

HB 2566 -- TELEHEALTH SERVICES

SPONSOR: Helms

This bill establishes license requirements for providers of telehealth services that are licensed outside the state of Missouri. It also states that providers are not shielded from personal jurisdiction by the state's courts, or any requirements of the Health Insurance Portability and Accountability Act of 1996. Finally, it provides that a health carrier does not need to reimburse for telehealth services provided by a provider not licensed in this state.
