

HB 2135 -- TRANSFERS OF FIREARMS

SPONSOR: Lavender

This bill requires all sales or transfers of firearms to be processed by a federally licensed firearms dealer who is first required to conduct a National Instant Criminal Background Check System background check to determine if the purchaser or transferee is legally barred from possessing a firearm. This bill does not require federally licensed dealers to ask for any additional information or take any additional steps beyond those actions currently required by federal law. This bill ensures that the information obtained by the dealer or submitted to the FBI cannot be disclosed.

This bill is similar to HB 210 (2019) and HB 23 (2019 Special Session)
