## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **Department of Public Safety - Missouri National Guard (MNG)** believe there is a potential fiscal impact of \$150,000 - \$200,000 to our personal services. This potential impact would cause reorganizing into a department structure which would create Division Directors, a Deputy Director and Department Director. The unknown at this time is our ability to pay a percentage of certain employees with federal money depending on their funding source and involvement with military missions.

**Oversight** notes the concerns of the MNG and realizes with a restructure new duties and pay ranges may be established or affected. Therefore, Oversight will reflect a cost of \$0 or Could exceed (\$200,000) to the DOD's budget for additional salaries (including fringe benefits) as well as other department-specific personnel that may be required (budget, general counsel, etc.) by creating another department.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

**Oversight** assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could require additional resources.

Officials from the **Office of Administration - General Services (OA/GS)** state if the creation of a Department of Defense and the other changes are interpreted to increase the number of people covered by state workers' compensation benefits and the Legal Expense Fund, then there could be an increase in costs to the state for workers' compensation benefits and costs to the LEF, if claims are successfully brought.

ASSUMPTION (continued)

The number of potential claims, the severity of those claims, and the ultimate costs associated with any settlement or judgment resulting from those claims cannot be forecasted with any degree of assurance to their accuracy.

The state self-assumes its own liability for workers' compensation benefits and under the state Legal Expense Fund, Section 105.711, RSMo. The LEF is a self-funding mechanism whereby funds are made available for the payment of any claim or judgment rendered against the state in regard to the waivers of sovereign immunity or against employees and specified and individuals. Investigation, defense, negotiation or settlement of such claims is provided by the Office of the Attorney General. Payment is made by the Commissioner of Administration with the approval of the Attorney General.

**Oversight** assumes the new personnel caused by creating a new department would not materially change the number of people covered by state workers' compensation benefits would have no fiscal impact upon the OA/GS and will reflect a zero impact for fiscal note purposes.

Officials from the **Governor's Office** state this proposal creates the "Department of Defense" and grants authority to the Governor to appoint a director, by and with advice and consent of the senate. There should be no added cost to the Governor's Office as a result of this measure.

**Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note for this agency.

In response to a previous version, officials from the **Office of Administration - Divisions of Accounting, Personnel, ITSD, and Purchasing** have each stated the proposal would not have a direct fiscal impact on their respective organizations.

**Oversight** notes the **Department of Public Safety** and the **Missouri Senate** have each stated the proposal would not have a direct fiscal impact on their respective organizations.

**Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Oversight will range the fiscal impact of the transfer from \$0 (joint resolution is rejected by the voters) or to the annual appropriation for the Department of Public Safety - Office of the Adjutant General.

ASSUMPTION (continued)

According to HB 8 (2019), the total amount appropriated to the Office of the Adjutant General for FY 2020, by fund is:

General Revenue	\$7,904,523
Missouri National Guard Trust Fund	\$5,275,256
Federal Drug Seizure Fund	\$240,000
Veterans' Commission Capital Improvement Trust Fund	\$635,628
Federal Funds	\$30,388,904
Adjutant General Revolving Fund	\$25,000
Missouri Military Family Relief Fund	\$150,000
National Guard Training Site Fund	\$351,436
<b>Total</b>	<b>\$44,970,747</b>

Since the transfer would be effective January 1, 2021, Oversight will reflect six months of impact in FY 2021
