve dollars for those
27 licenses sold or biennially renewed pursuant to section 301.147;

1 (2) For each application or transfer of title, six dollars;

2 (3) For each instruction permit, nondriver license,
3 chauffeur's, operator's or driver's license issued for a period
4 of three years or less, six dollars and twelve dollars for
5 licenses or instruction permits issued or renewed for a period
6 exceeding three years;

7 (4) For each notice of lien processed, six dollars;

8 (5) Notary fee or electronic transmission per processing,
9 two dollars.

10 2. (1) The director of revenue shall award fee office
11 contracts under this section through a competitive bidding
12 process. The competitive bidding process shall give priority to
13 organizations and entities that are ~~[exempt from taxation under~~
14 ~~Section 501(c)(3), 501(c)(6), or 501(c)(4), except those civic~~
15 ~~organizations that would be considered action organizations under~~
16 ~~26 C.F.R. Section 1.501(c)(3)-1(c)(3), of the Internal Revenue~~
17 ~~Code of 1986, as amended]~~ Missouri not-for-profit corporations,
18 with special consideration given to those organizations and
19 entities that reinvest a minimum of seventy-five percent of the
20 net proceeds to charitable organizations in Missouri, and
21 political subdivisions, including but not limited to,
22 municipalities, counties, and fire protection districts. The
23 director of the department of revenue ~~[may]~~ shall promulgate
24 rules and regulations necessary to carry out the provisions of
25 this subsection. Any rule or portion of a rule, as that term is
26 defined in section 536.010, that is created under the authority
27 delegated in this subsection shall become effective only if it

1 complies with and is subject to all of the provisions of chapter
2 536 and, if applicable, section 536.028. This section and
3 chapter 536 are nonseverable and if any of the powers vested with
4 the general assembly pursuant to chapter 536 to review, to delay
5 the effective date, or to disapprove and annul a rule are
6 subsequently held unconstitutional, then the grant of rulemaking
7 authority and any rule proposed or adopted after August 28, 2009,
8 shall be invalid and void.

9 (2) Rules promulgated pursuant to subdivision (1) of this
10 subsection for evaluating bids shall include a preference for
11 persons and entities that are based in a location near the fee
12 office location. If the department utilizes any scoring
13 mechanism for evaluating bids pursuant to this section, such
14 scoring mechanism shall ensure that:

15 (a) A person or entity based no more than thirty-five miles
16 from the fee office location shall be awarded a bonus of fifteen
17 percent of the total available points;

18 (b) A person or entity based more than thirty-five miles
19 but no more than sixty miles from the fee office location shall
20 be awarded a bonus of ten percent of the total available points;

21 (c) A person or entity that is a resident of this state
22 shall be awarded a bonus of ten percent of the total available
23 points. For the purposes of this paragraph, "resident" shall
24 have the same meaning as defined pursuant to section 143.101. In
25 the case of for-profit corporations, each person with an
26 ownership interest in such organization with the right to manage
27 the company or direct its operations either solely or as part of

1 a larger group shall be a resident of this state; and

2 (d) A person or entity based more than sixty miles but no
3 more than seventy-five miles from the fee office location shall
4 be awarded a bonus of seven percent of the total available
5 points.

6 (3) No fee office contract shall be awarded to any person
7 or entity that is not in compliance with the rules promulgated
8 pursuant to this subsection.

9 (4) The department of revenue shall not consider for a
10 contract award any entity that has not been registered with the
11 office of the secretary of state for at least one year.

12 3. All fees collected by a tax-exempt organization may be
13 retained and used by the organization.

14 4. All fees charged shall not exceed those in this section.
15 The fees imposed by this section shall be collected by all
16 permanent offices and all full-time or temporary offices
17 maintained by the department of revenue.

18 5. Any person acting as agent of the department of revenue
19 for the sale and issuance of registrations, licenses, and other
20 documents related to motor vehicles shall have an insurable
21 interest in all license plates, licenses, tabs, forms and other
22 documents held on behalf of the department.

23 6. The fees authorized by this section shall not be
24 collected by motor vehicle dealers acting as agents of the
25 department of revenue under section 32.095 or those motor vehicle
26 dealers authorized to collect and remit sales tax under
27 subsection 10 of section 144.070.

1 7. Notwithstanding any other provision of law to the
2 contrary, the state auditor may audit all records maintained and
3 established by the fee office in the same manner as the auditor
4 may audit any agency of the state, and the department shall
5 ensure that this audit requirement is a necessary condition for
6 the award of all fee office contracts. No confidential records
7 shall be divulged in such a way to reveal personally identifiable
8 information.

9 137.115. 1. All other laws to the contrary
10 notwithstanding, the assessor or the assessor's deputies in all
11 counties of this state including the City of St. Louis shall
12 annually make a list of all real and tangible personal property
13 taxable in the assessor's city, county, town or district. Except
14 as otherwise provided in subsection 3 of this section and section
15 137.078, the assessor shall annually assess all personal property
16 at thirty-three and one-third percent of its true value in money
17 as of January first of each calendar year. The assessor shall
18 annually assess all real property, including any new construction
19 and improvements to real property, and possessory interests in
20 real property at the percent of its true value in money set in
21 subsection 5 of this section. The true value in money of any
22 possessory interest in real property in subclass (3), where such
23 real property is on or lies within the ultimate airport boundary
24 as shown by a federal airport layout plan, as defined by 14 CFR
25 151.5, of a commercial airport having a FAR Part 139
26 certification and owned by a political subdivision, shall be the
27 otherwise applicable true value in money of any such possessory

1 interest in real property, less the total dollar amount of costs
2 paid by a party, other than the political subdivision, towards
3 any new construction or improvements on such real property
4 completed after January 1, 2008, and which are included in the
5 above-mentioned possessory interest, regardless of the year in
6 which such costs were incurred or whether such costs were
7 considered in any prior year. The assessor shall annually assess
8 all real property in the following manner: new assessed values
9 shall be determined as of January first of each odd-numbered year
10 and shall be entered in the assessor's books; those same assessed
11 values shall apply in the following even-numbered year, except
12 for new construction and property improvements which shall be
13 valued as though they had been completed as of January first of
14 the preceding odd-numbered year. The assessor may call at the
15 office, place of doing business, or residence of each person
16 required by this chapter to list property, and require the person
17 to make a correct statement of all taxable tangible personal
18 property owned by the person or under his or her care, charge or
19 management, taxable in the county. On or before January first of
20 each even-numbered year, the assessor shall prepare and submit a
21 two-year assessment maintenance plan to the county governing body
22 and the state tax commission for their respective approval or
23 modification. The county governing body shall approve and
24 forward such plan or its alternative to the plan to the state tax
25 commission by February first. If the county governing body fails
26 to forward the plan or its alternative to the plan to the state
27 tax commission by February first, the assessor's plan shall be

1 considered approved by the county governing body. If the state
2 tax commission fails to approve a plan and if the state tax
3 commission and the assessor and the governing body of the county
4 involved are unable to resolve the differences, in order to
5 receive state cost-share funds outlined in section 137.750, the
6 county or the assessor shall petition the administrative hearing
7 commission, by May first, to decide all matters in dispute
8 regarding the assessment maintenance plan. Upon agreement of the
9 parties, the matter may be stayed while the parties proceed with
10 mediation or arbitration upon terms agreed to by the parties.
11 The final decision of the administrative hearing commission shall
12 be subject to judicial review in the circuit court of the county
13 involved. In the event a valuation of subclass (1) real property
14 within any county with a charter form of government, or within a
15 city not within a county, is made by a computer, computer-
16 assisted method or a computer program, the burden of proof,
17 supported by clear, convincing and cogent evidence to sustain
18 such valuation, shall be on the assessor at any hearing or
19 appeal. In any such county, unless the assessor proves
20 otherwise, there shall be a presumption that the assessment was
21 made by a computer, computer-assisted method or a computer
22 program. Such evidence shall include, but shall not be limited
23 to, the following:

24 (1) The findings of the assessor based on an appraisal of
25 the property by generally accepted appraisal techniques; and

26 (2) The purchase prices from sales of at least three
27 comparable properties and the address or location thereof. As

1 used in this subdivision, the word "comparable" means that:

2 (a) Such sale was closed at a date relevant to the property
3 valuation; and

4 (b) Such properties are not more than one mile from the
5 site of the disputed property, except where no similar properties
6 exist within one mile of the disputed property, the nearest
7 comparable property shall be used. Such property shall be within
8 five hundred square feet in size of the disputed property, and
9 resemble the disputed property in age, floor plan, number of
10 rooms, and other relevant characteristics.

11 2. Assessors in each county of this state and the City of
12 St. Louis may send personal property assessment forms through the
13 mail.

14 3. The following items of personal property shall each
15 constitute separate subclasses of tangible personal property and
16 shall be assessed and valued for the purposes of taxation at the
17 following percentages of their true value in money:

18 (1) Grain and other agricultural crops in an unmanufactured
19 condition, one-half of one percent;

20 (2) Livestock, twelve percent;

21 (3) Farm machinery, twelve percent;

22 (4) Motor vehicles which are eligible for registration as
23 and are registered as historic motor vehicles [~~pursuant to~~] under
24 section 301.131 and aircraft which are at least twenty-five years
25 old and which are used solely for noncommercial purposes and are
26 operated less than [~~fifty~~] two hundred hours per year or aircraft
27 that are home built from a kit, five percent;

1 (5) Poultry, twelve percent; and

2 (6) Tools and equipment used for pollution control and
3 tools and equipment used in retooling for the purpose of
4 introducing new product lines or used for making improvements to
5 existing products by any company which is located in a state
6 enterprise zone and which is identified by any standard
7 industrial classification number cited in subdivision (5) of
8 section 135.200, twenty-five percent.

9 4. The person listing the property shall enter a true and
10 correct statement of the property, in a printed blank prepared
11 for that purpose. The statement, after being filled out, shall
12 be signed and either affirmed or sworn to as provided in section
13 137.155. The list shall then be delivered to the assessor.

14 5. (1) All subclasses of real property, as such subclasses
15 are established in Section 4(b) of Article X of the Missouri
16 Constitution and defined in section 137.016, shall be assessed at
17 the following percentages of true value:

18 (a) For real property in subclass (1), nineteen percent;

19 (b) For real property in subclass (2), twelve percent; and

20 (c) For real property in subclass (3), thirty-two percent.

21 (2) A taxpayer may apply to the county assessor, or, if not
22 located within a county, then the assessor of such city, for the
23 reclassification of such taxpayer's real property if the use or
24 purpose of such real property is changed after such property is
25 assessed under the provisions of this chapter. If the assessor
26 determines that such property shall be reclassified, he or she
27 shall determine the assessment under this subsection based on the

1 percentage of the tax year that such property was classified in
2 each subclassification.

3 6. Manufactured homes, as defined in section 700.010, which
4 are actually used as dwelling units shall be assessed at the same
5 percentage of true value as residential real property for the
6 purpose of taxation. The percentage of assessment of true value
7 for such manufactured homes shall be the same as for residential
8 real property. If the county collector cannot identify or find
9 the manufactured home when attempting to attach the manufactured
10 home for payment of taxes owed by the manufactured home owner,
11 the county collector may request the county commission to have
12 the manufactured home removed from the tax books, and such
13 request shall be granted within thirty days after the request is
14 made; however, the removal from the tax books does not remove the
15 tax lien on the manufactured home if it is later identified or
16 found. For purposes of this section, a manufactured home located
17 in a manufactured home rental park, rental community or on real
18 estate not owned by the manufactured home owner shall be
19 considered personal property. For purposes of this section, a
20 manufactured home located on real estate owned by the
21 manufactured home owner may be considered real property.

22 7. Each manufactured home assessed shall be considered a
23 parcel for the purpose of reimbursement [~~pursuant to~~] under
24 section 137.750, unless the manufactured home is deemed to be
25 real estate [~~as defined in~~] under subsection 7 of section 442.015
26 and assessed as a realty improvement to the existing real estate
27 parcel.

15 vehicles described in such publication. The assessor shall not
16 use a value that is greater than the average trade-in value in
17 determining the true value of the motor vehicle without
18 performing a physical inspection of the motor vehicle. For
19 vehicles two years old or newer from a vehicle's model year, the
20 assessor may use a value other than average without performing a
21 physical inspection of the motor vehicle. In the absence of a

23 assessor shall use such information or publications which in the
24 assessor's judgment will fairly estimate the true value in money
25 of the motor vehicle.

26 10. Before the assessor may increase the assessed valuation
27 of any parcel of subclass (1) real property by more than fifteen

1 percent since the last assessment, excluding increases due to new

5 under subsection 10 of this section, the assessor shall notify
6 the property owner of that fact in writing and shall provide the
7 owner clear written notice of the owner's rights relating to the
8 physical inspection. If a physical inspection is required, the

10 performed during the physical inspection. The owner shall have
11 no less than thirty days to notify the assessor of a request for
12 an interior physical inspection.

19 buildings or improvements on the property upon the timely request
20 of the owner ~~[pursuant to]~~ under subsection 11 of this section.

25 shall only apply in any county with a charter form of government
26 with more than one million inhabitants.

21 of this section and sections 137.073, 138.060, and 138.100 as
22 enacted by house bill no. 1150 of the ninety-first general

18 classification with more than twenty-six thousand three hundred
19 but fewer than twenty-six thousand seven hundred inhabitants
20 located in any county that has exercised its authority to opt out

8 shall issue an identification number to each registered owner of
9 fleet vehicles.

10 2. All fleet vehicles included in the fleet of a registered
11 fleet owner shall be registered during April of the corresponding
12 year or on a prorated basis as provided in subsection 3 of this

12 violated in order to obtain or renew a Missouri noncommercial
13 driver's license, noncommercial instruction permit, or a
14 nondriver's license.

15 7. No citizen of this state shall have his or her privacy
16 compromised by the state or agents of the state. The state shall
17 within reason protect the sovereignty of the citizens the state
18 is entrusted to protect. Any data derived from a person's
19 application shall not be sold for commercial purposes to any
20 other organization or any other state without the express
21 permission of the applicant without a court order; except such
22 information may be shared with a law enforcement agency, judge,
23 prosecuting attorney, or officer of the court, or with another
24 state for the limited purposes set out in section 302.600, or for
25 the purposes set forth in section 32.091, or for conducting
26 driver history checks in compliance with the Motor Carrier Safety
27 Improvement Act, 49 U.S.C. Section 31309. The state of Missouri

1 shall protect the privacy of its citizens when handling any
2 written, digital, or electronic data, and shall not participate
3 in any standardized identification system using driver's and
4 nondriver's license records except as provided in this section.

5 8. Other than to process a request by a license or card
6 holder or applicant, no person shall knowingly access,
7 distribute, or allow access to or distribution of any written,
8 digital, or electronic data collected or retained under this
9 section without the express permission of the applicant or a
10 court order, except that such information may be shared with a
11 law enforcement agency, judge, prosecuting attorney, or officer
12 of the court, or with another state for the limited purposes set
13 out in section 302.600 or for conducting driver history checks in
14 compliance with the Motor Carrier Safety Improvement Act, 49
15 U.S.C. Section 31309. A first violation of this subsection shall
16 be a class A misdemeanor. A second violation of this subsection
17 shall be a class E felony. A third or subsequent violation of
18 this subsection shall be a class D felony.

19 9. Any person harmed or damaged by any violation of this
20 section may bring a civil action for damages, including
21 noneconomic and punitive damages, as well as injunctive relief,
22 in the circuit court where that person resided at the time of the
23 violation or in the circuit court of Cole County to recover such
24 damages from the department of revenue and any persons
25 participating in such violation. Sovereign immunity shall not be
26 available as a defense for the department of revenue in such an
27 action. In the event the plaintiff prevails on any count of his

1 or her claim, the plaintiff shall be entitled to recover
2 reasonable attorney fees from the defendants.

3 10. The department of revenue may promulgate rules
4 necessary to implement the provisions of this section. Any rule
5 or portion of a rule, as that term is defined in section 536.010,
6 that is created under the authority delegated in this section
7 shall become effective only if it complies with and is subject to
8 all of the provisions of chapter 536 and, if applicable, section
9 536.028. This section and chapter 536 are nonseverable and if
10 any of the powers vested with the general assembly pursuant to
11 chapter 536 to review, to delay the effective date, or to
12 disapprove and annul a rule are subsequently held
13 unconstitutional, then the grant of rulemaking authority and any
14 rule proposed or adopted after August 28, 2017, shall be invalid
15 and void.

16 11. Biometric data, digital images, source documents, and
17 licensee signatures, or any copies of the same, required to be
18 collected or retained to comply with the requirements of the
19 federal REAL ID Act of 2005 shall be digitally retained for no
20 longer than the minimum duration required to maintain compliance,
21 and immediately thereafter shall be securely destroyed so as to
22 make them irretrievable.

23 12. No agency, department, or official of this state or of
24 any political subdivision thereof shall use, collect, obtain,
25 share, or retain radio frequency identification data from a REAL
26 ID compliant driver's license or identification card issued by a
27 state, nor use the same to uniquely identify any individual.

1 13. Notwithstanding any provision of law to the contrary,
2 the department of revenue shall not amend procedures for applying
3 for a driver's license or identification card, nor promulgate any
4 rule or regulation, for purposes of complying with modifications
5 made to the federal REAL ID Act of 2005 after August 28, 2017,
6 imposing additional requirements on applications, document
7 retention, or issuance of compliant licenses or cards, including
8 any rules or regulations promulgated under the authority granted
9 under the federal REAL ID Act of 2005, as amended, or any
10 requirements adopted by the American Association of Motor Vehicle
11 Administrators for furtherance thereof.

12 14. If the federal REAL ID Act of 2005 is modified or
13 repealed such that driver's licenses and identification cards
14 issued by this state that are not compliant with the federal REAL
15 ID Act of 2005 are once again sufficient for federal
16 identification purposes, the department shall not issue a
17 driver's license or identification card that complies with the
18 federal REAL ID Act of 2005 and shall securely destroy, within
19 thirty days, any source documents retained by the department for
20 the purpose of compliance with such Act.

21 ~~[15. The provisions of this section shall expire five years~~
22 ~~after August 28, 2017.]~~

23 302.171. 1. The director shall verify that an applicant
24 for a driver's license is a Missouri resident or national of the
25 United States or a noncitizen with a lawful immigration status,
26 and a Missouri resident before accepting the application. The
27 director shall not issue a driver's license for a period that

1 exceeds the duration of an applicant's lawful immigration status
2 in the United States. The director may establish procedures to
3 verify the Missouri residency or United States naturalization or
4 lawful immigration status and Missouri residency of the applicant
5 and establish the duration of any driver's license issued under
6 this section. Notwithstanding any other provision of law to the
7 contrary, the director shall accept electronic versions of the
8 documents required to verify Missouri residency. An application
9 for a license shall be made upon an approved form furnished by
10 the director. Every application shall state the full name,
11 Social Security number, age, height, weight, color of eyes, sex,
12 residence, mailing address of the applicant, and the
13 classification for which the applicant has been licensed, and, if
14 so, when and by what state, and whether or not such license has
15 ever been suspended, revoked, or disqualified, and, if revoked,
16 suspended or disqualified, the date and reason for such
17 suspension, revocation or disqualification and whether the
18 applicant is making a one dollar donation to promote an organ
19 donation program as prescribed in subsection 2 of this section. A
20 driver's license, nondriver's license, or instruction permit
21 issued under this chapter shall contain the applicant's legal
22 name as it appears on a birth certificate or as legally changed
23 through marriage or court order. No name change by common usage
24 based on common law shall be permitted. The application shall
25 also contain such information as the director may require to
26 enable the director to determine the applicant's qualification
27 for driving a motor vehicle; and shall state whether or not the

1 applicant has been convicted in this or any other state for
2 violating the laws of this or any other state or any ordinance of
3 any municipality, relating to driving without a license, careless

3 services, the applicant shall place the sticker on the back of
4 his or her driver's license or identification card to indicate
5 that he or she has made an anatomical gift. The director shall

17 the blindness education, screening and treatment program fund
18 established in section 209.015. Moneys in the blindness
19 education, screening and treatment program fund shall be used
20 solely for the purposes established in section 209.015; except

23 this subsection is voluntary and may be refused by the applicant
24 for the license at the time of issuance or renewal of the

6 which contains or is substantiated with false or fraudulent
7 information or documentation, or who knowingly conceals a
8 material fact or otherwise commits a fraud in any such
9 application. The period of denial shall be one year from the
10 effective date of the denial notice sent by the director. The

21 an applicant does not meet the requirements of subsection 8 of
22 this section and does not have the required documents to prove
23 Missouri residency, United States naturalization, or lawful
24 immigration status, the department may issue a one-year driver's
25 license renewal. This one-time renewal shall only be issued to
26 an applicant who previously has held a Missouri noncommercial
27 driver's license, noncommercial instruction permit, or

1 nondriver's license for a period of fifteen years or more and who
2 does not have the required documents to prove Missouri residency,
3 United States naturalization, or lawful immigration status.

4 section.

5 4. Information provided to the department by an insurance
6 company for use in accordance with this section is the property
7 of the insurer and is not subject to disclosure pursuant to
8 chapter 610. Such information may be utilized by the department
9 for enforcement of this chapter but may not be disclosed except
10 that the department shall disclose whether an individual is
11 maintaining the required insurance coverage upon request of the
12 following individuals and agencies only:

13 (1) The individual;

14 (2) The parent or legal guardian of an individual if the
15 individual is an unemancipated minor;

16 (3) The legal guardian of the individual if the individual
17 is legally incapacitated;

18 (4) Any person who has power of attorney from the
19 individual;

20 (5) Any person who submits a notarized release from the
21 individual that is dated no more than ninety days before the
22 request is made;

23 (6) Any person claiming loss or injury in a motor vehicle
24 accident in which the individual is involved;

25 (7) The office of the state auditor, for the purpose of
26 conducting any audit authorized by law.

27 5. The director may adopt any rules and regulations

1 necessary to carry out the provisions of subdivisions (1) through
2 (3) of subsection 3 of this section. Any rule or portion of a
3 rule, as that term is defined in section 536.010, that is created
4 under the authority delegated in this section shall become
5 effective only if it complies with and is subject to all of the
6 provisions of chapter 536 and, if applicable, section 536.028.
7 This section and chapter 536 are nonseverable and if any of the
8 powers vested with the general assembly pursuant to chapter 536
9 to review, to delay the effective date or to disapprove and annul
10 a rule are subsequently held unconstitutional, then the grant of
11 rulemaking authority and any rule proposed or adopted after
12 August 28, 2000, shall be invalid and void.

13 6. Any person or agency who knowingly discloses information
14 received from insurance companies pursuant to this section for
15 any purpose, or to a person, other than those authorized in this
16 section is guilty of a class A misdemeanor. No insurer shall be
17 liable to any person for performing its duties pursuant to this
18 section unless and to the extent the insurer commits a willful
19 and wanton act of omission.

20 7. The department of revenue shall notify the department of
21 commerce and insurance of any insurer who violates any provisions
22 of this section. The department of commerce and insurance may,
23 against any insurer who knowingly fails to comply with this
24 section, assess an administrative penalty up to five hundred
25 dollars per day of noncompliance. The department of commerce and
26 insurance may excuse the administrative penalty if an assessed
27 insurer provides acceptable proof that such insurer's

1 noncompliance was inadvertent, accidental or the result of
2 excusable neglect. The penalty provisions of this section shall
3 become effective six months after the rule issued pursuant to
4 subsections 3 and 5 of this section is published in the code of
5 state regulations.

6 8. To verify that financial responsibility is being
7 maintained, the director shall notify the owner or operator of
8 the need to provide, within fifteen days, proof of the existence
9 of the required financial responsibility. The request shall
10 require the owner or the operator to state whether or not the
11 motor vehicle was insured on the verification date stated in the
12 director's request. The request may include but not be limited
13 to a statement of the names and addresses of insurers, policy
14 numbers and expiration date of insurance coverage. Failure to
15 provide such information shall result in the suspension of the
16 registration of the owner's motor vehicle, and where applicable,
17 the owner's or the operator's driving privilege, for failing to
18 meet such requirements, as is provided in this chapter.

19 304.170. 1. No vehicle operated upon the highways of this
20 state shall have a width, including load, in excess of one
21 hundred two inches, except clearance lights, rearview mirrors or
22 other accessories required by federal, state or city law or
23 regulation. Provided however, a recreational vehicle as defined
24 in section 700.010 may exceed the foregoing width limits if the
25 appurtenances on such recreational vehicle extend no further than
26 the rearview mirrors. Such mirrors may only extend the distance
27 necessary to provide the required field of view before the

1 appurtenances were attached.

2 2. No vehicle operated upon the interstate highway system
3 or upon any route designated by the state highways and
4 transportation commission shall have a height, including load, in
5 excess of fourteen feet. On all other highways, no vehicle shall
6 have a height, including load, in excess of thirteen and one-half
7 feet, except that any vehicle or combination of vehicles
8 transporting automobiles or other motor vehicles may have a
9 height, including load, of not more than fourteen feet.

10 3. No single motor vehicle operated upon the highways of
11 this state shall have a length, including load, in excess of
12 forty-five feet, except as otherwise provided in this section.

13 4. No bus, recreational motor vehicle or trackless trolley
14 coach operated upon the highways of this state shall have a
15 length in excess of forty-five feet, except that such vehicles
16 may exceed the forty-five feet length when such excess length is
17 caused by the projection of a front safety bumper or a rear
18 safety bumper or both. Such safety bumper shall not cause the
19 length of the bus or recreational motor vehicle to exceed the
20 forty-five feet length limit by more than one foot in the front
21 and one foot in the rear. Notwithstanding any provision of this
22 section to the contrary, an articulated bus, comprised of two or
23 more sections connected by a flexible joint or other mechanism,
24 may be up to sixty feet in length, not including safety bumpers
25 which may extend one foot in front and one foot in the rear, and
26 not including bicycle storage racks which may extend over the
27 safety bumper by up to five feet when in the down position

1 transporting a bicycle. The term "safety bumper" means any
2 device which may be fitted on an existing bumper or which
3 replaces the bumper and is so constructed, treated, or
4 manufactured that it absorbs energy upon impact.

5 5. No combination of truck-tractor and semitrailer or
6 truck-tractor equipped with dromedary and semitrailer operated
7 upon the highways of this state shall have a length, including
8 load, in excess of sixty feet; except that in order to comply
9 with the provisions of P.L. 97-424 codified in Title 23 of the
10 United States Code, 23 U.S.C. Section 101, et al., as amended, no
11 combination of truck-tractor and semitrailer or truck-tractor
12 equipped with dromedary and semitrailer operated upon the
13 interstate highway system of this state shall have an overall
14 length, including load, in excess of the length of the
15 truck-tractor plus the semitrailer or truck-tractor equipped with
16 dromedary and semitrailer. The length of such semitrailer shall
17 not exceed fifty-three feet.

18 6. In order to comply with the provisions of P.L. 97-424
19 codified in Title 23 of the United States Code, 23 U.S.C. Section
20 101, et al., as amended, no combination of truck-tractor,
21 semitrailer and trailer operated upon the interstate highway
22 system of this state shall have an overall length, including
23 load, in excess of the length of the truck-tractor plus the
24 semitrailer and trailer, neither of which semitrailer or trailer
25 shall exceed twenty-eight feet in length, except that any
26 existing semitrailer or trailer up to twenty-eight and one-half
27 feet in length actually and lawfully operated on December 1,

1 1982, within a sixty-five foot overall length limit in any state,
2 may continue to be operated upon the interstate highways of this
3 state. On those primary highways not designated by the state
4 highways and transportation commission as provided in subsection
5 11 of this section, no combination of truck-tractor, semitrailer
6 and trailer shall have an overall length, including load, in
7 excess of sixty-five feet; provided, however, the commission may
8 designate additional routes for such sixty-five foot
9 combinations.

10 7. (1) Automobile transporters, boat transporters,
11 truck-trailer boat transporter combinations, and stinger-steered
12 combination boat transporters having a length not in excess of
13 seventy-five feet may be operated on the interstate highways of
14 this state and such other highways as may be designated by the
15 commission for the operation of such vehicles plus a distance not
16 to exceed ten miles from such interstate or designated highway.
17 All length provisions regarding automobile or boat transporters,
18 truck-trailer boat transporter combinations and stinger-steered
19 combination boat transporters shall include a semitrailer length
20 not to exceed fifty-three feet and are exclusive of front and
21 rear overhang, which shall be no greater than a three-foot front
22 overhang and no greater than a four-foot rear overhang.

23 (2) Stinger-steered combination automobile transporters
24 having a length not in excess of eighty feet may be operated on
25 the interstate highways of this state and such other highways as
26 may be designated by the commission for the operation of such
27 vehicles plus a distance not to exceed ten miles from such

1 interstate or designated highway. All length provisions
2 regarding stinger-steered automobile combination transporters are
3 exclusive of front and rear overhang, which shall be no greater
4 than a four-foot front overhang and no greater than a six-foot
5 rear overhang.

6 (3) Automobile transporters may transport cargo or general
7 freight on a backhaul, as long as in compliance with weight
8 limitations for a truck-tractor and semitrailer combination as
9 outlined in section 304.180.

10 8. Driveaway saddlemount combinations having a length not
11 in excess of ninety-seven feet may be operated on the interstate
12 highways of this state and such other highways as may be
13 designated by the commission for the operation of such vehicles
14 plus a distance not to exceed ten miles from such interstate or
15 designated highway. Saddlemount combinations must comply with
16 the safety requirements of Section 393.71 of Title 49 of the Code
17 of Federal Regulations and may contain no more than three
18 saddlemounted vehicles and one fullmount.

19 9. No truck-tractor semitrailer-semitrailer combination
20 vehicles operated upon the interstate and designated primary
21 highway system of this state shall have a semitrailer length in
22 excess of twenty-eight feet or twenty-eight and one-half feet if
23 the semitrailer was in actual and lawful operation in any state
24 on December 1, 1982, operating in a truck-tractor
25 semitrailer-semitrailer combination. The B-train assembly is
26 excluded from the measurement of semitrailer length when used
27 between the first and second semitrailer of a truck-tractor

1 semitrailer-semitrailer combination, except that when there is no
2 semitrailer mounted to the B-train assembly, it shall be included
3 in the length measurement of the semitrailer.

4 10. No towaway trailer transporter combination vehicles
5 operated upon the interstate and designated primary highway
6 system of this state shall have an overall length of more than
7 eighty-two feet.

8 11. The commission is authorized to designate routes on the
9 state highway system other than the interstate system over which
10 those combinations of vehicles of the lengths specified in
11 subsections 5, 6, 7, 8, 9, and 10 of this section may be
12 operated. Combinations of vehicles operated under the provisions
13 of subsections 5, 6, 7, 8, 9, and 10 of this section may be
14 operated at a distance not to exceed ten miles from the
15 interstate system and such routes as designated under the
16 provisions of this subsection.

17 12. Except as provided in subsections 5, 6, 7, 8, 9, 10,
18 and 11 of this section, no other combination of vehicles operated
19 upon the primary or interstate highways of this state plus a
20 distance of ten miles from a primary or interstate highway shall
21 have an overall length, unladen or with load, in excess of
22 sixty-five feet or in excess of fifty-five feet on any other
23 highway.

24 13. (1) Except as hereinafter provided, these restrictions
25 shall not apply to:

26 (a) Agricultural implements operating occasionally on the
27 highways for short distances including tractor parades for

1 fund-raising activities or special events, provided the tractors
2 are driven by licensed drivers during daylight hours only and
3 with the approval of the superintendent of the Missouri state
4 highway patrol; [~~or to~~]

5 (b) Self-propelled hay-hauling equipment or to implements
6 of husbandry, or to the movement of farm products as defined in
7 section 400.9-102 or to vehicles temporarily transporting
8 agricultural implements or implements of husbandry or road-making
9 machinery, or road materials or towing for repair purposes
10 vehicles that have become disabled upon the highways; [~~or to~~]

11 (c) Vehicles towing trailers specifically designed to carry
12 harvested cotton, either as a single trailer or in tandem, with a
13 total length, including the trailer or trailers, of not more than
14 ninety-three feet; such vehicles shall only be used to haul
15 harvested cotton, except when hauling hay within the state to
16 areas affected by drought as determined by the National Drought
17 Mitigation Center; or

18 (d) Implement dealers delivering or moving farm machinery
19 for repairs on any state highway other than the interstate
20 system.

21 (2) Implements of husbandry and vehicles transporting such
22 machinery or equipment and the movement of farm products as
23 defined in section 400.9-102 may be operated occasionally for
24 short distances on state highways when operated between the hours
25 of sunrise and sunset by a driver licensed as an operator or
26 chauffeur.

27 (3) Notwithstanding any other provision of law to the

1 contrary, agricultural machinery and implements may be operated
2 on state highways between the hours of sunset and sunrise for
3 agricultural purposes provided such vehicles are equipped with
4 lighting meeting the requirements of section 307.115.

5 14. As used in this chapter the term "implements of
6 husbandry" means all self-propelled machinery operated at speeds
7 of less than thirty miles per hour, specifically designed for, or
8 especially adapted to be capable of, incidental over-the-road and
9 primary offroad usage and used exclusively for the application of
10 commercial plant food materials or agricultural chemicals, and
11 not specifically designed or intended for transportation of such
12 chemicals and materials.

13 15. Sludge disposal units may be operated on all state
14 highways other than the interstate system. Such units shall not
15 exceed one hundred thirty-eight inches in width and may be
16 equipped with over-width tires. Such units shall observe all
17 axle weight limits. The commission shall issue special permits
18 for the movement of such disposal units and may by such permits
19 restrict the movements to specified routes, days and hours.

20 304.172. The provisions of sections 304.170 to 304.240
21 relating to height, width, ~~[weight,]~~ and length ~~[and load]~~
22 restrictions for motor vehicles shall not apply to any motor
23 vehicle and its attached apparatus which is designed for use and
24 used by a fire department, fire protection district or volunteer
25 fire protection association or when being operated by a fire
26 apparatus manufacturer or sales organization for the purpose of
27 sale, demonstration, exhibit, or delivery to a fire department,

1 fire protection district or volunteer fire protection
2 association.

3 304.180. 1. No vehicle or combination of vehicles shall be
4 moved or operated on any highway in this state having a greater
5 weight than twenty thousand pounds on one axle, no combination of
6 vehicles operated by transporters of general freight over regular
7 routes as defined in section 390.020 shall be moved or operated
8 on any highway of this state having a greater weight than the
9 vehicle manufacturer's rating on a steering axle with the maximum
10 weight not to exceed twelve thousand pounds on a steering axle,
11 and no vehicle shall be moved or operated on any state highway of
12 this state having a greater weight than thirty-four thousand
13 pounds on any tandem axle; the term "tandem axle" shall mean a
14 group of two or more axles, arranged one behind another, the
15 distance between the extremes of which is more than forty inches
16 and not more than ninety-six inches apart.

17 2. An "axle load" is defined as the total load transmitted
18 to the road by all wheels whose centers are included between two
19 parallel transverse vertical planes forty inches apart, extending
20 across the full width of the vehicle.

21 3. Subject to the limit upon the weight imposed upon a
22 highway of this state through any one axle or on any tandem axle,
23 the total gross weight with load imposed by any group of two or
24 more consecutive axles of any vehicle or combination of vehicles
25 shall not exceed the maximum load in pounds as set forth in the
26 following table:

27

1 Distance in feet between the extremes of any group of two or more
 2 consecutive axles, measured to the nearest foot, except where
 3 indicated otherwise

8 Notwithstanding the above table, two consecutive sets of tandem
9 axles may carry a gross load of thirty-four thousand pounds each
10 if the overall distance between the first and last axles of such
11 consecutive sets of tandem axles is thirty-six feet or more.

12 4. Whenever the state highways and transportation
13 commission finds that any state highway bridge in the state is in
14 such a condition that use of such bridge by vehicles of the
15 weights specified in subsection 3 of this section will endanger
16 the bridge, or the users of the bridge, the commission may
17 establish maximum weight limits and speed limits for vehicles
18 using such bridge. The governing body of any city or county may
19 grant authority by act or ordinance to the commission to enact
20 the limitations established in this section on those roadways
21 within the purview of such city or county. Notice of the weight
22 limits and speed limits established by the commission shall be
23 given by posting signs at a conspicuous place at each end of any
24 such bridge.

25 5. Nothing in this section shall be construed as permitting
26 lawful axle loads, tandem axle loads or gross loads in excess of
27 those permitted under the provisions of P.L. 97-424 codified in

1 Title 23 of the United States Code (23 U.S.C. Section 101, et
2 al.), as amended.

3 6. Notwithstanding the weight limitations contained in this
4 section, any vehicle or combination of vehicles operating on
5 highways other than the interstate highway system may exceed
6 single axle, tandem axle and gross weight limitations in an
7 amount not to exceed two thousand pounds. However, total gross
8 weight shall not exceed eighty thousand pounds, except as
9 provided in subsections 9, 10, 12, and 13 of this section.

10 7. Notwithstanding any provision of this section to the
11 contrary, the commission shall issue a single-use special permit,
12 or upon request of the owner of the truck or equipment shall
13 issue an annual permit, for the transporting of any crane or
14 concrete pump truck or well-drillers' equipment. The commission
15 shall set fees for the issuance of permits and parameters for the
16 transport of cranes pursuant to this subsection. Notwithstanding
17 the provisions of section 301.133, cranes, concrete pump trucks,
18 or well-drillers' equipment may be operated on state-maintained
19 roads and highways at any time on any day.

20 8. Notwithstanding the provision of this section to the
21 contrary, the maximum gross vehicle limit and axle weight limit
22 for any vehicle or combination of vehicles equipped with an idle
23 reduction technology may be increased by a quantity necessary to
24 compensate for the additional weight of the idle reduction system
25 as provided for in 23 U.S.C. Section 127, as amended. In no case
26 shall the additional weight increase allowed by this subsection
27 be greater than five hundred fifty pounds. Upon request by an

1 appropriate law enforcement officer, the vehicle operator shall
2 provide proof that the idle reduction technology is fully
3 functional at all times and that the gross weight increase is not
4 used for any purpose other than for the use of idle reduction
5 technology.

6 9. Notwithstanding any provision of this section or any
7 other law to the contrary, the total gross weight of any vehicle
8 or combination of vehicles hauling milk, from a farm to a
9 processing facility or livestock may be as much as, but shall not
10 exceed, eighty-five thousand five hundred pounds while operating
11 on highways other than the interstate highway system. The
12 provisions of this subsection shall not apply to vehicles
13 operated and operating on the Dwight D. Eisenhower System of
14 Interstate and Defense Highways.

15 10. Notwithstanding any provision of this section or any
16 other law to the contrary, any vehicle or combination of vehicles
17 hauling grain or grain coproducts during times of harvest may be
18 as much as, but not exceeding, ten percent over the maximum
19 weight limitation allowable under subsection 3 of this section
20 while operating on highways other than the interstate highway
21 system. The provisions of this subsection shall not apply to
22 vehicles operated and operating on the Dwight D. Eisenhower
23 System of Interstate and Defense Highways.

24 11. Notwithstanding any provision of this section or any
25 other law to the contrary, the commission shall issue emergency
26 utility response permits for the transporting of utility wires or
27 cables, poles, and equipment needed for repair work immediately

1 following a disaster where utility service has been disrupted.
2 Under exigent circumstances, verbal approval of such operation
3 may be made either by the department of transportation motor
4 carrier compliance supervisor or other designated motor carrier
5 services representative. Utility vehicles and equipment used to
6 assist utility companies granted special permits under this
7 subsection may be operated and transported on state-maintained
8 roads and highways at any time on any day. The commission shall
9 promulgate all necessary rules and regulations for the
10 administration of this section. Any rule or portion of a rule,
11 as that term is defined in section 536.010, that is created under
12 the authority delegated in this section shall become effective
13 only if it complies with and is subject to all of the provisions
14 of chapter 536 and, if applicable, section 536.028. This section
