

HB 1387 -- ELECTRONIC MONITORING

SPONSOR: Murphy

This bill establishes the "Authorized Electronic Monitoring in Long-Term Care Facilities Act", which specifies the parameters of electronic monitoring by residents of long-term care facilities (Section 198.610, RSMo).

The bill describes unauthorized monitoring and prohibits the facility and the Department of Health and Senior Services from being civilly or criminally liable for such monitoring (Section 198.614).

The bill requires the department to promulgate rules that prescribe a form to be completed and signed by every resident that explains the liabilities and rights for residents who place covert or authorized electronic monitoring devices, and the procedures to request authorized monitoring (Section 198.616).

The bill also describes who may consent to electronic monitoring (Section 198.618) and how that monitoring shall be requested, including the form, with the consent of any other residents in the room and the conditions of their consent (Section 198.620).

The bill requires the facility and any resident conducting electronic monitoring to post a conspicuous sign indicating that rooms, or the room of the resident is being monitored. It also states that facilities must accommodate requests for monitoring and shall not refuse to admit an individual that requests electronic monitoring. For purposes of abuse and neglect, the bill outlines time lines and reporting requirements for people who might view footage on behalf of a resident and specifies when a video recording may be used as evidence. Finally, the bill specifies when the department may sanction facilities or their administrators who violate these provisions (Sections 198.622 to 198.628).

The bill also makes it a class B misdemeanor to intentionally hamper, obstruct, tamper with, or destroy devices installed or data collected under these provisions, or to conduct unauthorized monitoring after a written warning to cease and desist from that conduct (Section 198.632).

This bill is similar to HB 719 (2019).
