FISCAL ANALYSIS

ASSUMPTION

§210.950 - Newborn safety incubators

Officials from the **Joint Committee on Administrative Rules (JCAR)** state the legislation is not anticipated to cause a fiscal impact to JCAR beyond its current appropriation.

Oversight assumes JCAR will be able to administer any rules resulting from this proposal with existing resources.

Oversight notes the **Department of Health and Senior Services**, the **Department of Social Services**, the **Boone County Sheriff's Department**, the **St. Louis County Department of Justice Services**, the **St. Louis Police Department** and the **Springfield Police Department** have each stated the proposal would not have a direct fiscal impact on their respective organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these organizations.

Oversight notes the provisions of this proposal simply add newborn safety incubators to the list of safe places for a newborn to be placed by a relinquishing parent.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could require additional resources.

ASSUMPTION (continued)

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other hospitals, fire departments, ambulance districts, sheriff's departments and police departments were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.
