

HB 1737 -- ELECTRICITY RESILIENCE

SPONSOR: Hicks

This bill authorizes electrical corporations to file requests for cost recovery with the Public Service Commission for investments to improve electricity resilience at critical facilities. The commission must consider certain factors when determining cost recovery for the investments. Approved investments must be supported through cost-recovery mechanisms otherwise approved by the commission and the commission must conduct an annual review of investments to determine their performance in improving critical facility energy resilience.

This bill is the same as HB 1155 (2019).
