## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **Department of Corrections (DOC)** state the new offense of unlawful caller identification spoofing is a class A misdemeanor, which is not supervised by DOC. Therefore, DOC does not expect a significant fiscal impact.

Officials from the **Office of the State Public Defender** assume no fiscal impact as the entities placing the calls are not likely to be indigent.

Officials from the **Office of the State Courts Administrator, Department of Public Safety - Missouri Highway Patrol** and the **Office of the Attorney General** each assume the proposal would not fiscally impact their respective agencies.

Officials from the **Office of Prosecution Services (OPS)** assume the proposal would not have a measurable fiscal impact on their agency. The creation of a new crime creates additional responsibilities for county prosecutors which may, in turn, result in additional costs which are difficult to determine.

**Oversight** notes that the agencies listed above have each stated the proposal would not have a direct fiscal impact on their respective organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.
