FISCAL ANALYSIS

ASSUMPTION

Officials at the **City of Springfield** assume a potential slight positive fiscal impact to the City if the City elects to utilize audio, video, or digital recording in lieu of a reporter, and if those means are less costly than a reporter.

Officials at the **City of Kansas City**, the **City of Columbia** and the **City of O’Fallon** each assume no fiscal impact to their respective entities from this proposal.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other cities were requested to respond to this proposed legislation, but did not. A general listing of political subdivisions included in our database is available upon request.

Oversight notes the proposal adds the option of audio, video, or digital recording as a means to keep records of all testimony for the Boards of Adjustment. Currently, all such records must be recorded by a reporter employed by the board for that purpose. Oversight assumes cities would choose the option that satisfies their needs, and cost savings may be a part of that decision. Therefore, Oversight will assume an impact to cities of \$0 or an unknown amount.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This bill authorizes the Board of Adjustment to keep records of all testimony, objections thereto, and rulings thereon by any form of audiotape, videotape, or digital recording.

Currently, all such records must be taken down by a reporter employed by the board for that purpose.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
