FISCAL ANALYSIS

ASSUMPTION

§195.070 - Administration of certain controlled substances

Officials from the **Department of Health and Senior Services (DHSS)** state the proposed legislation modifies provisions relating to the administration of certain controlled substances by allowing practitioners to administer a controlled substance when it is delivered to the practitioner to administer to the patient for whom the medication is prescribed. The Division of Regulation and Licensure, Section for Health Standards and Licensure, Bureau of Narcotics and Dangerous Drugs (BNDD) is responsible for the regulation of controlled substances. The proposed legislation would require amending current rules and regulations.

It is assumed it will take a Health and Senior Services Manager (salary \$68,802) approximately 16 hours to make the required changes to state rules. Based on 2,080 working hours per year, this would require 0.01 FTE to assume these duties ($16 \text{ hours} \div 2,080 \text{ hours per year} = 0.01$) for a total personal service cost of \$688 ($\$68,802 \times 0.01$).

The DHSS anticipates being able to absorb these costs. However, until the FY21 budget is final, the department cannot identify specific funding sources.

Oversight does not have any information to the contrary. Oversight assumes the DHSS has sufficient staff and resources available to absorb the minimal cost associated with implementing this proposal and will reflect no impact as provided by the DHSS for fiscal note purposes.

Oversight notes the **Department of Commerce and Insurance** has stated the proposal would not have a direct fiscal impact on their organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for this organization.

FISCAL DESCRIPTION

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
